

H1 LED PROJECTOR

Experience Bright and Immersive Visuals

Bright and Crisp Projection for Immersive Visuals

With 3000-lumen light output and 125% Rec. 709 and sRGB wide color gamut, ASUS H1 projects bright and crisp imagery at Full HD (1920 x 1080) resolution. A mercury-free RGB LED light source ensures gorgeous, fade-free projections for up to 30,000 hours – which amounts to around 20 years of real-world use, at an average of 4 hours per day. Just fire up H1 to be drawn into immersive adventures from the comfort of your home.

Superfast Refresh Rate for Smooth Gaming

With its 120 Hz refresh rate, ASUS H1 is locked and loaded for next-gen console gaming – ready to serve up ultrasMOOTH experiences.

120HZ

Big Screen Enjoyment At Home

ASUS H1 turns any room into a home theater, with a wide projection range that spans from 40 to 200 inches – allowing you to enjoy big-screen immersion with ease. H1 also has a 1.2X zoom function for zooming in and out of projections.

1.2x Zoom Ratio

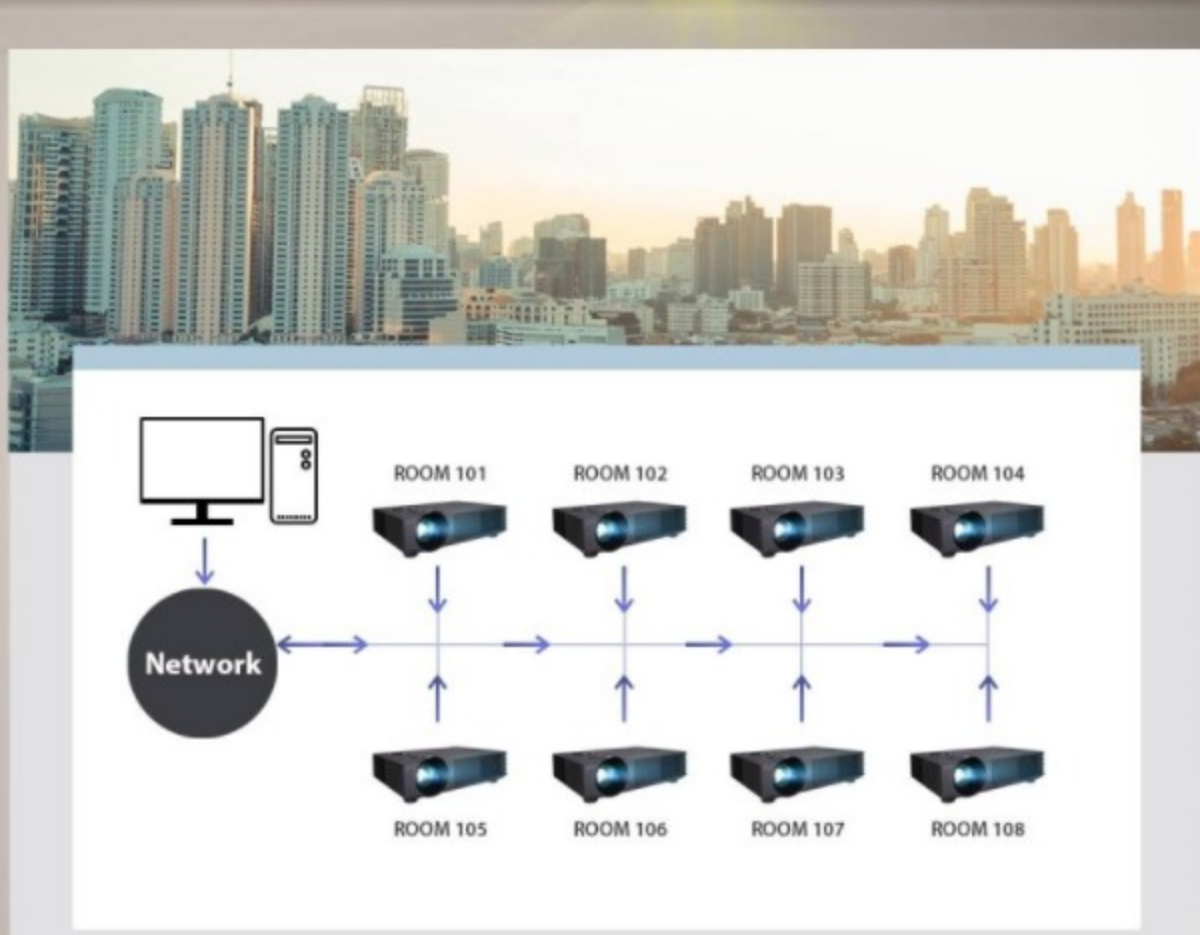

Sleek and Exquisite Design

The elegant H1 projector offers a premium feel and a style that blends well with any home or office decor, whether mounted on the ceiling or placed on a desk. H1 also includes a sleek, compact remote control for added convenience.

Easy Projector Management

H1 has an RJ45 Ethernet port that's compatible with Crestron RoomView Express, enabling remote management of up to 250 projectors on the same network. You can view lamp life, send notifications or set an operational schedule — all on your PC.

Comprehensive Connectivity

H1 features a variety of user-friendly connectivity options, including two HDMI 2.0 ports for 4K input, VGA, audio input and output, RS232, and one USB Type-A — so it's a cinch to connect up to multimedia sources.

10-Watt Speaker for Superior Sound Quality

The built-in 10-watt speaker delivers a wide frequency range for clear and rich vocals.
