

GARMIN DASH CAM™ SERIES

SMALL CAMERA, BIG PROTECTION

Featuring an extra-wide 180-degree field of view that captures and saves important details in 1440p HD video, the compact, voice-controlled Garmin Dash Cam 67W has you covered.

 Capture the critical details. Record 1440p HD video with an extra-wide 180-degree field of view.

 Because details matter, built-in GPS shows when and where events occur.

 Voice control makes everything easier with hands-free spoken commands.

 Live View monitoring lets you check on your car remotely from your phone.

 Parking Guard feature alerts you to incidents affecting your parked vehicle.

 A little added awareness never hurts. Driver alerts¹ look out for you.

Record your drive.

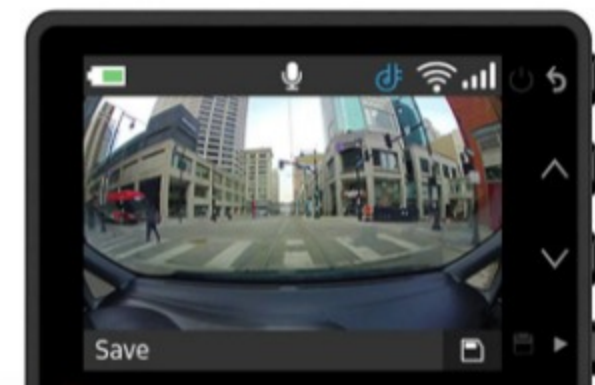

COMPACT AND DISCREET

This pocket-size dash camera is remarkably compact, making it perfect for capturing video without getting in your way. Two power cable options, upward or downward routing, are included for a tidy and discreet installation.

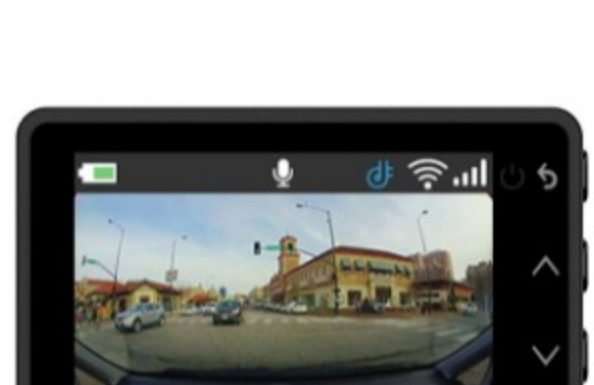

EXTRA-WIDE VIEWING ANGLE

The impressive extra-wide 180-degree field of view captures more of the environment. Get an eyewitness account of the road ahead, including cross traffic.

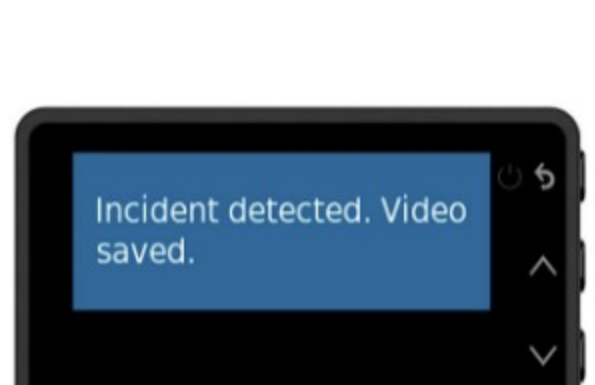

CRISP HD VIDEO

With 1440p HD video and Garmin Clarity™ HDR optics, you'll be able to record crisp, clear video of important details, day and night. If desired, use the 2" LCD display to play back video right on the device.

AUTOMATIC RECORDING

Once plugged into your vehicle's power source, the camera continually records, so you can just set it and forget it.

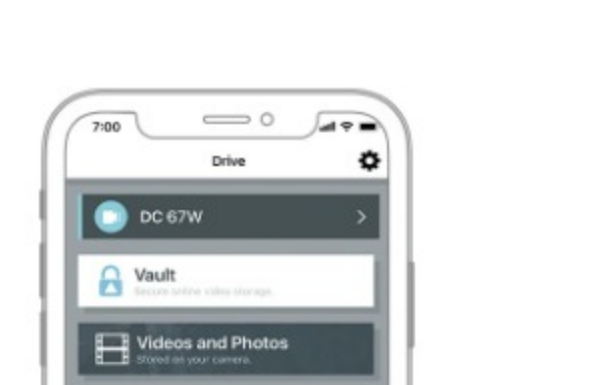

INCIDENT DETECTION WITH GPS

The camera automatically saves video when it detects an incident. With built-in GPS to stamp recorded video with location details, you'll have proof of when and where events occurred.

VOICE CONTROL

Keep your hands on the wheel, and use voice commands to tell the camera to save video, start and stop audio recording, take still pictures and more. Available in English, German, French, Spanish, Italian and Swedish.

VAULT STORAGE

Saved videos are stored securely in the online Vault and can be accessed using the [Garmin Drive™](#) app on your compatible smartphone. With an active Wi-Fi® connection, share video clips with others by sending a link and passcode.

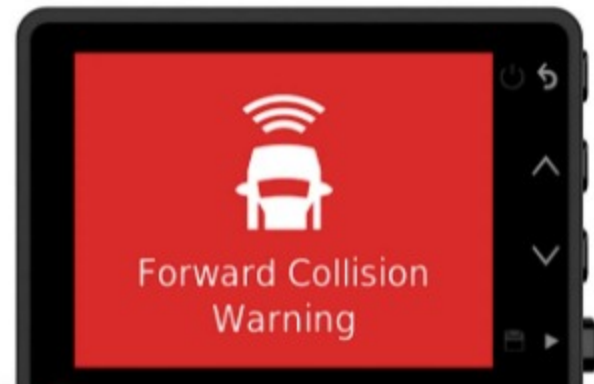

STORAGE PLANS

Each video clip is saved in the online Vault for 24 hours from the time of upload. Garmin also offers extended storage plans via paid subscriptions. [Learn more.](#)

Advanced driver awareness.

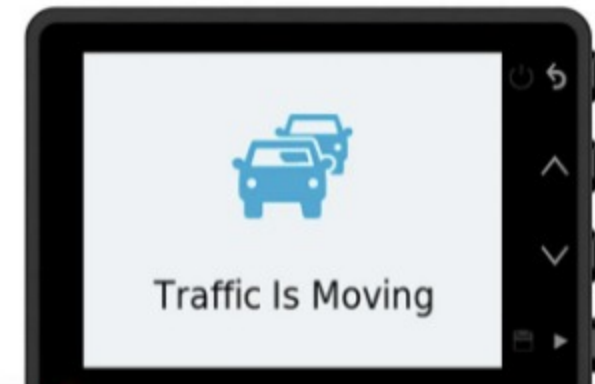

FORWARD COLLISION WARNINGS

To encourage safer driving, get alerts if you're driving too closely to the vehicle ahead¹.

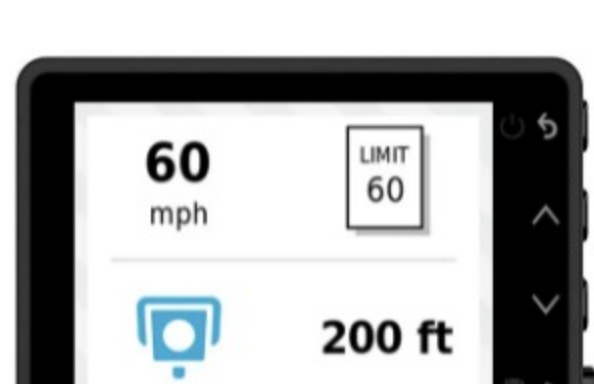

LANE DEPARTURE WARNINGS

Receive alerts if you drift off the road or into oncoming traffic¹.

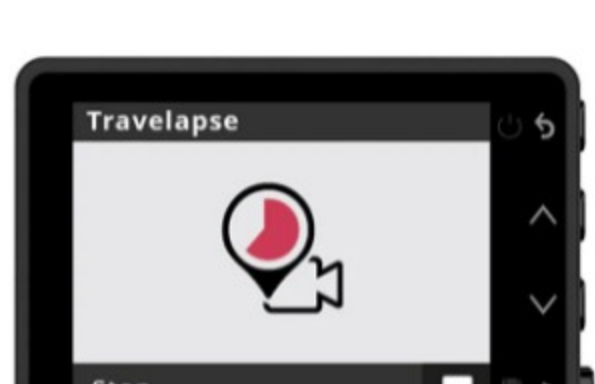

"GO" ALERTS

This feature notifies you when stopped traffic in front of you has started to move¹.

RED LIGHT AND SPEED CAMERAS

This dash cam's got you covered with alerts for nearby red light cameras and speed cameras. Not available in all regions. [Learn more](#) about purchasing an updated [subscription](#).

TRAVELAPSE™ FEATURE

Share your drive with friends using the Travelapse feature. It condenses hours of driving into minutes of highlights, creating a fun video you can easily share.

Convenience and peace of mind.

LIVE VIEW

Use the Garmin Drive app on your [compatible smartphone](#) to access the camera remotely for Live View monitoring from anywhere when you're away from your parked car. Requires an active Wi-Fi connection and constant power; some vehicles will require use of the [Constant Power Cable](#) (sold separately).

PARKING GUARD

This feature monitors activity around your parked vehicle and automatically alerts you with video clip notifications to your [compatible smartphone](#) if an incident is detected. Requires an active Wi-Fi connection.

DURABLE BY DESIGN

This dash cam is built to withstand harsh vehicle environments, including direct sunlight and hot temperatures.

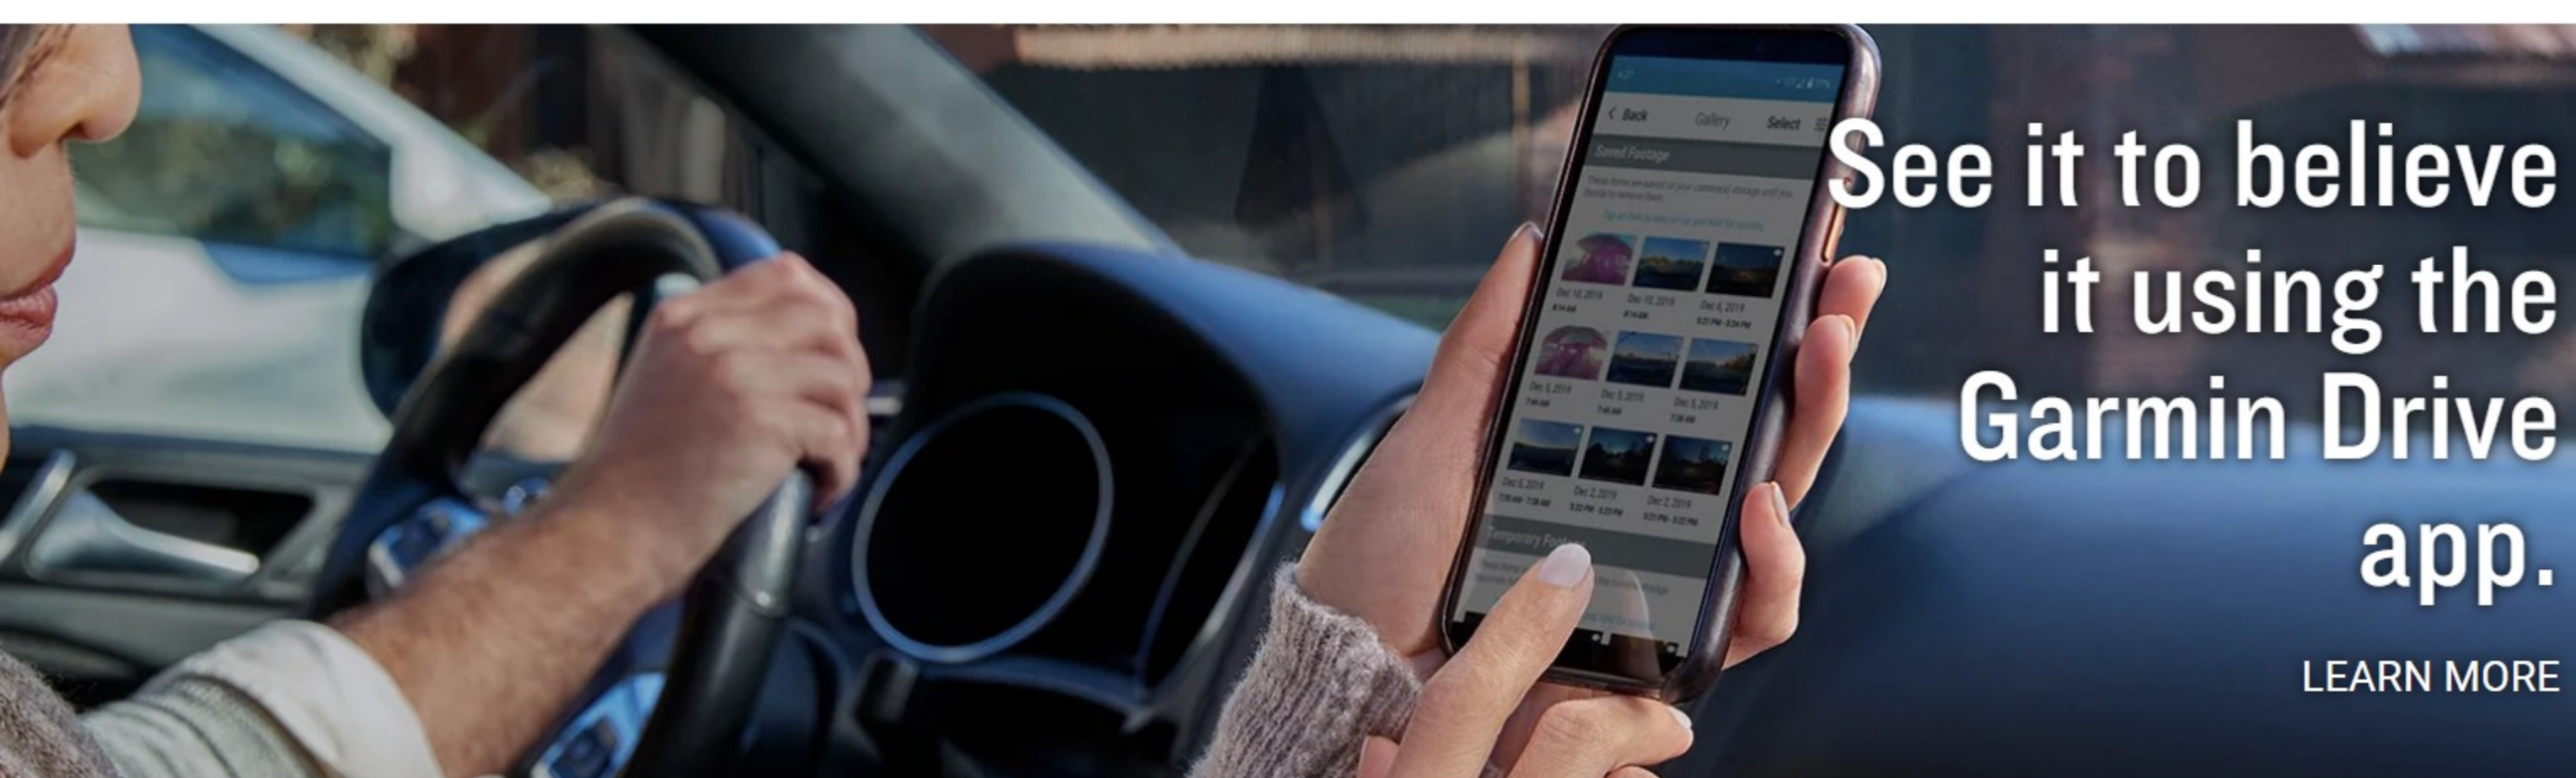

EXTRA USB PORT

You won't have to choose between powering the dash camera and keeping your phone charged. The included charger has an extra USB port, so you can do both.

MEMORY CARD INCLUDED

Ready to use right out of the box, this dash cam comes with an included microSD™ memory card (no separate purchase needed).

See it to believe it using the Garmin Drive app.
