

# ProArt Display PA329CV

## Incomparable Color. Unlimited Creativity.

### High Color Fidelity For Truly Expressive Hues

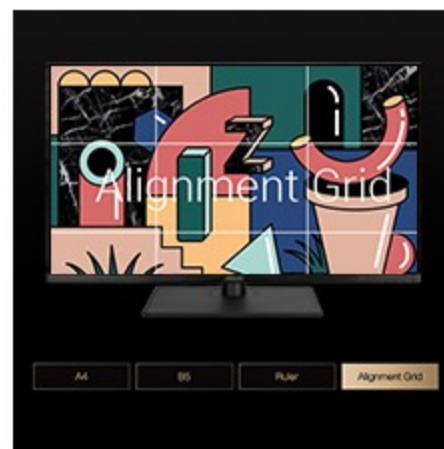

ProArt displays achieve  $\Delta E < 2$  so your images are accurately reproduced on screen – allowing you to see exactly how your work is going to look when it's finished.

### Multitasking Made Easy

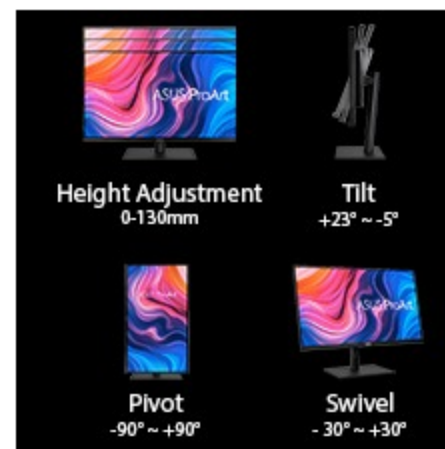

Picture in Picture (PiP) and Picture by Picture (PbP) modes so you can view two different

inputs simultaneously. This helps you fully maximize your display's on screen area so you get more done quickly.

### Real-size Artwork Preview

Save time and work smarter with ASUS QuickFit Virtual Scale. This clever feature overlays a grid on the screen that allows to align and preview documents in their actual sizes prior to printing.

### Versatile Comfort with Ergonomic Stand Design

With a 4-way adjustable stand (tilt, swivel, pivot and height adjustments), you can easily adjust your screen for a comfortable viewing experience.

### ASUS Flicker-Free Technology

A more comfortable viewing experience and work environment with reduced on-screen flicker to minimize eye strain, headaches and eye fatigue when you spend long hours in front of the display.

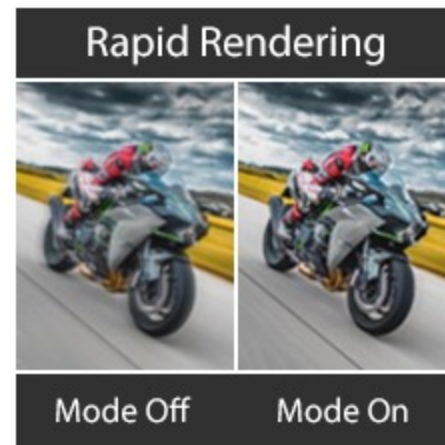

### ASUS Ultra-Low Blue Light Technology

Protecting you from blue-light emissions that may be harmful to your vision, the blue-light filter can be easily accessed through the on-screen menu via the hotkey.

### Customized, Flexible, and Capable Color Control

6-axis color control functionality allows advanced users to adjust saturation & hue parameters. Create your own color specifications based on your needs.

### Quick Color-gamut Adjustment

ASUS-exclusive ProArt Preset provides multiple modes for quick color-gamut adjustment. Whether you're color grading, video editing or manipulating photos, you can switch and match your needs easily.
