

Galaxy Buds Live

Sound that rocks

The AKG-tuned 12mm speaker and enhanced bass tone play everything in studio-quality sound. An open design creates a live listening environment, suiting those who prefer a natural, spacious sound.

HARMAN

New Style. New Sound.

Equal parts earbuds and ear bling, Galaxy Buds Live come in three colors you'll want to rock all day.

*Galaxy Wearable app compatible with smartphones and tablet running Android 5.0 or higher and with more than 1.5GB on RAM. Also, Galaxy Buds app compatible with iPhone 7 or later models with iOS 10 or higher.

- 1 First Microphone
- 2 Second Microphone
- 3 Inner Microphone

Turn down distractions

Turn on Active Noise Cancellation¹ to block out background noise on an airplane, train or bus. Tap again to let in surrounding live sounds—colleagues' voices, flight announcements, street traffic—while still enjoying your favorite playlist or podcast.

*Features including Active Noise Canceling are enabled through Bluetooth connection or the Galaxy Wearable app on Android, available through Google Play Store, and the Galaxy Buds app on iOS devices, available through the App Store.

Long-lasting battery

Long lasting battery life with a case that doubles as a wireless charger.

5.5H/Total 20H (ANC & Bixby voice wake-up On)
6H/Total 21H (ANC or Bixby voice wake-up On)
8H/Total 29H (ANC & Bixby voice wake-up Off)

Always-on assistance

Use your always-on voice assistant to order coffee, send a message or search music hands free.

*Requires a Galaxy smartphone or tablet that supports Bixby and a data or network connection.
