

Ergopixel Uni-Directional Stream Microphone - Black  
High quality recording, easy setup. Exclusive patented appearance design.

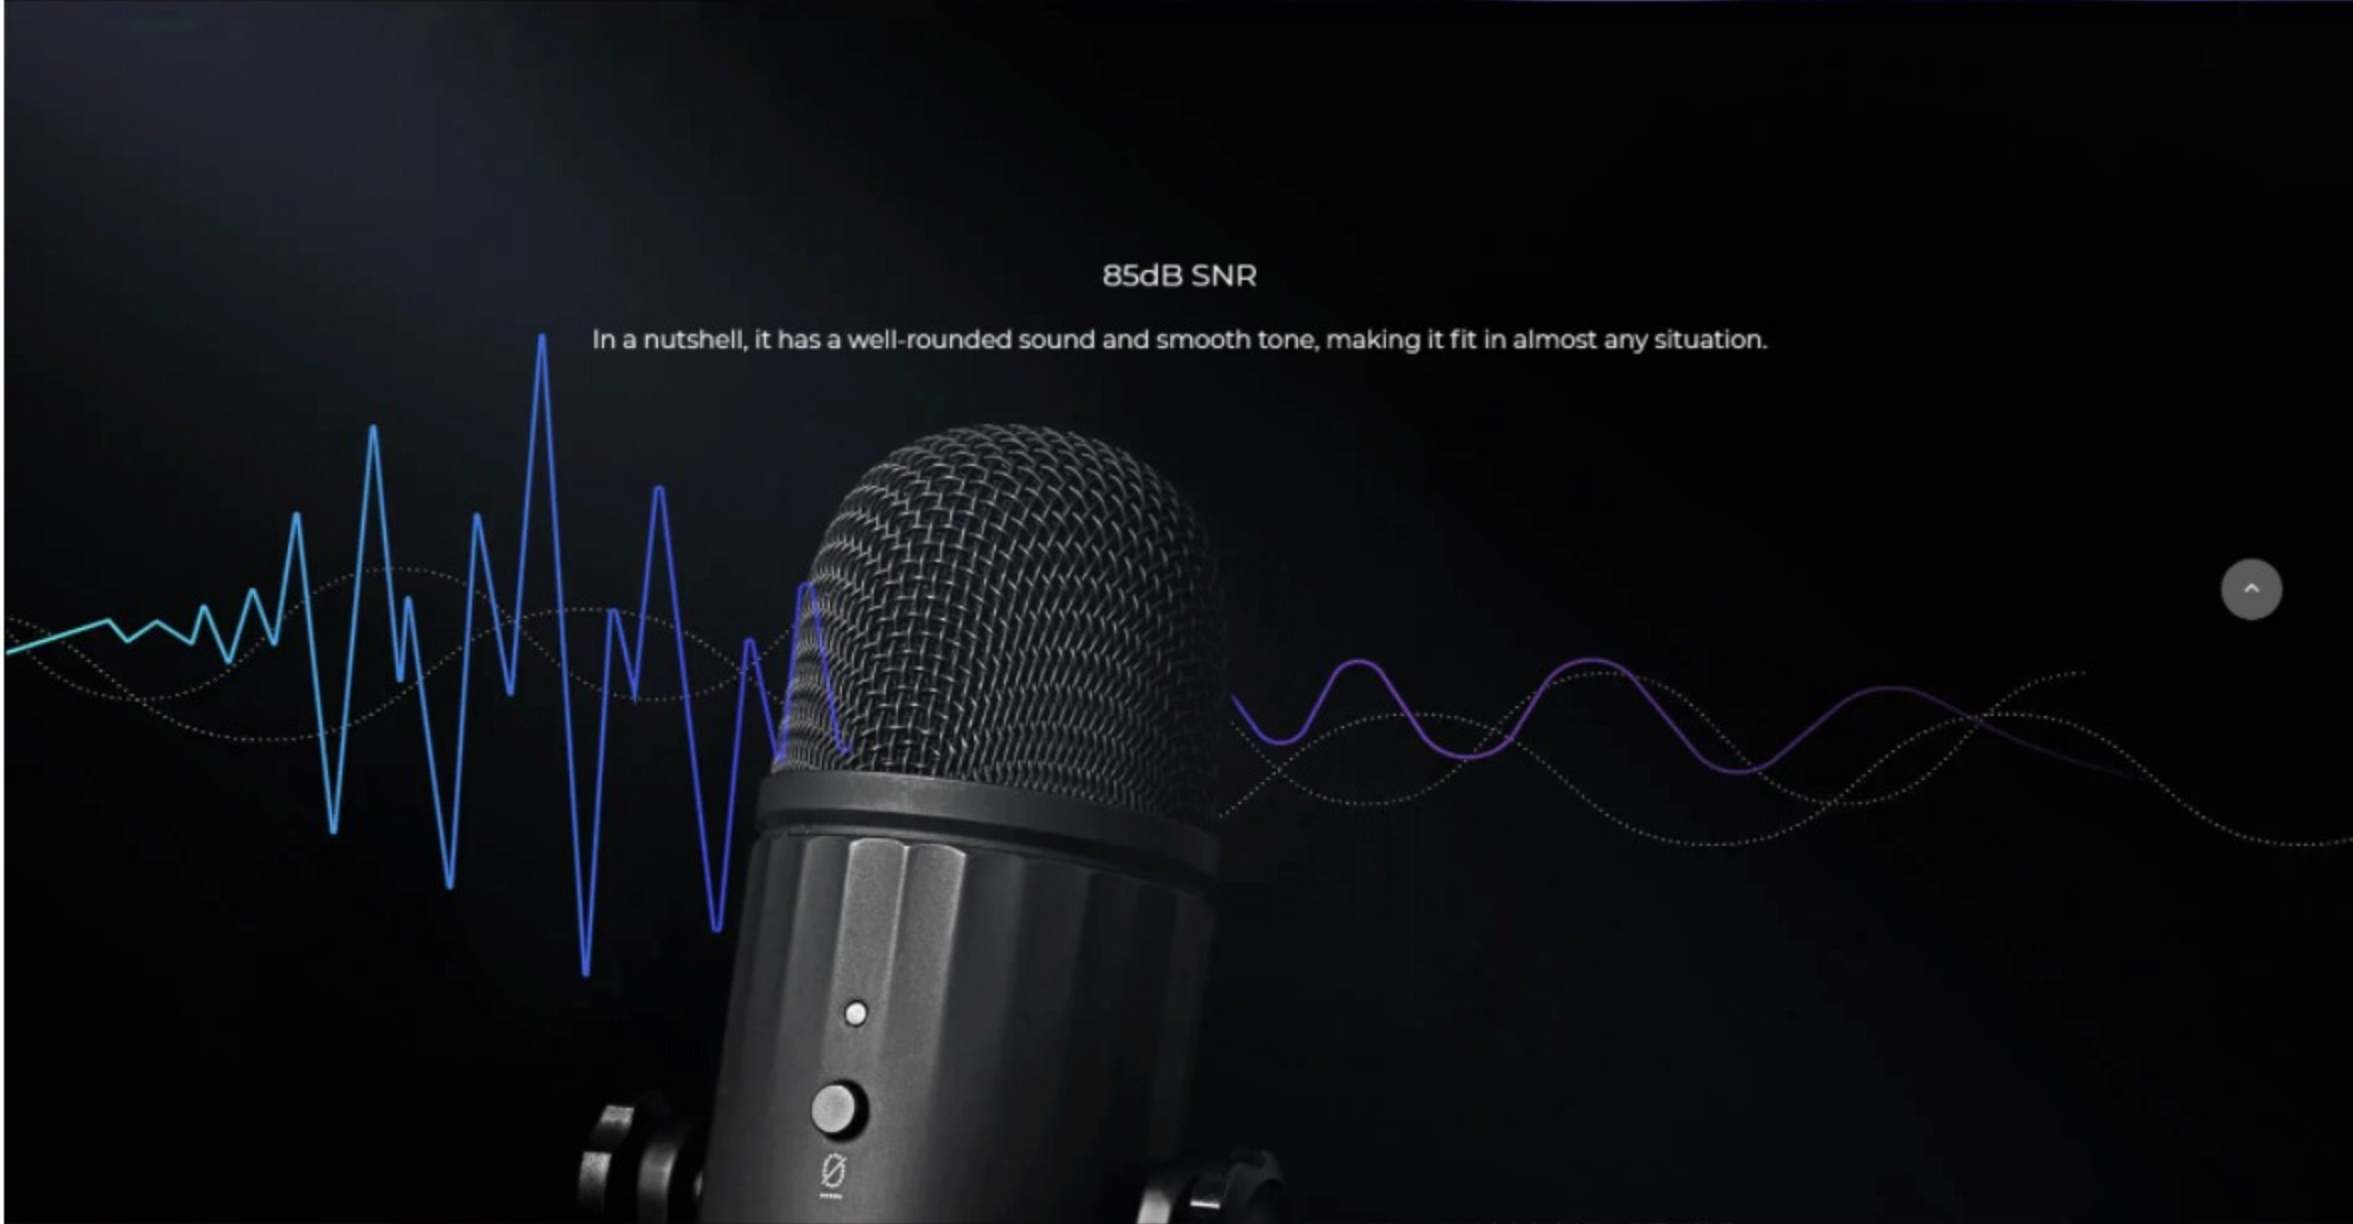

### Professional USB Microphone for Gaming, Streaming & Podcasting

With Ergopixel's new Stream Microphone is a refined all-in-one solution keeping the virtues of an XLR setup: gain control, instant mute and live monitoring while ditching the inconvenience.

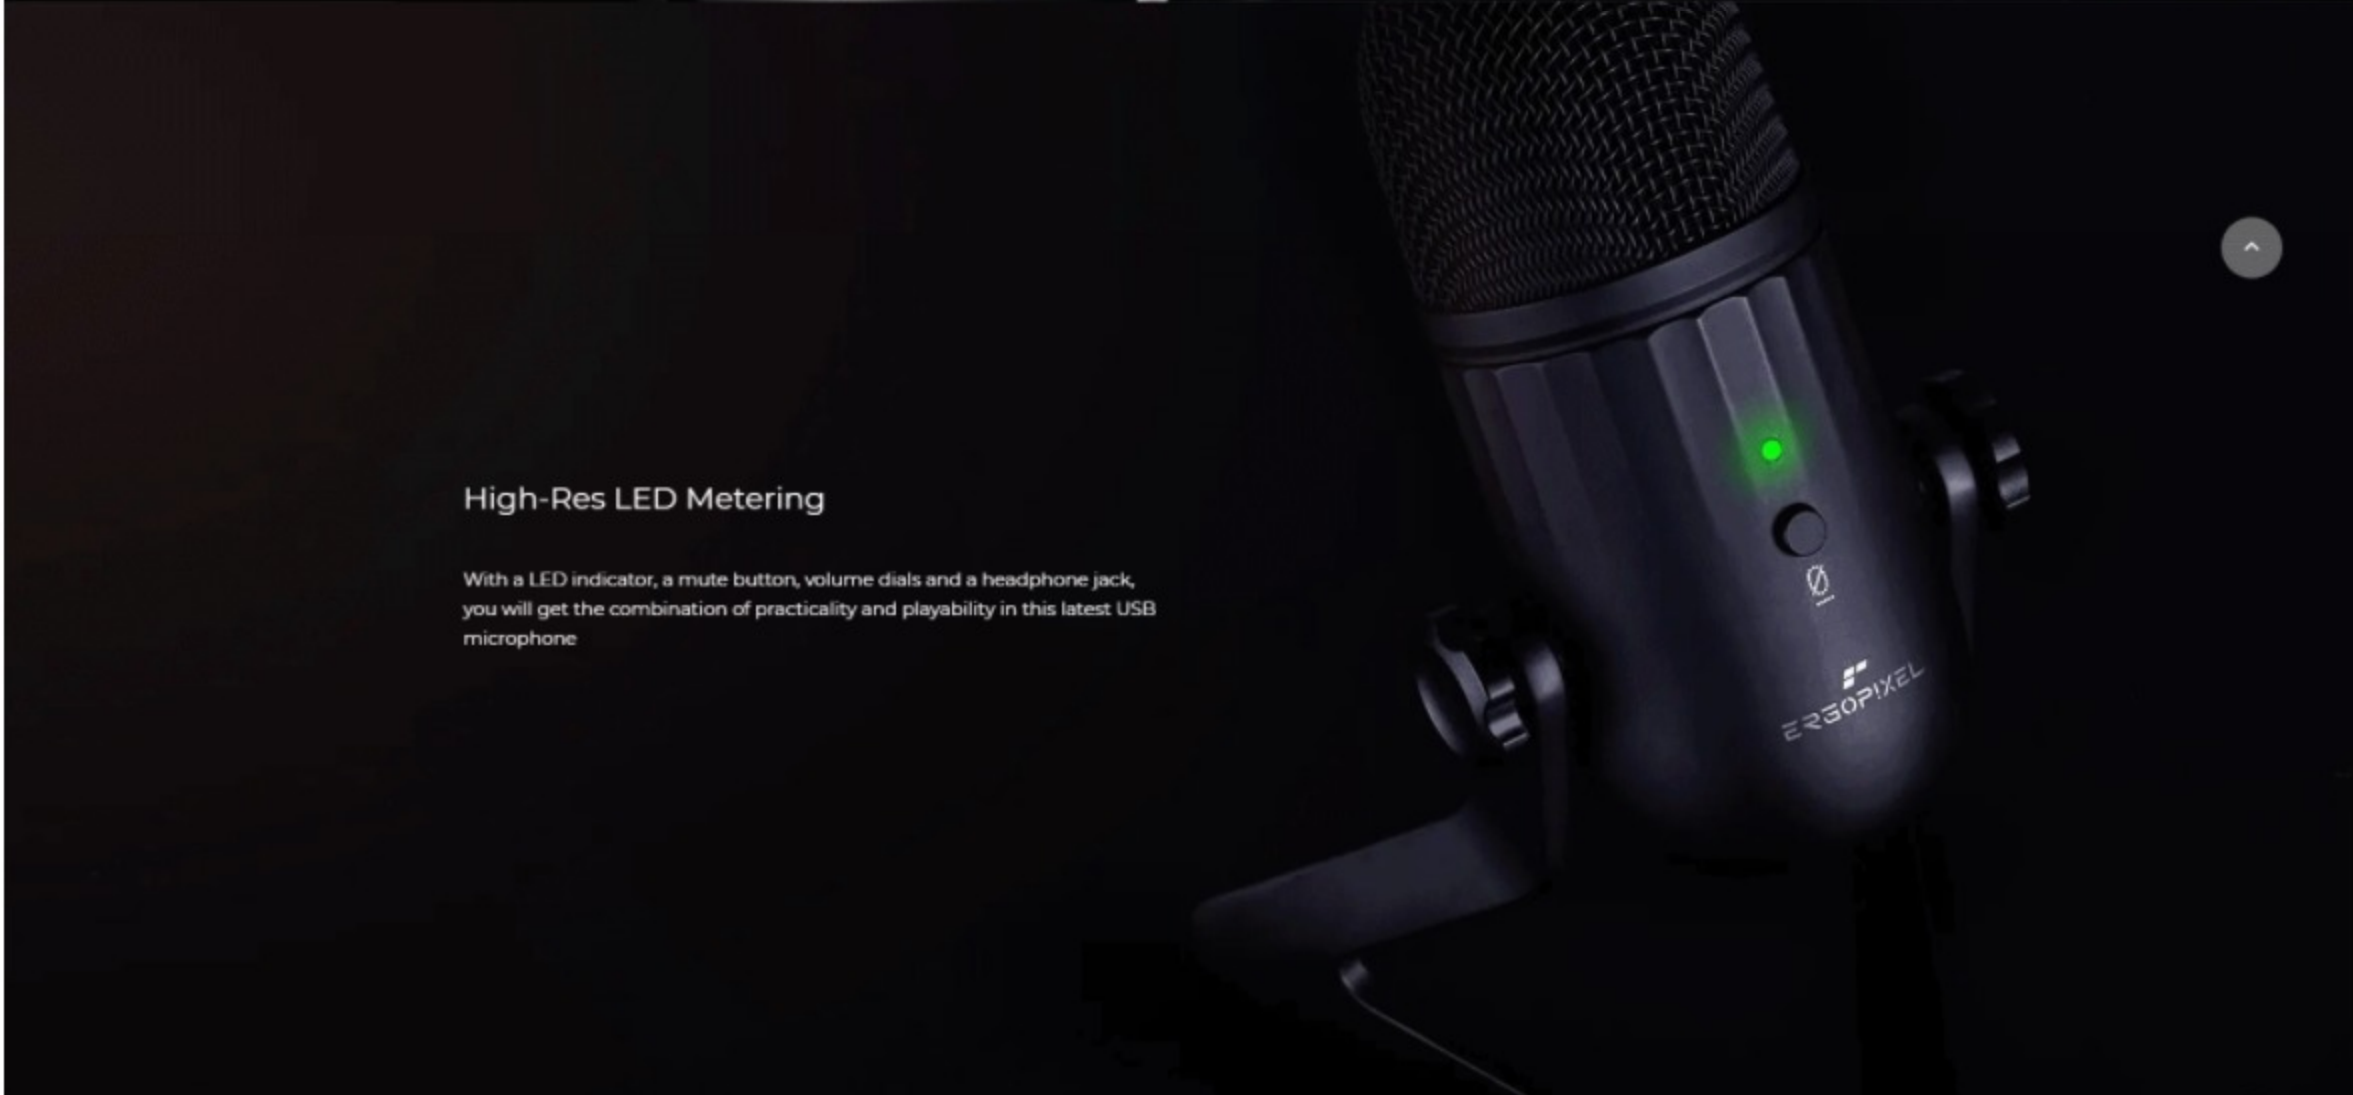

### The Best Recording Experience

Ergopixel Stream Microphone provides 40Hz to 20k Hz on frequency response.

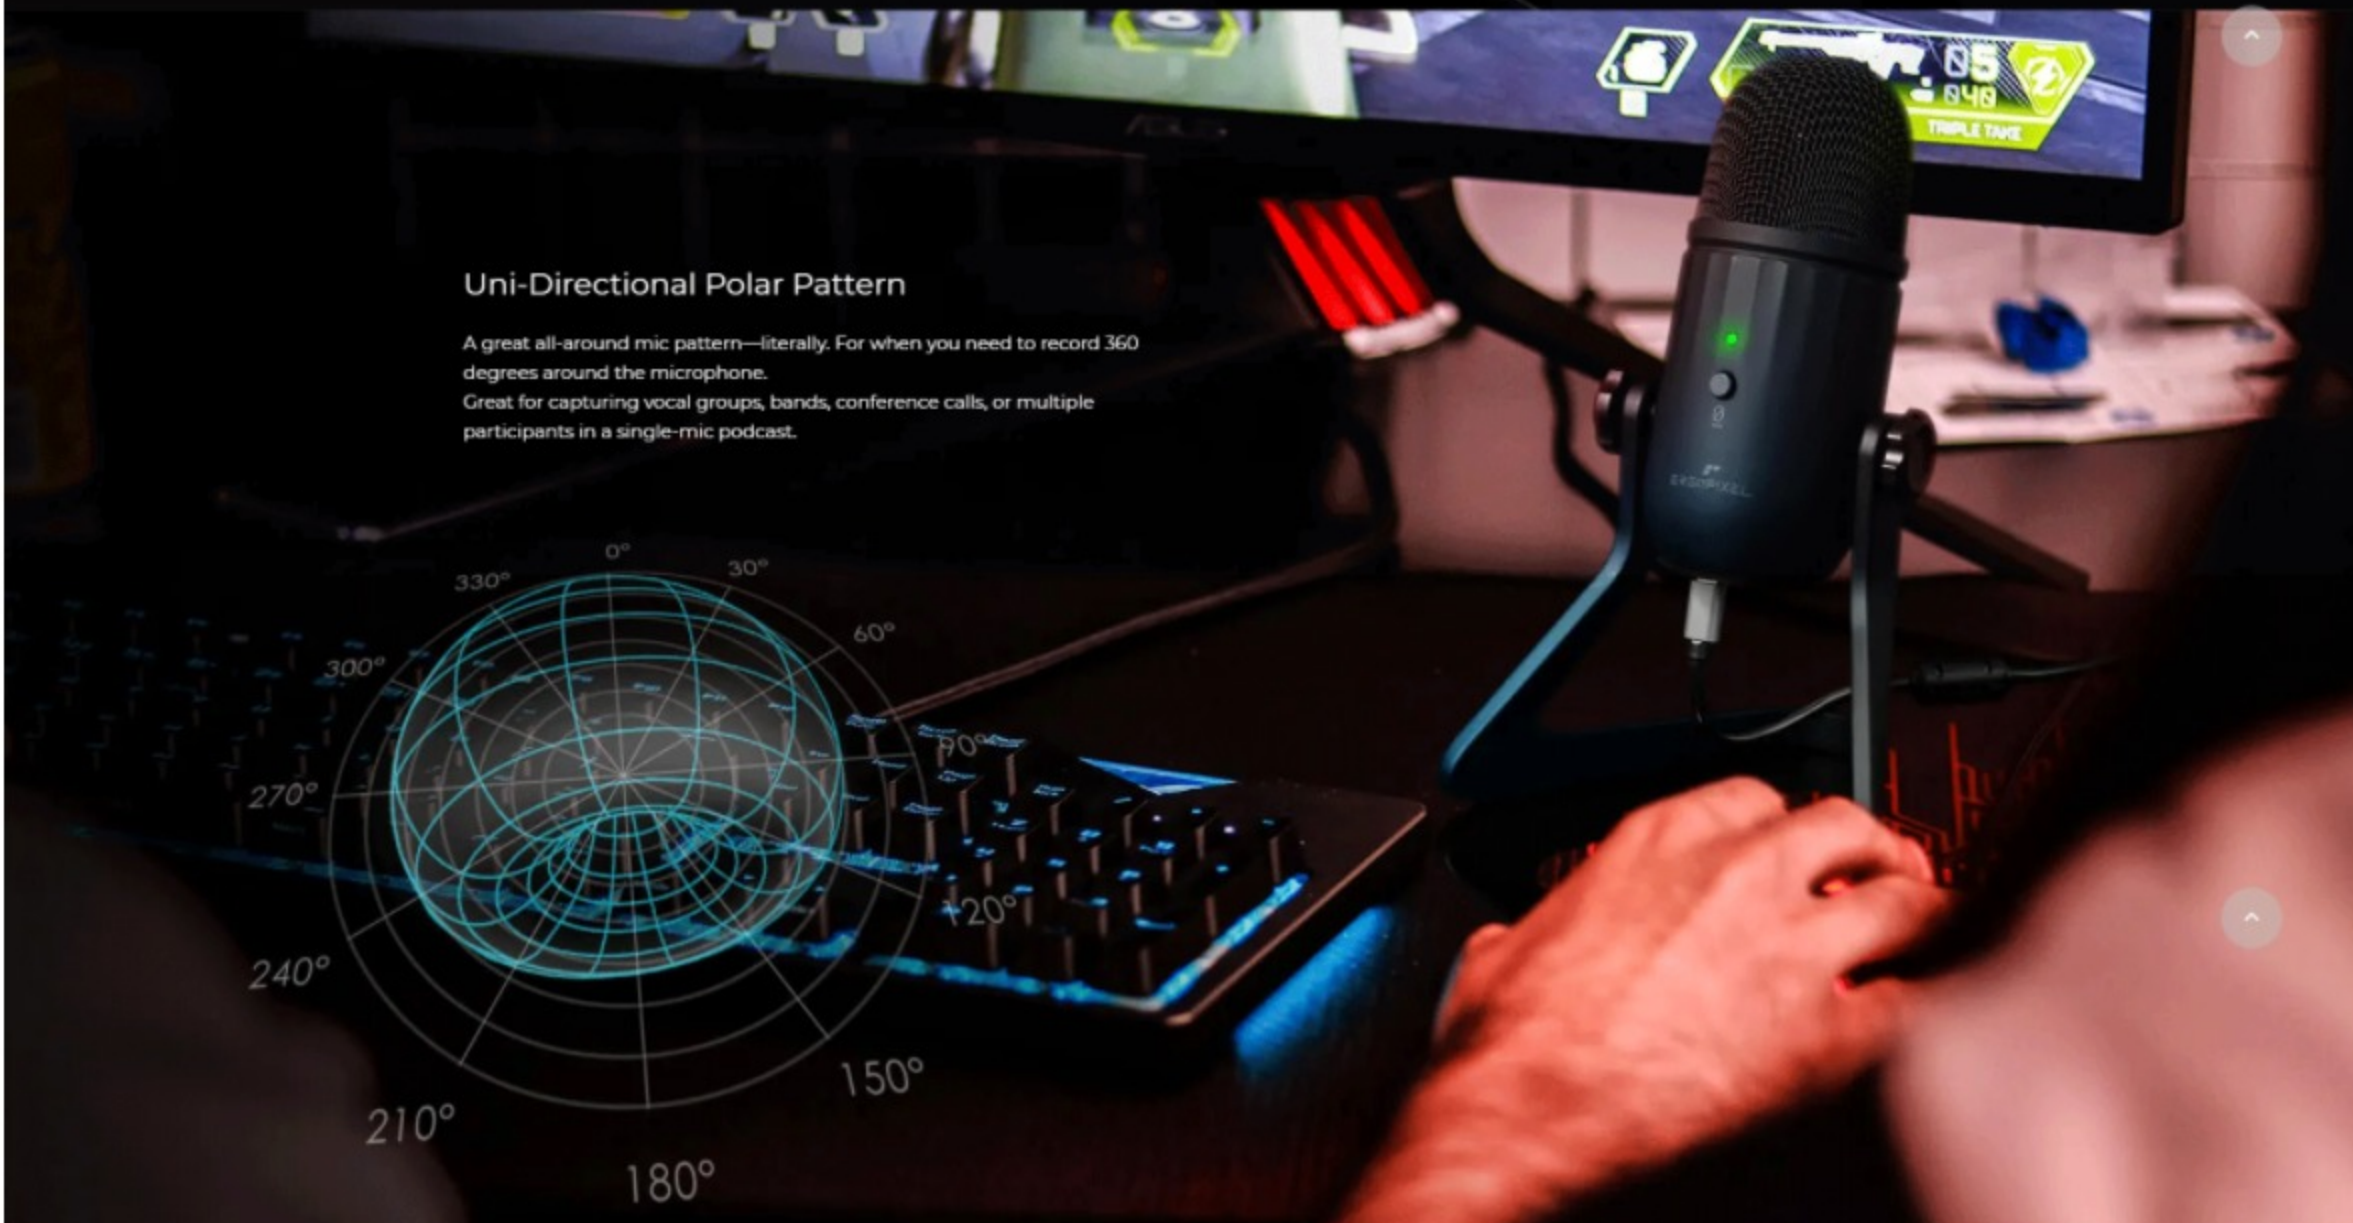

### 85dB SNR

In a nutshell, it has a well-rounded sound and smooth tone, making it fit in almost any situation.

### High-Res LED Metering

With a LED indicator, a mute button, volume dials and a headphone jack, you will get the combination of practicality and playability in this latest USB microphone

### Uni-Directional Polar Pattern

A great all-around mic pattern—literally. For when you need to record 360 degrees around the microphone. Great for capturing vocal groups, bands, conference calls, or multiple participants in a single-mic podcast.
