

RAZER ISKUR X

CORE GAMING COMFORT

If solid gaming performance stems from solid support, then make comfort your edge with the Razer Iskur X. It's time to discover what essential support and comfort can bring to your game, with an ergonomic gaming chair designed for hardcore play.

NOW AVAILABLE IN XL

Gamers come in all shapes and sizes—which is why we've created the Razer Iskur X in XL that's 15% larger than its standard variant so that everyone can experience perfect gaming form.

ERGONOMICALLY DESIGNED FOR hardcore GAMING

From its unique contours and angled seat edges, to its fully adjustable recline, tilt, and height, the Razer Iskur X supports a healthy sitting posture so you can game for hours in comfort.

MULTI-LAYERED SYNTHETIC LEATHER

This ergonomic gaming chair is wrapped in a material that not only feels great, but is tougher and more durable than standard PU leather, making it better suited to withstand the peeling that comes from long hours of daily use.

HIGH DENSITY FOAM CUSHIONS

For the perfect balance of support and comfort, the Razer Iskur X has plush, dense cushions which provide better contouring, allowing your weight to apply just enough pressure as they mold to support your unique body shape.

FOR GAMERS. BY GAMERS.™

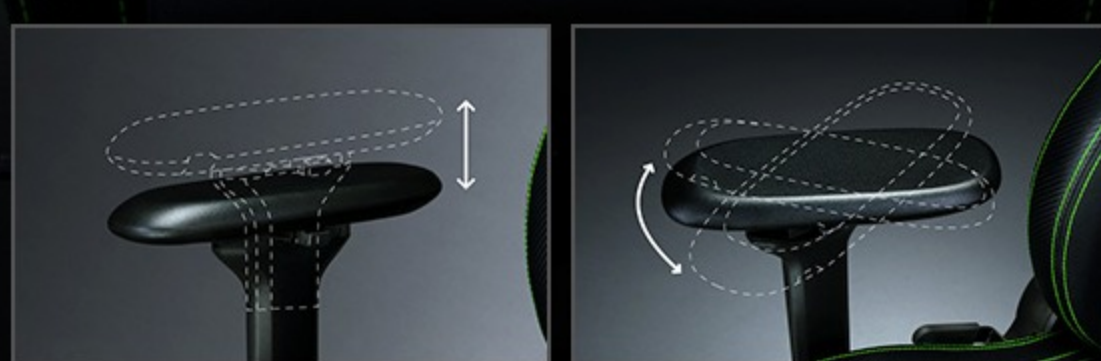

ENGINEERED TO CARRY

With a steel-reinforced body, armrests and wheelbase, this ergonomic gaming chair can support a weight of up to 399 lbs/180 kg, and is ideal for gamers with a height of 6'-6"10" / 180-208 cm. It also features angled seat edges to maximize resting surface area.

2D ARMRESTS

The Razer Iskur X's armrests can be adjusted by height and rotated inwards or outwards, so your arms will always be in a natural, relaxed position when gaming.

ALSO AVAILABLE RAZER ISKUR

Achieve perfect gaming form for your marathon gaming sessions with the Razer Iskur—a gaming chair with a built-in ergonomic lumbar support system.
