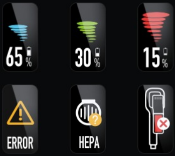
Smart Color Screen Make cleaning more brilliant

New smart OLED colorful screen Real-time display of dynamic information such as suction, electricity and Calorie consumption, while cleaning , visible cleaning status.



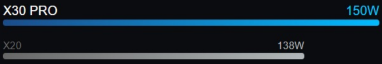
*Screen of X30 Pro is OLED colorful screen
Screen of X30 is LED Digital screen

Humanized interactive design

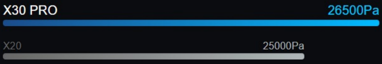
Roidmi insists on humanized design, always trying hard to promote 1% of the users' experience by a thousand lines of code efforts.
Make 100% sure to ensure the user's convenience,
Visible 3 kinds of cleaning mode operation phases real-time machine status guidance, calorie consumption, charging status and so on.

Roidmi's best flagship

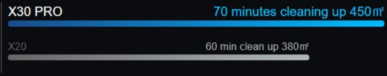
Stronger suction
Engine-X 2.0



Higher vacuum
Engine-X 2.0

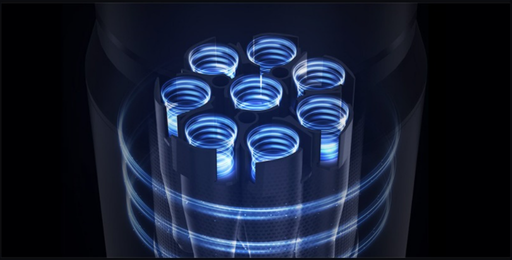


Longer life
BMS-X 2.0



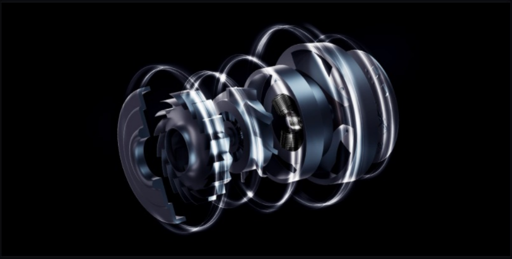
Air-X 2.0 Air dust separation
High-end 8 cone Separation Cyclones
Maintain constant suction

Air-X 2.0，8 cone air dust separation, 8 parallel tornadoes are used to separate dust into the dust collection cup, to avoid blockage of the air duct and reduce suction, and avoid frequent filter cleaning.



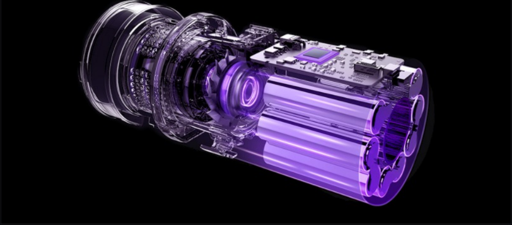
Engine-X 2.0
120000 digital brushless motor

In Roidmi's new cleaning lab, energy efficiency has been improved significantly comparing to the previous generation, resulting in stronger performance, longer life and less noise.



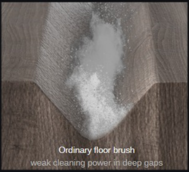
BMS-X 2.0 battery system
8 power lithium battery

By optimizing the 8 power lithium batteries through the new BMS-X 2.0 system，battery life is improved to up to 70 min which is able to clean 450㎡, only charge once.

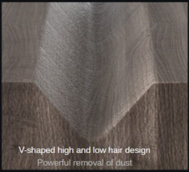


X30-V Versatile Roller Brush

Suitable for all terrain and all scenes clean black technology



Ordinary floor brush
weak cleaning power in deep gaps



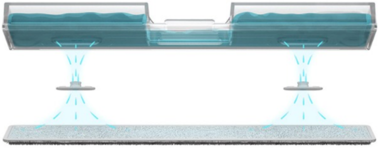
V-shaped high and low hair design
Powerful removal of dust

Second-generation antibacterial see-through magnetic water tank

Using Novaron ion antibacterial materials, vacuuming and mopping at the same time, floor disinfection and epidemic prevention, to protect the health of the family. Magnetic suction design, connected as one by magnetic if needed, separate once pulled.

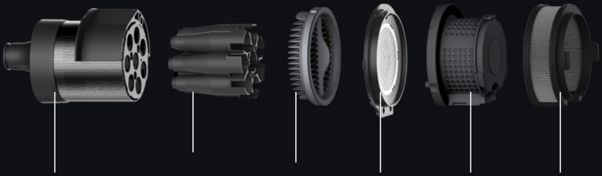
Plant bionic drip technology for water tank

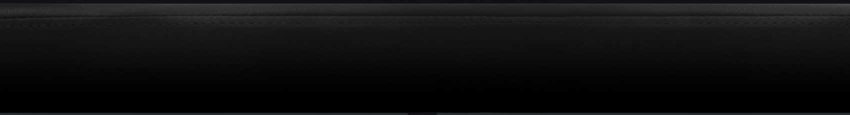
According to the principle of plant capillaries, mops will automatically absorb water to get wet.



Six-level filtration + Double antibacterial
Antibacterial air purifier on vacuum cleaner

Six-level filtration from Roidmi Air Purifier, Metal mesh filter for large particles, double purification of front and back double filter.





LED light lighting
no dead corners when cleaning

The creative light-brushing LED light-sensitive lamp makes it possible to be lit immediately when entering dark corners such as the bed and sofa bottom, so that there is nowhere to hide the dust in the dark, and no dead corners when cleaning .

0.55L Big volume dust cup
No-touch dirt emptying

No need to touch the dirt, just 1 button-press to release all the dirt. 1 time dirt emptying for 450㎡ clean area with optimized 0.55L dust cup design.

Magnetic absorption wireless charging

Wireless is simple and unlimited
Lean on it slightly to recharge, easy to use.

Concern about sound quality
triple noise reduction, lighter and quieter[6]

Engine-X 2.0 brushless motor to eliminate harsh noise;
Air-X 2.0. 8 cone air duct optimization, noise offset;
Noise reduction filter in rear, shielding noise.
