

1080p Full HD

1080p Crystal Clear Image

Sound and Light Alarm

Privacy Mode

Up to 128 GB (card not included)

Motion Detection

Receive a notification whenever your camera detects motion and see a video clip of the motion for closer inspection. Also, you can personalize your own experiences by setting the motion detection zones to only capture what happens in the area that you choose.

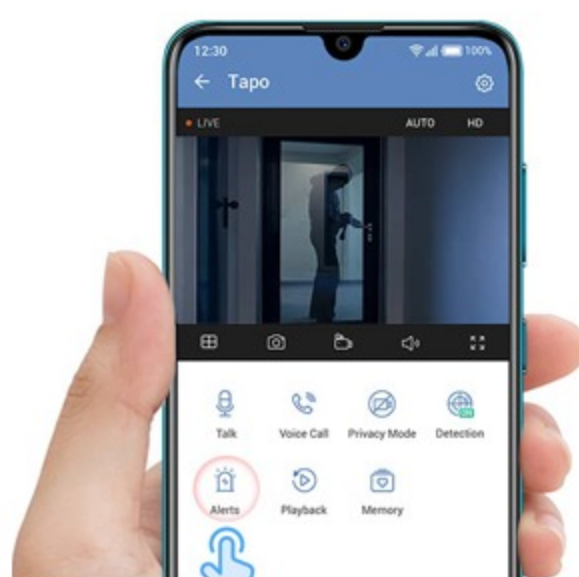

Night Vision

Don't wake up your little ones when you crack open their doors to check on them. Watch over them from your phone with 30 ft of night vision. You'll have peace of mind, and they'll have a good night's sleep.

Share Memorable Moments

Save the most unforgettable moments and share them with your loved ones. Tapo cameras are always there to help you record every memorable moment.

Alarm System

Not only will the camera send notifications to you when motion is detected, it'll also trigger lights and sounds as an alarm.

A Tap Leads to What Matters Most

- **Check the video box to play back previous records** Choose a specific camera and locate what you want according to date.
- **Set a schedule to check periodic video** The camera would automatically record videos based on your schedule, no matter whether it detects motion or not.
- **Check multiple views at the same time**

High-Definition Video

1080p definition video provides more clarity and sharpness in pictures due to a higher number of pixels. This helps with identification and recognition from far away.
