

knocki

TAP INTO YOUR WORLD

What is Knocki?

Knocki is a small wireless device that transforms walls, furniture, doors, and more into delightfully simple remote controls for your favorite functions. With Knocki mounted to a surface, users can gently tap simple patterns anywhere on the activated surface to ring a lost phone, call an uber, control lighting, music, TVs, and more!

Put Knocki all over your home to control your favorite devices including Philips Hue, Lifx, Sonos, Harmony, and IFTTT.

Weight: 5 oz (with batteries)

ACTIVATE ANY SURFACE

Knocki discreetly mounts to surfaces (can even be hidden under or behind).

UP TO 10 GESTURES

Ring your lost phone with 3 taps, or tell Sonos to skip a song with 2 double-taps.

BUILT-IN WIFI

Ring your lost phone with 3 taps, or tell Sonos to skip a song with 2 double-taps.

AAA BATTERIES (4X)

No wiring, hubs, or external power needed. Use rechargeable AAAs for added convenience.

Internals:

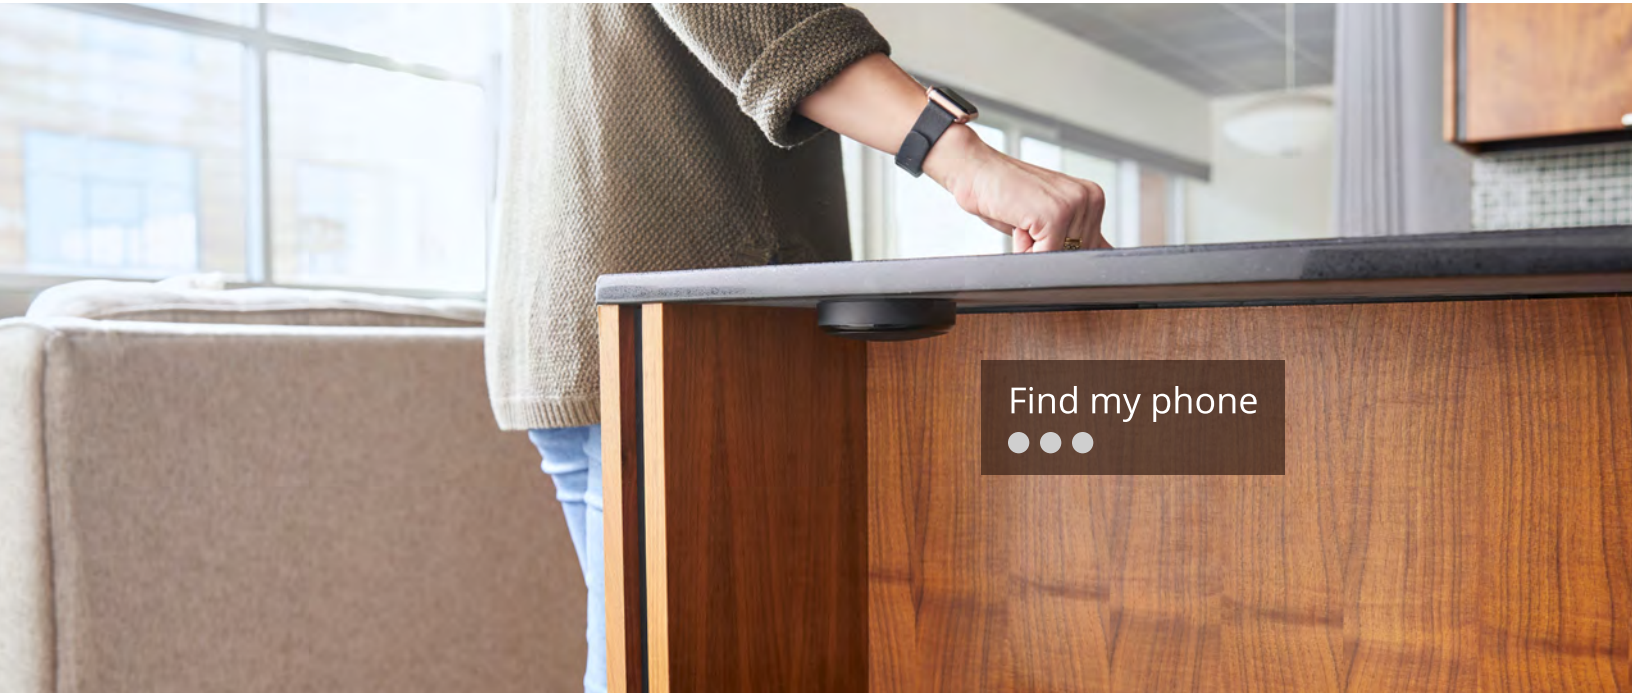

Arm cortex-M4 Microprocessor
Gesture-processing sensor
2.4 ghz WiFi Radio

Diameter: 3.5"

Width: 1"
