

The cute but powerful Mercku M2 Bee node expands the coverage of your Mercku M2 system by up to 500 sq. ft – eliminate dead zones and boost Wi-Fi around your whole home!

Expand your Wi-Fi coverage as your need grows: plug a Bee in your entertainment room, home office or garage to connect all of your smart home devices.

Fastest Speed
Seriously fast, clocking in at twice the industry average

Super Range
Covers your entire home, up to 5000 square feet of space

Supports 60 Devices
Speakers, phones, computers, TV; everything

Control Your Network
Use the app to monitor and control your system

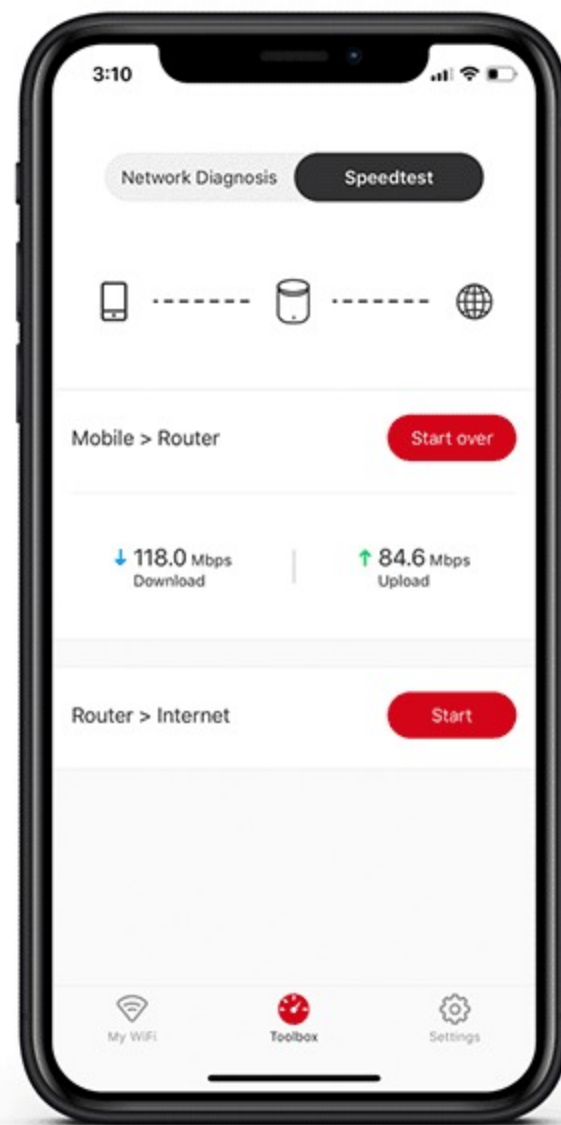

Flexible Nodes
Put the nodes in your bathrooms, hallways, offices; anywhere

Great Design
Award-winning design; looks good sitting in your living room

- Fast and simple to integrate into your Mercku Mesh system. Installation is a simple plug-and-play:
 1. Plug in your Bee
 2. Use the smart-phone app or desktop website to connect to Mercku Wi-Fi and connect to Bee – Now you're good to go!
- To create the most effective Wi-Fi network for your home's layout, plug in a Bee (Mesh node) within ~35 feet of the "Queen" (i.e. your tower router). Use the app/website to power up the Hive system and name your Wi-Fi network. Enjoy seamless, fast, stable Wifi!
- Your Mercku M2 Mesh Wi-Fi system easily handles up to 60 devices - a powerful investment for small/medium businesses!
- Download the Mercku App for your favorite iOS or Android device to manage your network and connected devices or set parental controls. Not at home? The Mercku app lets you manage your network remotely!

- We stand behind our product! The Mercku M2 comes with **24 hours shipping**, a **30-day money-back guarantee**, **fast customer support**, and a **1-year manufacturer warranty**.
