

RAZER SPHEX^{V2}

ZERO IN ON YOUR GAME

Designed to give gamers a seamless desktop experience, the Razer SpheX V2 is the ultra-thin gaming mat which delivers high tracking quality for both laser and optical gaming mice. Made from extra durable polycarbonate with an improved adhesive base, this mouse mat stays in top condition and firmly in place even through really intense play, so you have the peace of mind to zero in on your game.

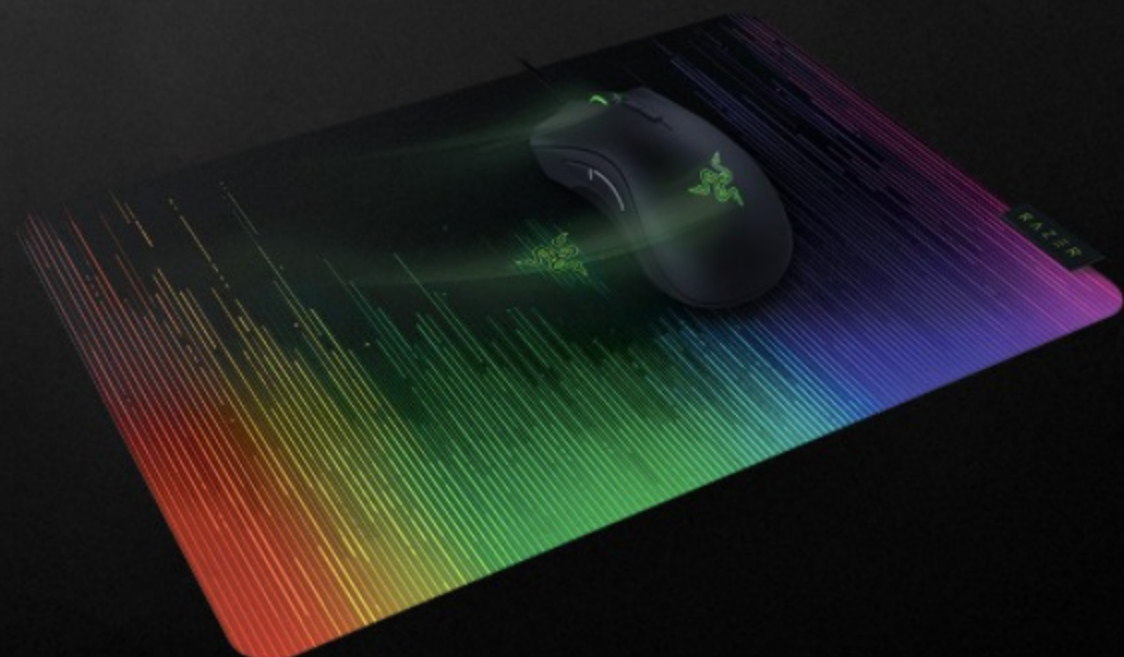

ONE WITH YOUR DESK

Designed for the gamer who wants zero elevation from their desk, the Razer SpheX V2 measures at less than half a millimeter thin. This ultra-thin form factor, combined with the improved adhesive base, makes it perfect for those who prefer an unobtrusive gaming experience.

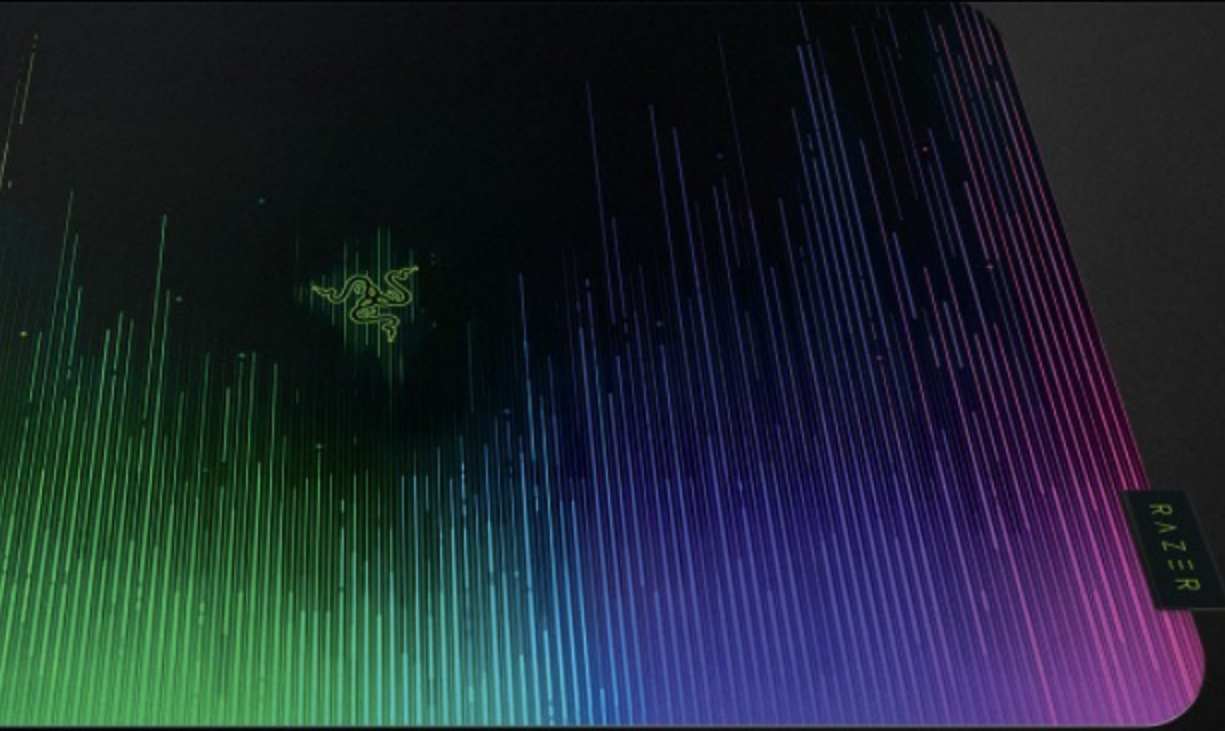

OPTIMIZED FOR GAMING MICE

Developed to enhance your mouse performance, the Razer SpheX V2 is designed to bring out the best in both optical and laser sensors, and is optimized for both speed and control gameplay.

ULTRA TOUGH FOR LONG-LASTING DURABILITY

The extra durable polycarbonate surface of the Razer SpheX V2 is lab tested to have ultra-high impact, rip, and tear strength. This incredible toughness will always deliver through intense training sessions and tournaments.
