

Slip these Power Cushions easily over your your hand/foot then strap on your wrist-ankle weights. You won't believe the difference Power Cushions make!

But, wait, there is more....Our Power Cushions also protect your watch. So, go ahead and wear your watch while working out, the Power Cushions will prevent your watch from rubbing against your weights. You can easily pull the cushion back back to read your workout results!

These Power Cushions are designed to pair perfectly with our Plus 2 Wrist-Ankle Weights but also work well with other wrist-ankle weights brands. So take our those old wrist-ankle weights that you may have thrown into your closet and give them a second chance!

Remember: Before starting any exercise program, consult your physician first & keep products away from children.
