More than just a Dash Cam

Make calls and message on the move using Nextbase Dash Cam's with Alexa Voice Control built-in. Use Alexa to play music, find parking, control smart home devices and talk directly to your Dash Cam. Emergency SOS will alert the emergency services to your location in the event of an accident.

Connect By One Hand

The exclusive wireless Click&Go PRO mount is a patented design by Nextbase allowing the user to connect the Dash Cam to the mount using just one hand. It uses high strength neodymium magnets, instantly linking the mount's power source to provide a strong, wireless connection.
