

Boost Your PC's Network Speeds

AC1300 Dual Antennas High-Gain Wireless USB Adapter

Archer T4U Plus

High-Speed, Dual Band WiFi

The Archer T4U Plus grants your PC access to 802.11ac technology while receiving WiFi signals on two separate bands, boosting speeds up to 1.2 Gbps (up to 400 Mbps on 2.4 GHz and 867 Mbps on 5 GHz). This means better networking experience for all your online needs. Choose the 2.4 GHz band for web browsing, email, and social media, or switch to 5 GHz for gaming, HD streaming, and large file downloads.

Dual High-Gain Antennas, Broader Coverage

Two powerful 5 dBi high-gain external antennas ensure stronger signal transmission and reception between web devices and your router even from farther away or across multiple walls and floors. Enjoy stable wireless connections and faster speeds without WiFi drops and lag.

A Great Match for Faster Speeds

Connect the newest hardware with USB 3.0. USB 3.0 is specially suited for the 802.11ac WiFi protocol and utilizes its transfer rate for better connections. Take full advantage of USB 3.0 and 802.11ac WiFi for optimized network performance.

Boosted Throughput with MU-MIMO

MU-MIMO technology provides two simultaneous data streams, improving the throughput and efficiency of your entire network when using a compatible MU-MIMO router.

Adjustable, Multi-Directional Antenna

Rotate and adjust the antenna 180° for the best reception in different environments.

Flexible Design, Easy Setup

The adapter's desktop-style design and 1.0 m USB cable help you find the best spot for network reception. Enjoy an easy and desktop-friendly setup for flexible deployment.

Quick Setup

The included Resource CD contains drivers that ensure simple installation.

Advanced Security

WPA/WPA2 encryption standards keep your wireless connection safe from intruders.

Comprehensive System Support

Fully compatible with Windows 10/8.1/8/7 and macOS.
