\*Sold separately

## Born for Real Deep Cleaning

3000Pa impressive suction power picks up pet hair and dirt embedded in carpet and crevices

## Blaze a Trail for Cleaning Control

Tap the editable map to clean a specific room or draw up an area to clean and avoid

### Optimized Cleaning

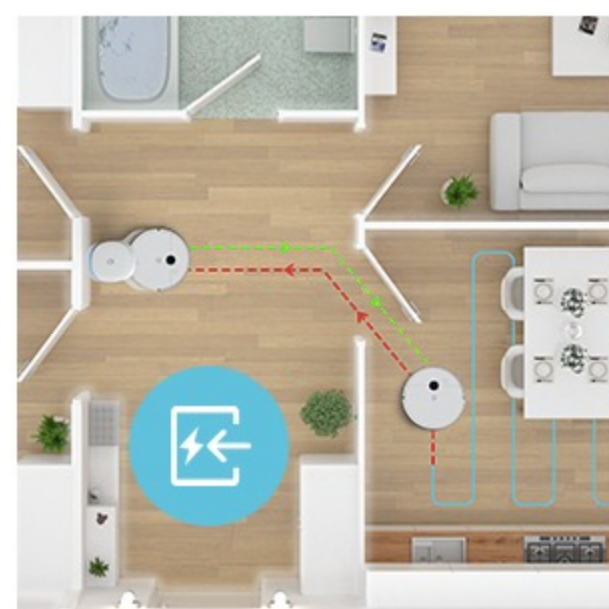

Boasts carpet detection sensor, yeedi recognizes your carpet and automatically increases suction power for optimized deep cleaning you'd never expected from a robot vacuum before.

## 110 Minutes

### Slim Body with Big Power

The built-in battery powers up to 110 minutes of cleaning on a single charge. yeedi vac is an ideal cleaning companion for people living in apartment.

### Skip-Free Cleaning

yeedi vac will return to the charging dock for recharge when battery runs low and resume cleaning right where it left off for a seamless and complete cleaning.

### Clean Anywhere at Any Time

Our convenient yeedi app enables you to schedule cleaning, set up no-go zone, and choose a specific room and area to clean no matter where you are.

### Rule with Your Voice

yeedi vac works with Amazon Alexa and Google Assistant, so you can control your cleaning with your voice commands. Now your cleaning can be done without touching any buttons.

### Powered by Real Smarts

The visual mapping technology and floor tracking sensor function as a pair of eyes to map out your space for optimal cleaning trajectory – No more random bumping or missing spots.
