

- THX Certified Premium Audio
- Powerful Cinematic Immersion
- Solid, Unrestricted Bass

## FIRST IMPRESSIONS

"The Razer Nommo Pro is a speaker-set that is very different from what we usually see, but at the same time completely magnificent in all details."

-Tweak.dk (Editor's Choice)

"Excellent performance, unbeatable clean sound and amazing audio power."

-WCCF Tech (Editor's Choice)

"It is the ideal complement for those PC users who wants an all-in-one system to play without headphones, watching movies and feeling the explosions and listening to music with great sound qualities."

-El Chapuzas Informatico (Gold Award)

## TUNED FOR ULTIMATE SOUND

Phenomenal gaming speakers need to do more than just be loud, they need depth and range to transport you to another universe. Whether you're on a battlefield dodging shells or holding your breath during a horror movie, every little sound adds to the tapestry of the experience.

## THX CERTIFIED PREMIUM AUDIO

The Razer Nommo Pro is fitted with premium components like 3-inch drivers coated with Dupont™ Kevlar® fiber drivers and silk woven tweeters, then tuned by dedicated engineers at THX to bring out the speakers' full potential. All this so you're guaranteed to hear the full range—big clean audio perfect for all your entertainment.

Dupont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

## POWERFUL CINEMATIC IMMERSION

Hear your enemy closing in from behind with pinpoint positional accuracy or the complex layers of an orchestra. Dolby Virtual Surround Sound technology creates a cinematic presence wherever you place your setup, transporting you right in the middle of the action.

## SOLID, UNRESTRICTED BASS

With the Razer Nommo Pro's downward firing subwoofer, you get powerful, unrestricted bass for desk-shaking, room-thumping low-end sound on tap. Turn it up when blasting your favorite electro hits or take it down a notch for late night gaming.

## THE TECHNOLOGY BEHIND THE NOMMO PRO

Discover what makes the Nommo Pro all you will ever need for gaming, music and movies >
