

The ultra-affordable, truly wire-free video home security & monitoring system!

So affordable and easy to setup, you will use it to protect your entire home! Blink is battery-powered and truly wire-free, so it's simple to place and move within any indoor environment.

HD

HD Video

720p HD video capture ensures that you get a clear view of your home or business, with minimal distortion or blurring.

Motion Detection

Blink's feature-rich system includes a motion detector; when armed, any detected motion triggers the recording of a short video clip.

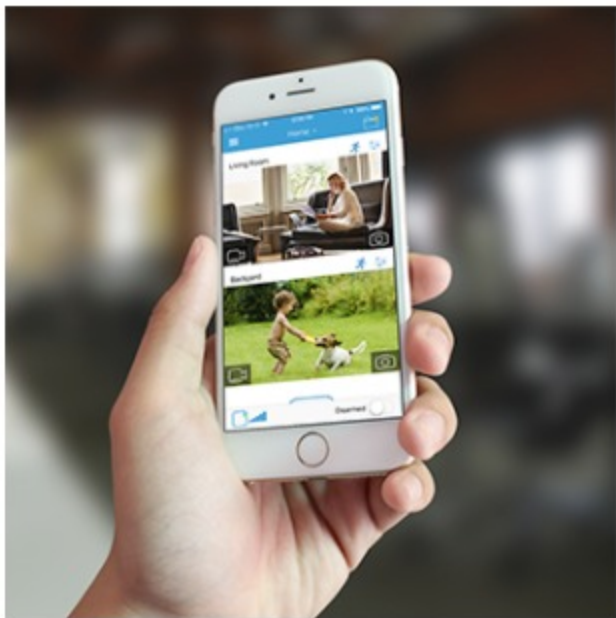

Instant Alerts

Quickly receive a push notification alert with a link to the video attached, so you can decide how to respond.

Live View Mode

Easily access on-demand video streaming through the Blink app.

No Monthly Subscription Fee!

Peace of mind shouldn't cost a fortune or come with a monthly price tag. Blink systems start at a price you can afford and our cloud storage service is free!

Runs on 2 AA Lithium Batteries for 2 Years!

You read that correctly. With regular use, your Blink cameras will last a very, very long time on a single set of 2 AA 1.5 volt non-rechargeable lithium batteries. This incredibly long battery life is made possible through a proprietary chip technology available only in Blink cameras.

Blink Now Integrates With Amazon Echo!

We are now fully integrated with Amazon Alexa-enabled devices including Amazon Echo, Echo Dot, and Amazon Tap. All Blink users who own these devices can now control their Blink system without lifting a finger, using voice alone.
