

# AC1200 Wi-Fi Router MU-MIMO Gigabit

Archer A6

## Smooth Entertainment with AC1200 Dual Band Wi-Fi

The Archer A6 creates a reliable and blazing-fast network powered by 802.11ac Wi-Fi technology. The 2.4GHz band delivers speeds up to 300Mbps, ready for everyday tasks like emailing and web browsing, while the 5GHz band delivers speeds up to 867Mbps, ideal for HD video streaming and lag-free online gaming.

## Advanced Security with WPA3

The latest Wi-Fi security protocol, WPA3, brings new capabilities to improve cybersecurity in personal networks. More secure encryption in Wi-Fi password safety and enhanced protection against brute-force attacks combine to safeguard your home Wi-Fi.

## Boosted Wi-Fi Coverage Throughout Your Home

Four external antennas send Wi-Fi signals to every corner of your home. Stay connected and enjoy fast Wi-Fi whether you are lounging on the sofa or on the balcony. Beamforming technology detects devices, even if they are far-away or low-powered, and concentrates wireless signal strength towards them.

## MU-MIMO Brings More Simultaneous Connections

MU-MIMO lets the Archer A6 serve multiple devices at once. No more bandwidth congestion or latency. All devices get their data faster and Wi-Fi is used more efficiently!

## Gigabit Connectivity, 10x Faster

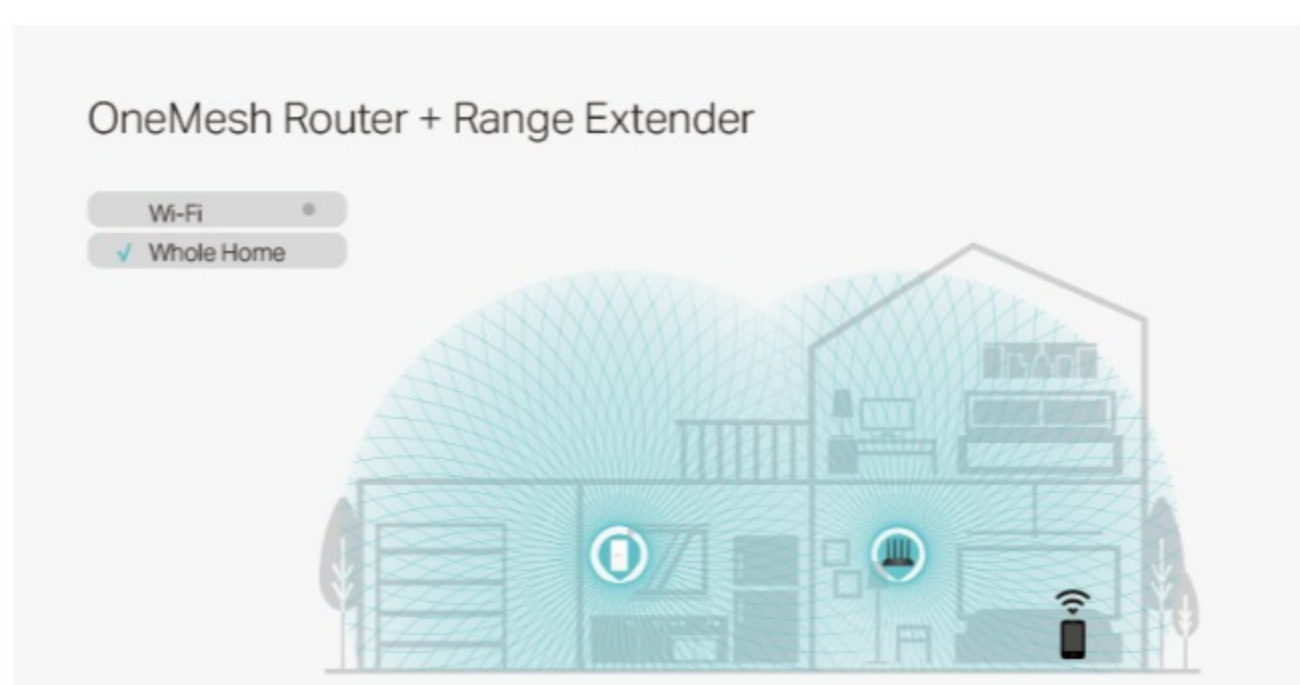

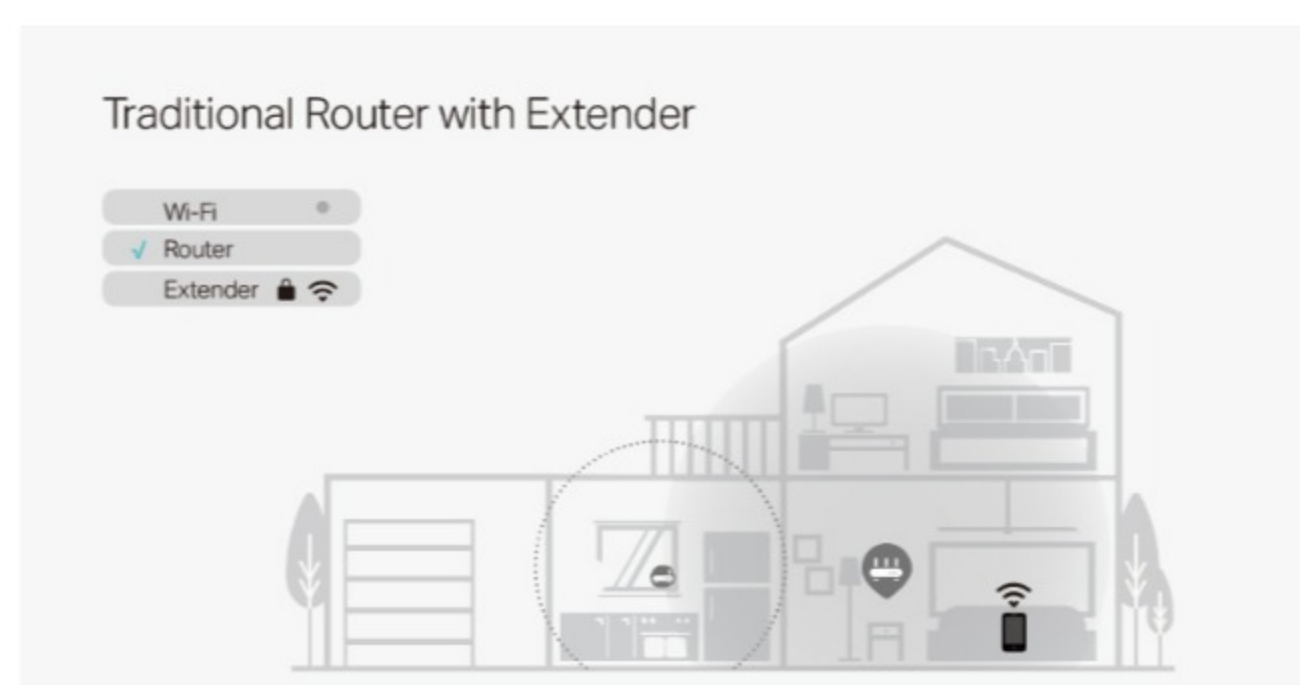

With one Gigabit WAN port and four Gigabit LAN ports, speeds can be up to 10x faster than standard Ethernet connections. Connect your favorite wired devices to Archer A6 and get impressed!

## TP-Link OneMesh™: Flexibly Create a Whole-Home Wi-Fi

OneMesh™ is a simple way to form a Mesh network with a single Wi-Fi name for seamless whole-home coverage. Just connect a OneMesh™ range extender to a OneMesh™ router. No more searching around for a stable connection.

- Wi-Fi Dead-Zone Killer**  
Eliminate weak signal areas with Wi-Fi coverage for the whole house
- Smart Roaming**  
Uninterrupted streaming when moving around your home
- One Wi-Fi Name**  
No more switching Wi-Fi network names
- Unified Management**  
Manage the whole-home Wi-Fi by managing the central node via Tether app/Web UI

## It's An Access Point, Too

Switch the working mode of the Archer A6 to Access Point Mode to share your wired network with other wireless devices.

## Easy Setup and Management with the Tether APP

The free Tether app is available for both Android and iOS devices, making it easy to set up the Archer A6 and manage your network settings.
