

## aoni A20.

Designed with a 65 Degree field of view, the A20 Full HD Webcam with Auto Focus from aoni is well suited for those who want to hold small meetings or gatherings in Zoom, Skype, Teams, or other programs, as this field of view is suitable to frame a single participant. Compatible with Windows, Mac, Android, Linux, and Chrome via plug-and-play and an integrated USB cable, the A20 features a 2.0MP 1/2.7" CMOS sensor that provides crisp, clear images with resolutions of up to 1920 x 1080 with a frame rate of 30 fps for smooth motion.

The A20's video quality is further strengthened by automatic white balance, a glass lens, and a focusing range of 2.8" to infinity. Thanks to an omnidirectional mic that can pick up audio from 9.8 to 16.4' feet away, high-quality audio is ensured. Also featured is automatic low-light correction. If you'd like to connect the A20 to a tripod, there is a 1/4"-20 threaded mount.

### Full HD Resolution.

Don't let a grainy and low-resolution picture get in the way of you and your fans, friends, or co-workers. With the A20 webcam's 2MP sensor and 1080p resolution, your picture will be sharp, crisp, and full of detail.

### Omnidirectional Microphone.

The onboard omnidirectional microphone picks up voices with accuracy and detail, even if they're not directly in front of the camera. The microphone capture audio in a 360 Degree pattern, so you'll sound great no matter where you are around the camera.

### Integrated Ball Head.

Sometimes the simplest things can be the most useful, and the A20's integrated ball head is a good example. For a well aligned picture, the webcam is mounted on a ball head that lets you fine tune the camera's swivel and tilt angles.

### Mounting Options.

The webcam features an integrated clip that unfolds and clips onto your monitor or laptop screen for a natural chatting experience that feels like you're making eye contact. The clip also folds up and becomes a flat surface for desktop or tabletop use. For more stability and aiming possibilities, the webcam has a 1/4"-20 socket, so you can mount it onto a desktop tripod and conduct your video chat from a meeting room or directly from your desk.
