TUF Gaming VG32VQ1B is a 31.5-inch, WQHD (2560x1440), curved display with an ultrafast 165Hz refresh rate designed for professional gamers and those seeking immersive gameplay. Those are some serious specs, but not even the most exciting thing the VG32VQ1B has in store. Its impressive curved display features a 165Hz refresh rate and Adaptive-Sync (FreeSync™ Premium) technology, for extremely fluid gameplay without tearing and stuttering.

31.5 INCH IMMERSIVE CURVATURE

The 31.5-inch WQHD (2560 X 1440) panel of TUF Gaming VG32VQ1B delivers stunning visuals from all angles with an 1500R curvature that ensures every point is equidistant to your eyes. This contributes to greater viewing comfort — even during extended use — and lets you enjoy a wide viewing angle with less distortion and color shift when gaming and watching movies.

165HZ REFRESH RATE

TUF Gaming VG32VQ1B 165Hz refresh rate decimates lag and motion blur to give you the upper hand in first person shooters, racers, real-time strategy, and sports titles. This ultrafast refresh rate lets you play at the highest visual settings and lets you react instantly to what's onscreen — so you'll get that first strike in.

EXTREME LOW MOTION BLUR

VG32VQ1B Features the latest ASUS-exclusive Extreme Low Motion Blur technology, which achieves 1ms MPRT to eliminate smearing and motion blur, and makes objects in motion look sharper, so gameplay is more fluid and responsive.
