**SHURE**  
LEGENDARY PERFORMANCE™

Simple and flexible digital recording now goes anywhere. You've got the gear. Now, equip yourself with the MVi to capture your sound with simplicity and style. With five built-in DSP preset modes, this pocket-sized package provides all the tools you need to capture studio-quality sound like never before.

- Apple MFi (Made for iPhone/iPod/iPad) Certified for direct connection to any iOS device without the need for any additional adapters or connection kits.

**ShurePlus MOTIV App**

Every operation needs a mission control, and ShurePlus MOTIV is just that. Designed for use with all MOTIV products, the free app provides an arsenal of smart features that will help you optimize your sound on the move. It also lets you share your files via email, text and SMS, and allows for real-time adjustments.

**Smart Technology, Retro Design**

Connect any standard XLR microphone or 1/4-inch plug for guitar, bass or keyboard to any iOS device, Mac or PC for seamless, high-quality audio capture.

Equipped with five built-in DSP preset modes, MVi offers the convenience of a studio in a compact size. An intuitive touch panel allows volume, gain and mode selection adjustments.

MVi includes both a Micro-B-to-USB cable for connection to a PC, Mac or Android device and a Micro-B-to-LTG cable for connection to Apple mobile devices.
