

WOVEN FOR SPEED,  
CRAFTED FOR CONTROL

### Razer Gigantus V2 - Medium

*Woven For Speed, Crafted For Control*

If you have a deadly mouse, get the right mat for a deadly combination. Go big with the Razer Gigantus V2 mat and micro-woven textured fabric surface. Increase your gaming level with smooth movements and pixel-level precision, while the soft mat cushions your wrist so you only have to worry about competing.

FOR GAMERS.  
BY GAMERS.™

#### About Razer

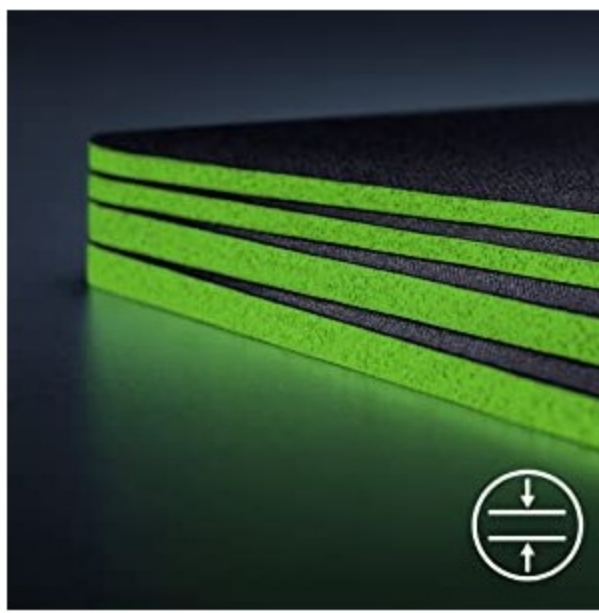

For Gamers. By Gamers. It's not just a tagline. It's a mission. It's exactly what drives Razer to create products which constantly tilt the competition in your favor. From behind the drawing board all the way to the tournament stage, each step is controlled by the undeniable desire for all gamers - to always win.

- Textured micro-fabric fabric surface for speed and control
- High-density thick rubber foam for increased consistency and strength
- Anti-slip base so that the mat does not move from its place
- Up to size 3XL to fit all desk sizes

#### Textured micro-fabric fabric surface for speed and control

Optimized for all mouse sensors for pixel-level precision and total tracking responsiveness, the high density of fabric makes your mouse glide easily over the mat for faster, smoother movements.

#### High-density thick rubber foam for increased consistency and strength

At 3mm (M and L) and 4mm (XXL and 3XL) thick, the mats maintain their flat shape even on uneven surfaces, thanks to their robust base for consistent mouse movements.

#### Anti-slip base so that the mat does not move from its place

When things get ugly, save the day with a stable foundation that's essential for competitive games.
