All features are free

You deserve a premium finding experience. Without subscription.

Made for everyone

We don't care if there are iPhones or Android phones in the family, Chipolo app works with both.

The story.

You know that one friend who's always late because they can never find their things? We have one too and it all started because of him. Six friends, the founders of Chipolo got tired of waiting and came up with a simple solution – an app that works with a chip. We added some colors and that's how we came up with the name.

Chipolo = Chip + colors.
