

**FEATURES:**

**Unbeatable 8 Level Resistance**

Widest 8 levels magnetic resistance provide the most realistic road riding experience than other 5-6 level resistance trainer, level 1-2 simulate the downhill riding, level 3-4 simulate flat road riding, level 5-6 simulate going up a small hill, and the 7-8 level simulate high hill riding

All steel foldable frame structure provides you a safest training with a 350Lbs weight loading capacity(including bike's weight).

Adjustable height with convenient knob fits your different wheel size (26"~28" and 700C)

Humanized designed rubber foot pad can be adjustable for different height. No need to worry about that your ground is not flat.

• **PACKING:**

1 x magnetic bike turbo trainer,

1 x quick-release skewer,

1 x front wheel block,

1 x instruction & tools

**Unbeatable 8 Level Resistance Stimulate Different Immersive Road Riding Feel**

**1-2 Level Resistance**

1-2 resistance is small, which simulate downhill riding. so, it can be used to preliminary warm up and check whether the equipment is set up

**3-4 Level Resistance**

3-4 have some resistance, which is simulate a normal road riding. It can be used as a formal warm-up and preparation

**5-6 Level Resistance**

5-6 level has a greater resistance, which simulate a small hill riding. It can be used as a recovery training or a transition stage of high-intensity training

**7-8 Level Resistance**

7-8 level is the highest resistance, which simulate a high-hill riding. It's perfect for high-intensity training and Professional Pre-training
