Before You Start

Please read all instructions carefully and keep it for future reference.

WARNING

Attention: The Product is not suitable for the children under 3 years

Danger: Keep all small parts and packaging materials for this product away from babies and children, otherwise they may pose a choking hazard.

WARNING:
CHOKING HAZARD-Small parts.
 Not for children under 3 years.

General Warnings:

- △ The product must be installed and used under the supervision of an adult.
- △ Read through each step carefully and follow the proper order.
- △ Remove all packaging, separate and count all parts and hardware.
- △ Please ensure that all parts are correctly installed, incorrect installation can lead to a danger.
- △ We recommend that, where possible, all items are assembled near to the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.
- △ Ensure a secure surface during construction, and place the product always on a flat, steady and stable surface.

Thank you for purchasing our Multifunctional Electronic Keyboard with a strong expressive force and a beautiful appearance. It will provide you an easy way to learn and play the keyboard. This keyboard is not only a perfect musical instrument for beginner, but also an ideal instrument in musical education as well as for entertainment.

Please read the guide carefully before you use and keep it for reference.

Feature functions

- ※61 keys piano style keyboard/ Lighting keys
- ※LCD display/ 510 timbres/ 300 rhythms
- ※With USB music player
- ※USB player volume control/ Pre & next selection/ AB reread/ Play mode/EQ mode/ Start/ Stop/ Silent mode
- ※Audio input (phone audio can be input to the piano)
- ※61 keyboard percussions/ 30 demos/ 2 teaching modes
- ※Master volume control/ Accompaniment volume control/ Transposition control/ Tempo control
- ※ Sustain / Vibrato / Metro/ Split/ Record / Program / play/ Demo one/ Demo all
- ※Sync/ Start/ Stop/ Insert/ Single Finger & Multi-Finger chord/ Bass chord/ Chord off
- ※External power/ External earphones jack/ External microphone jack/ Line output/ Audio in

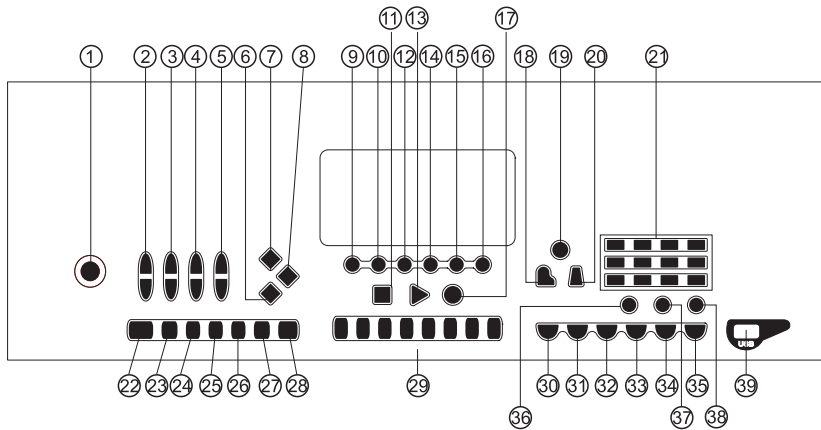

Note

- Use the power adapter that comes with the keyboard, or this may result in damage or overheating. If there are abnormal conditions(wire or plug damaged, no sound, strange smell or smoke suddenly during use, etc.), please turn off the power immediately, and contact relative technician.
- When the piano is not in use, please turn off the power and remove the plug to prevent internal components from being burnt.
- Keep plastic bags properly to prevent children from playing and suffocating.
- Keep surface clean and avoid objects falling into gaps of keyboard and keys; Wipe with a soft dry cloth; Keep it dry and avoid long-term exposure in strong sunlight.
- Please move the keyboard very carefully and lightly, to avoid damage of plastic parts and internal electronic components.
- Please keep keyboard away from acidic, alkaline and poisonous substances to avoid poor contact.
- Keyboard is precision instrument. Any modification may cause a malfunction. If there is any failure, please contact with relative technician immediately and do not replace the component by yourself.

● **Backside external jack**

- 40.Audio input
- 41.MIC
- 42.Line out
- 43.PHONES
- 44.DC12V

II.Preparation before performance

● **Power supply**

Battery

Battery jar is in the backside of the keyboard. Please make sure that the batteries are inserted correctly. When the battery power runs out, the keyboard will not pronounce or the tone will be distorted. Please replace a new set of batteries. Please remove batteries when not in use for a long time.

AC adapter

You must use the adapter packed with this keyboard. Please note that the input voltage must be the same as the mains voltage when using the power adapter! ! Unplug the AC plug when you are not using the keyboard.

● **External jack use**

AUDIO INPUT: This keyboard has stereo audio input function, which support audio signals playing from mobile phones, music players, and computers to the keyboard.

First turn off the power, then connect the audio device and AUDIO INPUT jack by audio cable, and then turn on the power.

MIC: Insert the microphone plug into the MIC jack to sing.

LINE OUT: Connect this jack with other audio equipment to get more powerful play effect.

PHONES OUTPUT: Insert the earphone plug into the PHONES OUTPUT Jack to avoid affecting others during personal practice.

III.Functional operation

Pressing the [Power] switch, the LCD screen will illuminate and the keyboard is on working.

1.Timbres selection

Pressing [Timbres] button to enter timbres selection mode, and choose the timbre you need by numeric panel. Under chord mode, the 19 keys on the left of the keyboard are chord tones, instead of corresponding tones.

2.Lighting keys

This keyboard has the function of lighting keys. Keys will be illuminated under playing, teaching function and demos. The system default is Lighting on.

Pressing [Lighting] button to turn off/on.

3.Sustain & Vibrato

Sustain: automatic extension of the end of a note played

Vibrato: the pitch of a note quivers in a small range

Sustain and Vibrato are only effective for playing mode.

4.Automatic accompaniment function

Rhythms selection: Pressing [Rhythms] button to enter rhythms selection mode, and choose the rhythms you need by numeric panel. Pressing [Start/Stop] button to stop.

Accompaniment selection: It can be divided into single- finger chord and multi-finger chord. Without rhythm playing, the chord will be manual chord playing. With rhythm playing, the chord will be automatic chord of the corresponding rhythm.

Single- finger chord: Pressing [Single finger] button to turn on/off.

See below single finger chord playing:

Major triad: Root playing

Minor triad: Pressing root and one black key on its left at the same time

Dominant 7th: Pressing root and one white key on its left at the same time

Minor seventh chord: Pressing root and one white key and one black key on its left at the same time

Multi-fingered chord: Pressing [Multi finger] button to turn on/off.

See below single finger chord playing:

Chord Type	Chord Playing
C	1, 3, 5
Cm	1, b3, 5
C7	1, 3, (5),b7
Cm7	1, b3, (5),b7

Under rhythm playing mode, turn on single finger or multi-finger chord, and the corresponding accompaniment will be added automatically when playing chord. Turn off single finger or multi finger or chord off, the accompaniment will stop, but the rhythm will continue.

If pressing [Chord off] button, chord functions or accompaniment are off. All keys will back to normal.

Chord timbres selection: Pressing [Bass chord] to change chord timbres.

Automatic accompaniment control

Under rhythm playing, pressing [Insert] button to insert a interlude. Keep pressing [Insert] button can replay this interlude.

Sync: Pressing [Sync] button to enter sync function. The automatic rhythm or accompaniment starts when pressing keys in accompaniment area for the first time. Pressing this key during the rhythm will stop the rhythm and enter the synchronization state.

Tempo: [Tempo] button is effective for demos and rhythms. Pressing [+][-] at the same time to enter the default speed.

5.Volume control

Master volume control: The default volume is level 4. Pressing [+][-] to adjust.

Accompaniment volume control: The default volume for chord and percussion is level 6. 8 levels in total. Pressing [+][-] to adjust.

6.Percussion

There are 61 percussion. Pressing [Timbres] button, then typing 128, the keyboard will convert into keyboard percussion keys. Each key corresponds to a percussion instrument.

7.Metro

Pressing [Metro] button to start the metronome. The metronome effect will

be added when playing. Continuous pressing are : 1/4 beat 2/4 beat; 3/4 beat; 4/4 beat: stop.

8.Split

Pressing [Split] button, 61 black and white keys are divided into two keyboard areas. Then 24 keys on the left are separated from the original keyboard, which the pitch raised 8 degrees, and keep original timbre.

The pitch of the right part decreases 8 degrees, which is consistent with the left one. The right part timbres can be selected as required, and the left and right part can play different timbres at the same time.

9.Transposition control

Pressing [Transpose +] or [Transpose -] to change the playing method, which the entire keyboard pitch change in semitones. The adjustment range is between "+6" and "-6".

10.Record

Maximum 45 notes.

Pressing [Record] button to enter the recording mode. Under recording mode, pressing keys to record notes. Chord and percussion cannot be recorded when full and notes recorded will not be affected.

Pressing [Play] button to play recorded notes successively. Pressing again to stop.

Under recording mode, pressing [Record] or [Stop] button to exit recording function.

11.Program

Maximum 32 percussions can be edited.

Pressing [Program] button to enter program mode. Under the program mode, pressing the keys to edit drum sounds (percussion). Percussions can't be programmed when it's full. After finishing programming, pressing [PLAY] button to play percussion successively. Pressing again to stop.

Under program mode, pressing [Program] or [Stop] button to exit program function.

12. Demos

Demo one: Pressing [Demo one] button to repeat a single song. Pressing again or [Start/Stop] button to exit.

Demo all: Pressing [Demo all] button to repeat all demo songs. Pressing again or [Start/Stop] button to exit.

Under demos playing mode, you can select the corresponding song by numeric panel or [+/-] numeric panel.

13. Teaching mode & lighting keys

Teaching 1: Pressing [Teaching 1] button to enter teaching mode. You can select the demo you want by numeric panel or [+/-] numeric panel.

This teaching mode refers to learning about demo duration, and does not require the pitch and accuracy. You are allowed to play wrong while the keyboard is still playing with the correct notes, and the correct note will be displayed on the screen. After learning a song, the current song will be automatically repeated.

Pressing again or [Start/Stop] button to exit.

Teaching 2: Pressing [Teaching 2] button to enter teaching mode. You can select the demo you want by numeric panel or [+/-] numeric panel.

This teaching mode refers to learning to follow the correct notes. You can play according to the demo song. Keys light up according to the main melody note. It prompts the currently played note. Follow the instructions of the lighting key to play correctly. You can also learn based on the note key values displayed on the screen. The song will continue to play until you play the corresponding note, otherwise, it will wait until you pop the correct note. In this state, only the correct notes on the keys are played, and there is no response when the wrong keys are played. Pressing again or [Start/Stop] button to exit.
