

# eero

## Simple, reliable wifi for any home.

- Dual-band Wi-Fi 5 with speeds up to 350 Mbps and coverage up to 1,500 square feet.
- Can be used as a standalone router or complete mesh wifi system.

The little router with a huge wireless footprint. eero delivers world-class, whole-home connectivity for everybody. Say goodbye to dead spots and buffering when you work, play, and stream with entertainment-grade wifi. Powered by TrueMesh, eero optimizes your wifi to work for your space and adapt to your needs.

### TOP PRODUCT BENEFITS

eero connects to your existing modem and works with your internet service provider to bring connection to your entire home.

The eero app walks you through setup in minutes and allows you to manage your network from anywhere.

Add as many eero devices as you need to expand coverage throughout your home.

Every eero comes with automatic updates, world-class encryption, and adheres to the most recent security protocols.

Add on eero Secure to get even more protection with parental controls, ad blocking, and content filtering.

eero's proprietary mesh technology allows eero networks to optimize performance no matter the shape of your home, the number of devices you have, or the way you configure your eero.
