

# OUR MOST POWERFUL 4K STREAMING STICK

Dive into 4K Ultra HD cinematic entertainment with a new quad-core 1.8 GHz processor that brings a 40% more powerful experience compared to Fire TV Stick 4K, plus faster app starts and more fluid navigation while switching between apps and searching for content. Enjoy vivid, lifelike colors with support for Dolby Vision, HDR 10, HDR10+, and the immersive audio of Dolby Atmos.

## Get ready for next-gen Wi-Fi 6

Our first-ever streaming stick with Wi-Fi 6 support means reduced congestion for smoother, more fluid streaming and gaming across multiple Wi-Fi 6-connected devices. To enjoy the benefits of Wi-Fi 6, you'll need a compatible router (like eero 6 mesh Wi-Fi 6 router), but Fire TV Stick 4K Max works with earlier wifi routers, too.

## Over 1 million movies and TV episodes

Enjoy favorites from Netflix, YouTube, Prime Video, Disney+, HBO Max, Apple TV+, Peacock, STARZ, SHOWTIME, Paramount+, and others. Stream live TV, news, and sports, and even watch for free with Pluto TV, IMDb TV, YouTube, and more. Plus, play millions of songs through services like Amazon Music, Apple Music, Spotify, Pandora, and iHeartRadio. Subscription fees may apply.

## Alexa Voice Remote with TV controls

Just press and ask Alexa to find, launch, and control content, or even switch to cable. Quickly get to favorite apps—Netflix, Prime Video, Disney+, and Hulu—with preset buttons, and go beyond streaming to check sports scores and play music. Dedicated power and volume buttons control your compatible TV, soundbar, and receiver.

"Alexa, find action movies."

## Smart—and always getting smarter

We add new Alexa skills and voice functionality all the time. You can ask Alexa to do things like show Live View Picture-in-Picture camera feeds without interrupting your show. [Learn more](#) about compatible smart home devices.

Coming soon – Wirelessly connect Fire TV 4K Max with compatible Echo devices for immersive audio and get an Alexa Home Theater experience across Fire TV and multiple HDMI inputs, like cable and gaming consoles. [Learn more](#) about Alexa Home Theater.

## Level up gaming on the big screen

Get smooth, fluid gameplay and fast-rendering graphics with a 750MHz GPU. Switch to low-lag cloud gaming with Auto Low Latency Mode support. Play your favorite games on Luna, Amazon's cloud gaming service, with a channel subscription and Luna Controller (sold separately).

## Simple to set up and use

1. Plug Fire TV Stick 4K Max directly into your HDTV, or use the included HDMI extender. We recommend you use the HDMI ARC port.
2. Plug into wall outlet.
3. Connect to internet and enjoy.

## Every day is an earth day

You don't have to be an environmental scientist to make sustainable choices. We considered sustainability in the design of this device. Here's how:

- Materials**  
50% post-consumer recycled plastics in streaming media player.  
80% recycled aluminum in streaming media player.  
20% post-consumer recycled plastics in the remote.  
*Cable and adapter not included.*
- Device Packaging**  
97% of this device's packaging is made of wood fiber-based materials from responsibly managed forests or recycled sources.
- Energy Efficiency**  
This product was designed for energy efficiency, earning the ENERGY STAR certification.
- Low Power Mode**  
To reduce its energy consumption, this device will enter Low Power Mode when it goes to sleep. [Learn more](#) here.
- Part with Purpose**  
There may come a time when you want to trade in or recycle your device. Explore options with Amazon Second Chance.
