

## What is Echo Studio?

Our best sounding Echo ever. Echo Studio creates an immersive, high-fidelity soundscape, wrapping you in studio-quality sound from every direction. Just ask Alexa to play a song, artist, or genre and hear new details revealed in your favorite music. Plus use your voice to make calls and send messages, check the weather, get information, and control compatible smart home devices.

"Alexa, dim the lights."

"Alexa, turn up the bass."

"Alexa, play Tamil songs."

"Alexa, what's the cricket score?"

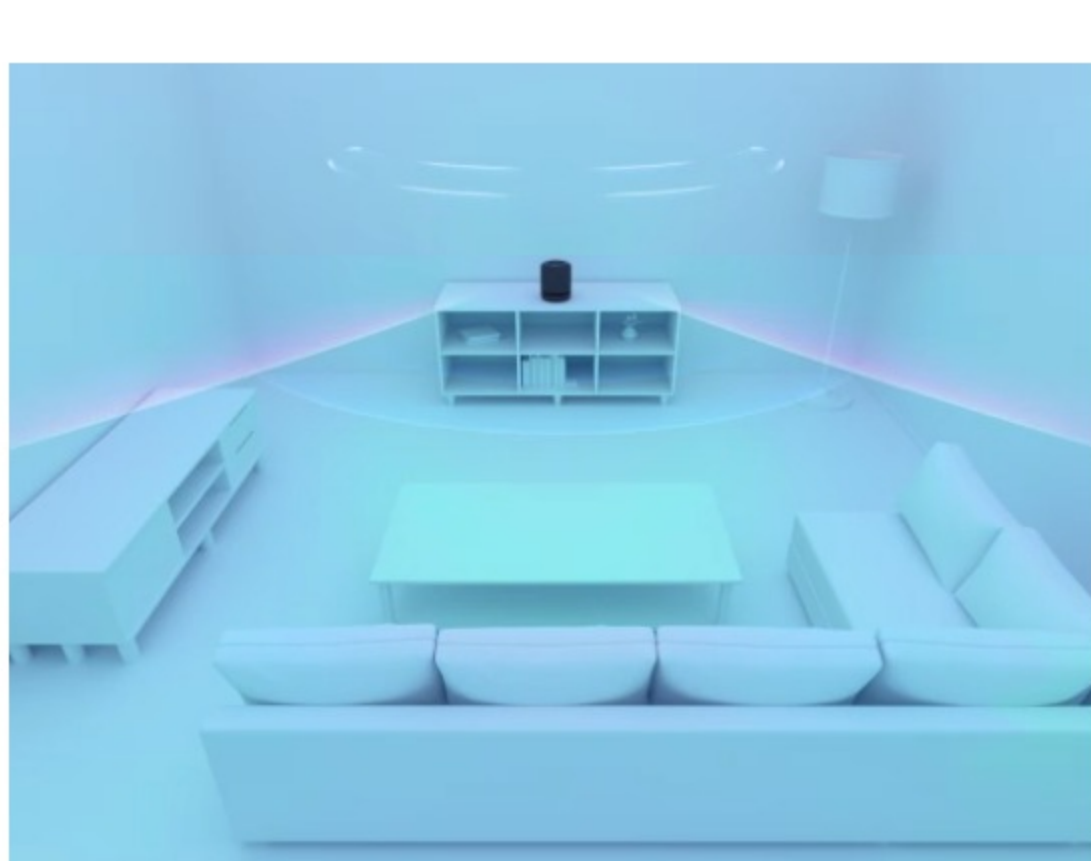

## Bring out the best in your music

Five strategically positioned speakers place each instrument and vocal around the room just the way the artist intended. Three mid-range speakers provide rich, natural vocals. A single tweeter produces crisp high frequencies. And the downward-firing woofer generates powerful, room-filling bass. Hearing is believing. Whatever the source, Echo Studio makes your music sound incredible. Dolby Atmos technology enables a multidimensional audio experience, adding space, clarity, and depth.

## Voice control your music

Echo Studio streams music from Amazon Prime Music, Apple Music, JioSaavn, Gaana, Hungama Music and Spotify - just ask for your favorite artist or song, or request a specific genre or mood. Echo Studio automatically analyzes the acoustics of your room and continuously adjusts audio filters to optimize the sound no matter where it's placed.

## The next dimension in audio

Hearing is believing. Whatever the source, Echo Studio makes your music sound incredible. Dolby Atmos technology enables a multidimensional audio experience, adding space, clarity, and depth.

## Voice control your Smart Home

Some smart home devices require an extra hub or registration for setup. With Echo Studio, you can plug in compatible Zigbee smart home devices and ask "Alexa, discover my devices." After automatically detecting and setting up the devices, you'll be able to control lights and plugs using your voice.

With "Routines", control multiple devices at scheduled times or with a single voice command, like switch on the AC and turn off the lights every night.

"Alexa, what's the temperature."

"Alexa, turn on the kitchen lights."

"Alexa, discover my devices."

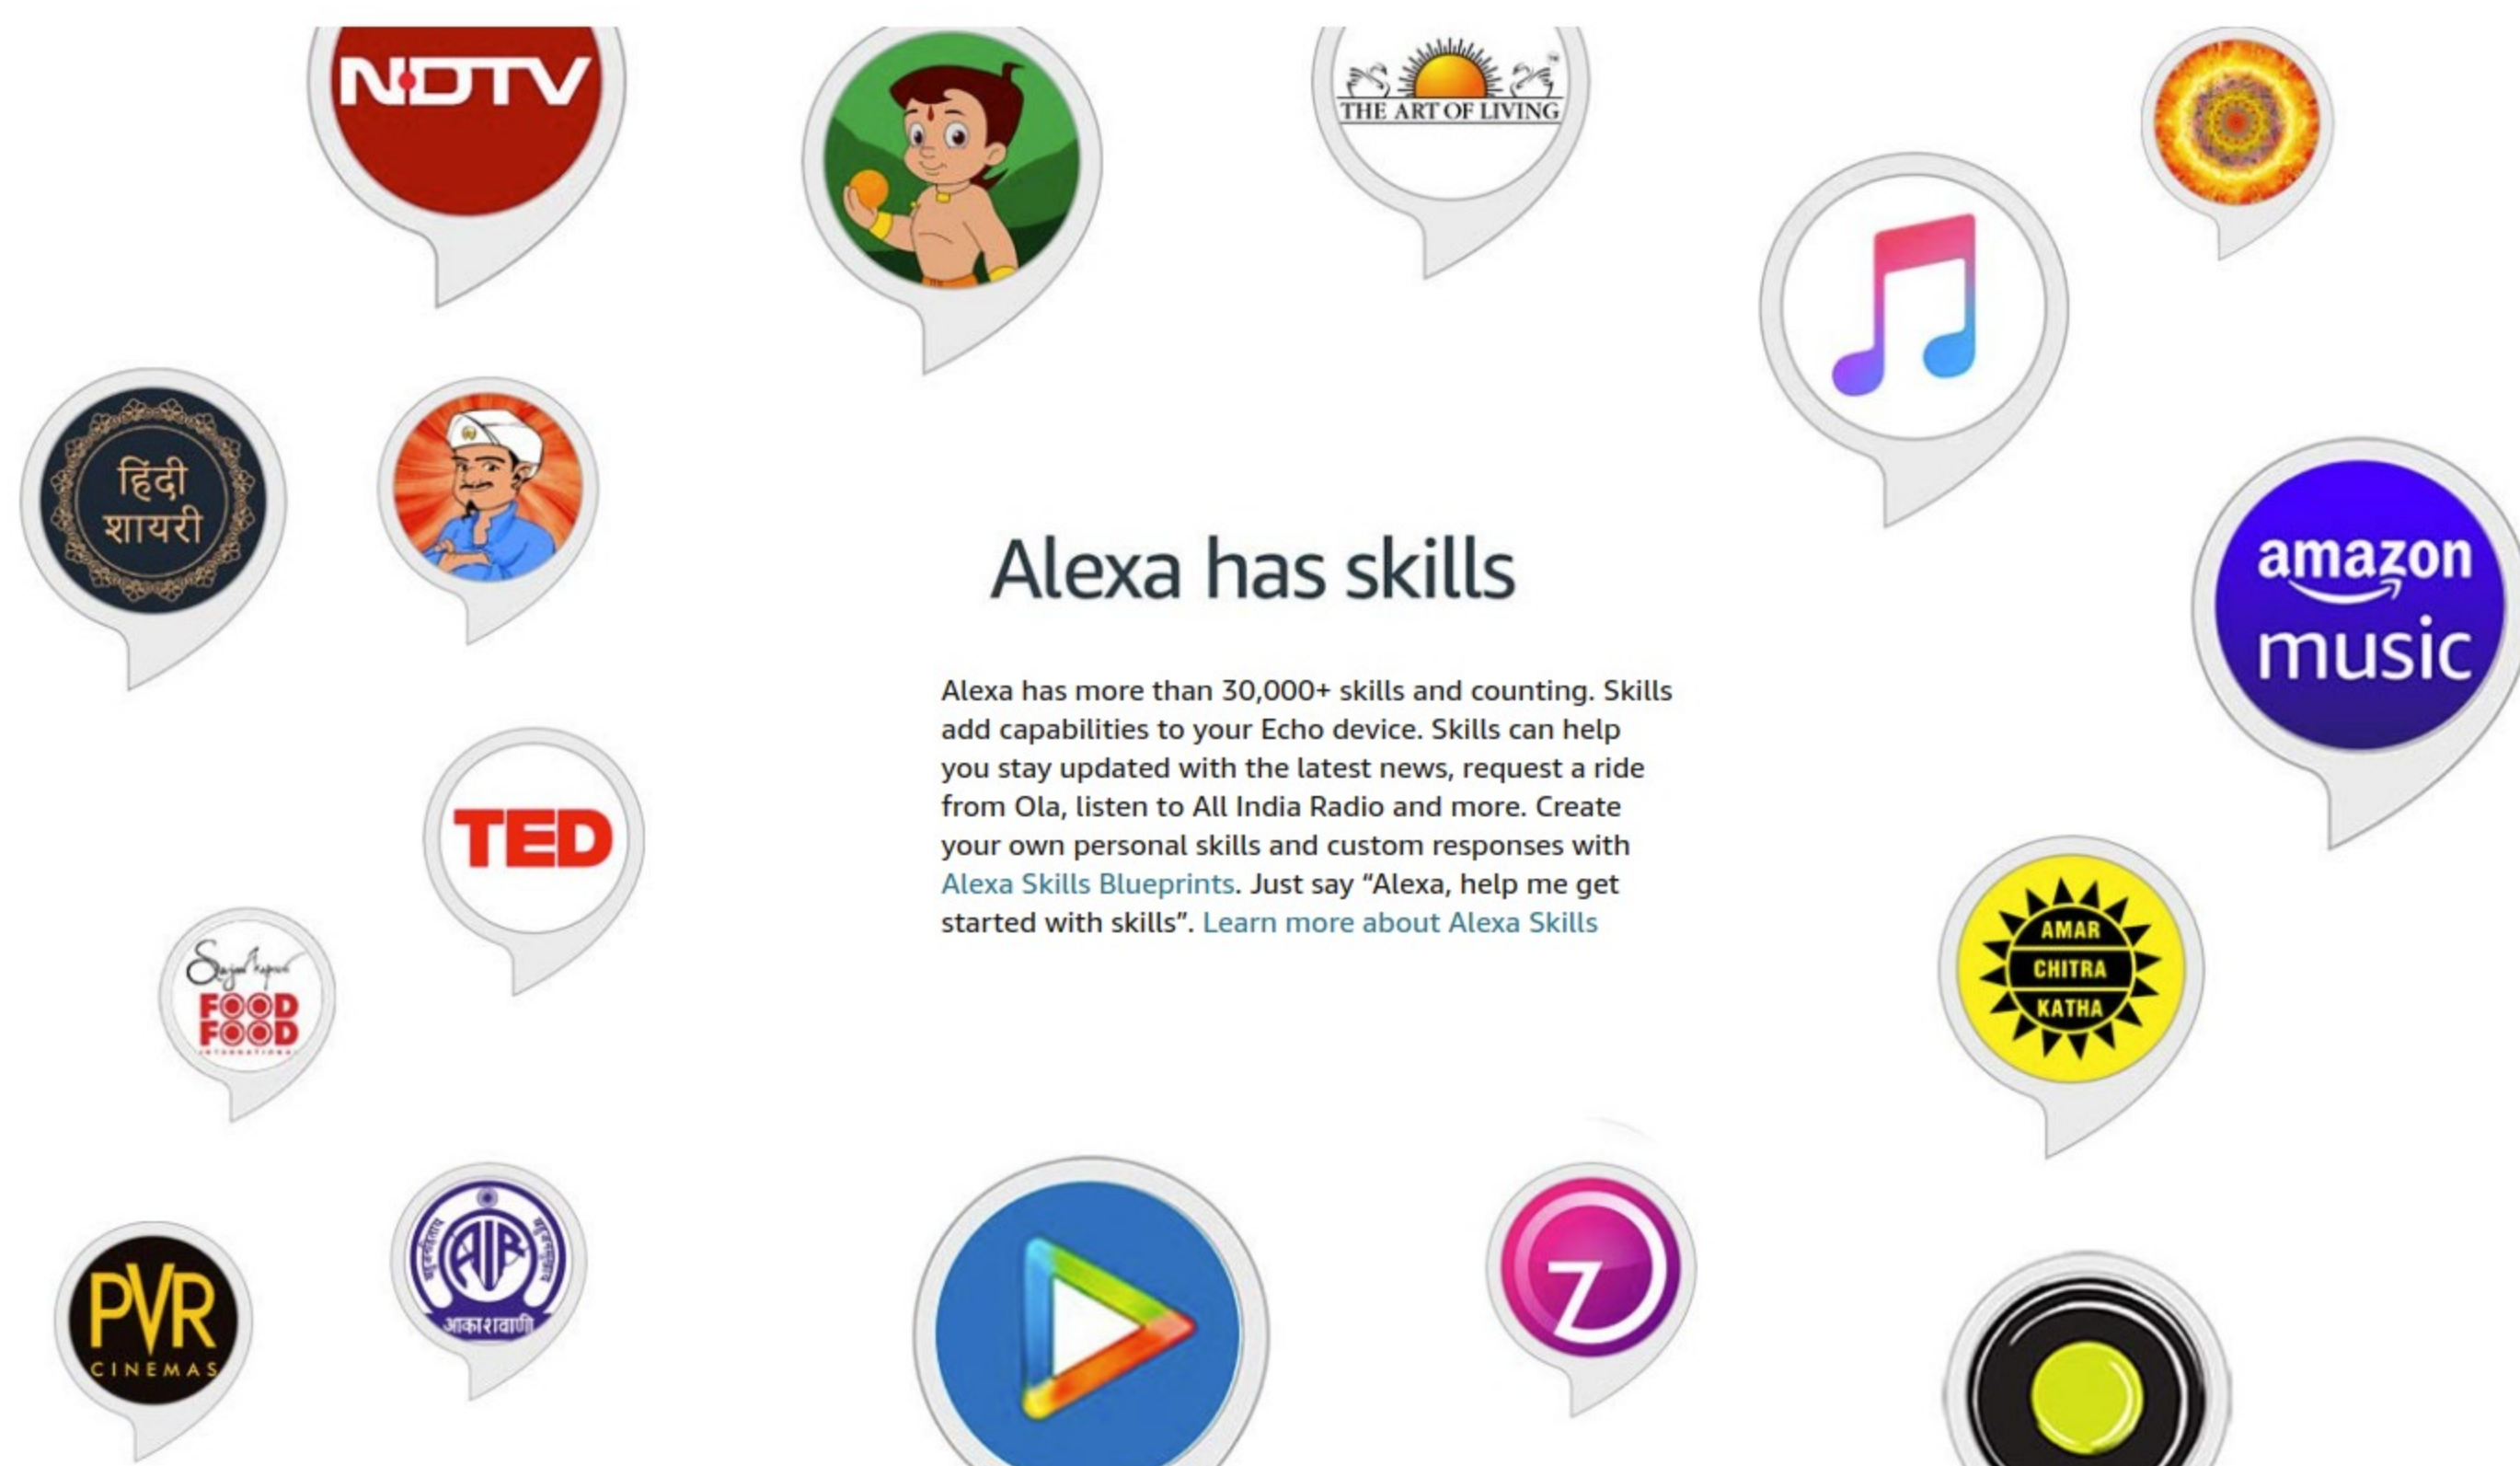

## Alexa communication

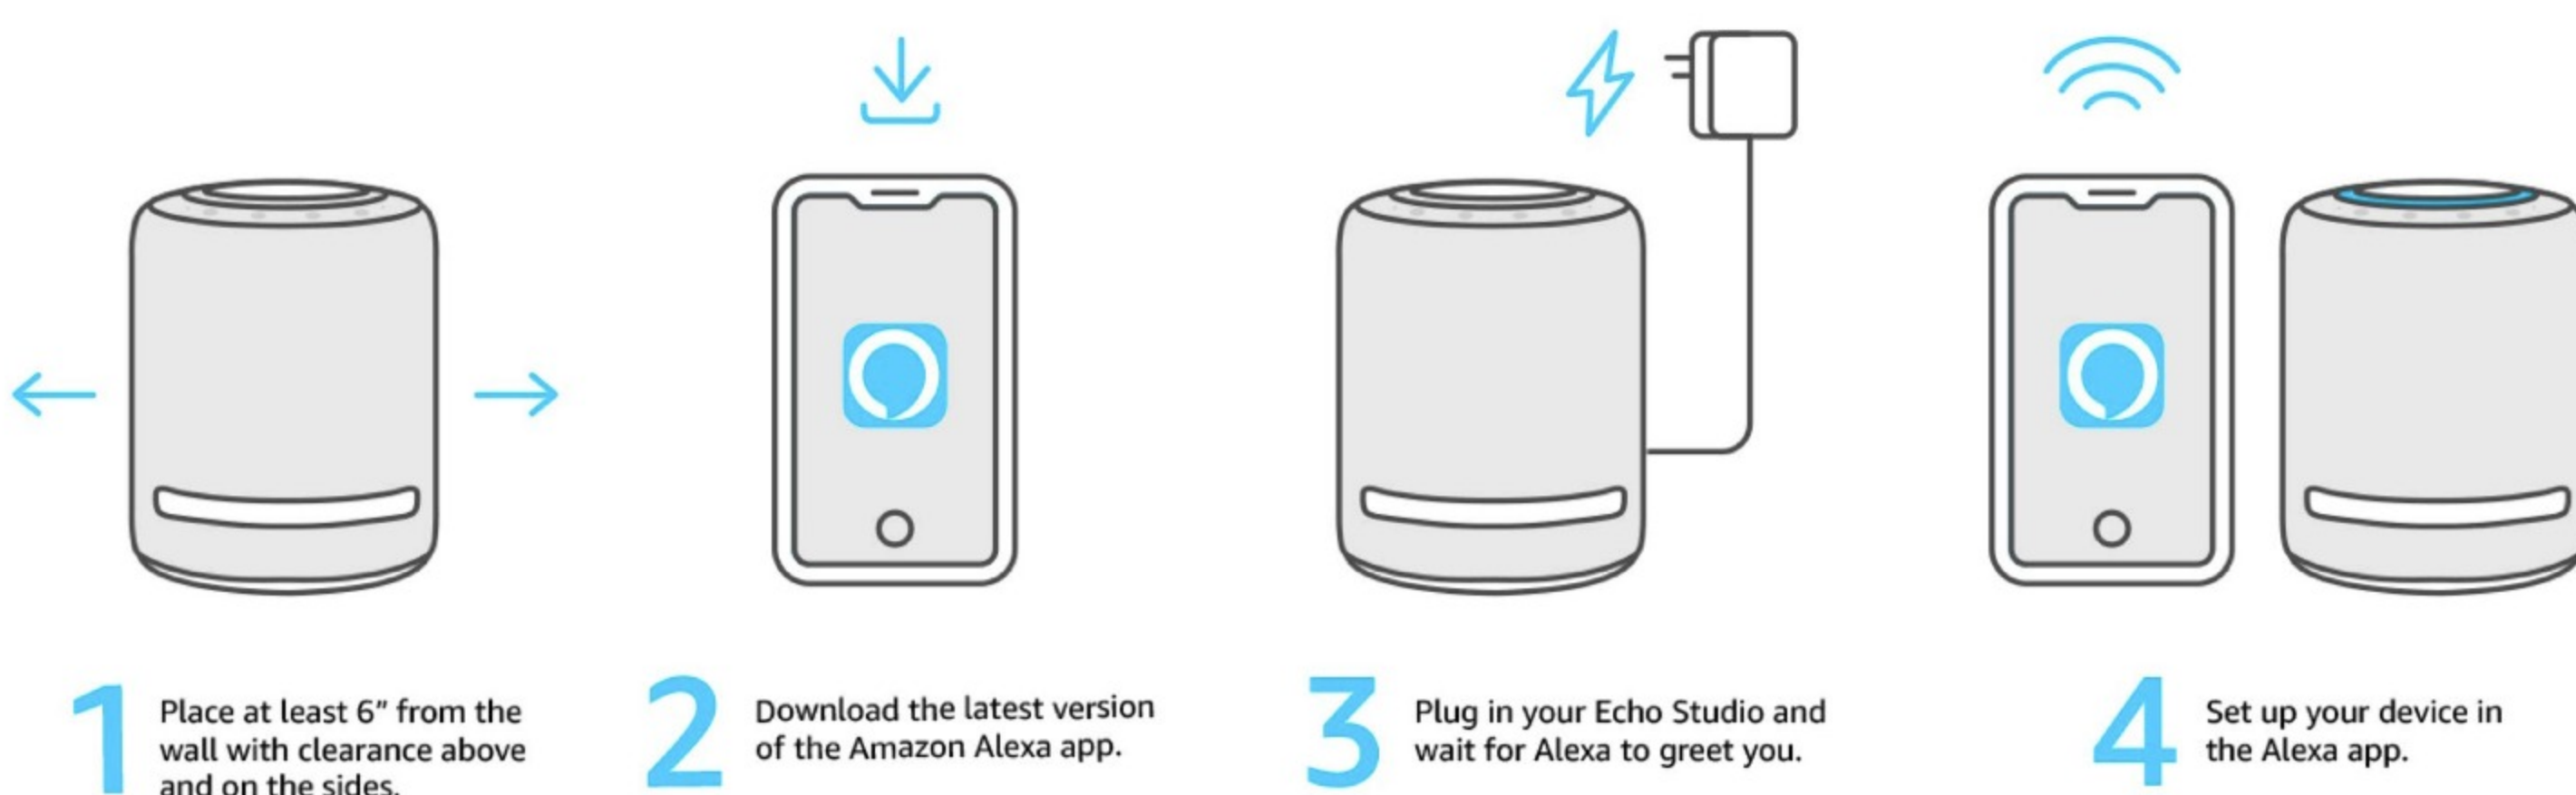

Use Echo Studio to call or message anyone who has an Echo device or the Alexa app. Just ask Alexa to place a call to Mom or send a quick voice message to a friend. You can broadcast anything to all your Echo devices. Just say "Alexa, announce that I am heading home" from your Alexa app and your family will know. Instantly connect with other Echo devices in your home, or your closest family and friends. To get started, download the Alexa app on iOS and Android.

## Alexa has skills

Alexa has more than 30,000+ skills and devices. Skills add capabilities to your Echo Studio. Skills can help you stay updated with the latest news, request a ride from Ola, listen to All India Radio and more. Create your own personal skills and custom responses with Alexa Skills Blueprints. Just say "Alexa, help me get started with skills". Learn more about Alexa Skills
