

**GLADIUS mini**  
 Conquer The Waters  
 Small. Stable.  
 Seriously Adventurous.

GLADIUS MINI dives deep!

Meet the world's first 5-thruster mini-size underwater drone with Intelligent Control algorithms. Enjoy real-time 4K UHD video and 12 MP photos from up to 330-foot depths.

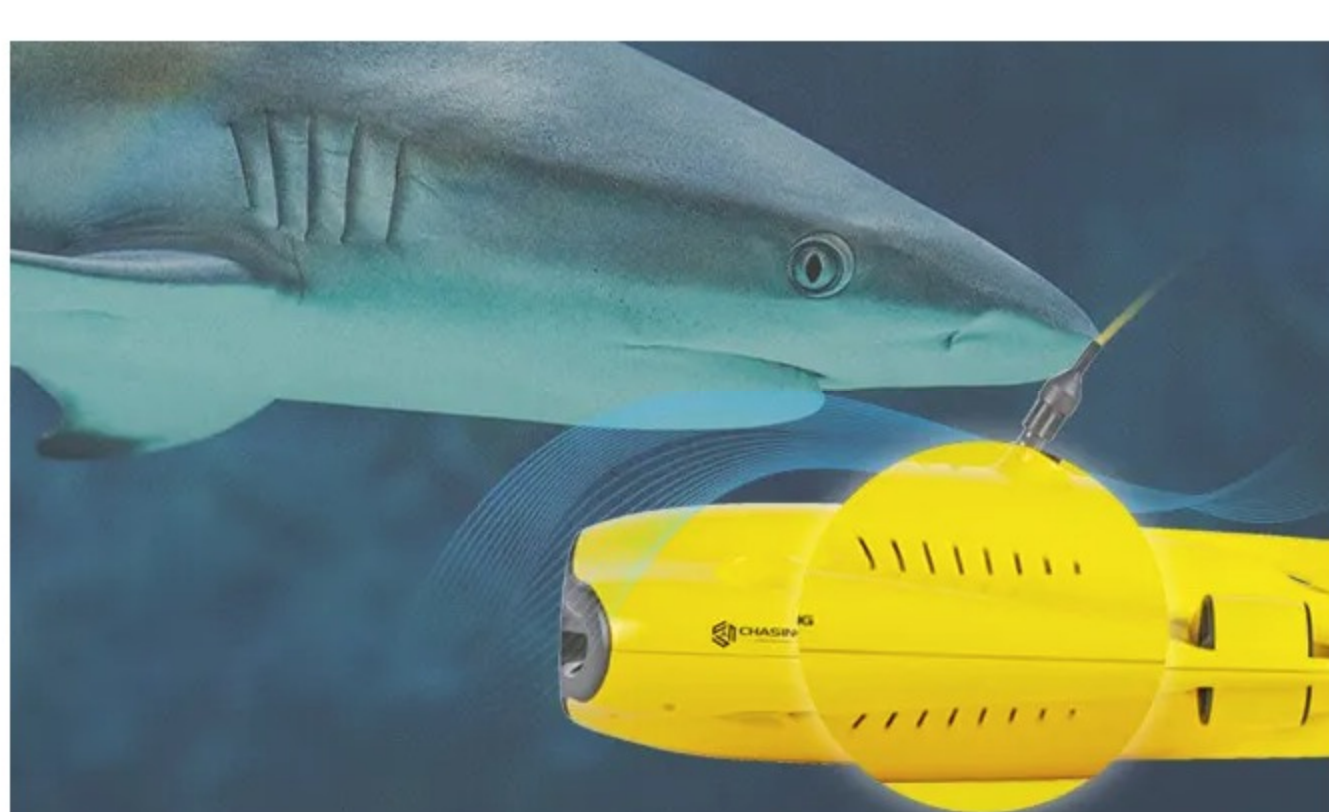

Honor Badges

WORLD'S 1st INTELLIGENT 5-THRUSTER UNDERWATER (MINI-SIZE) DRONE

Nature Brings Inspiration

Streamlined biologically inspired design with gill-shaped drainage, low-resistance, and unmatched stability!

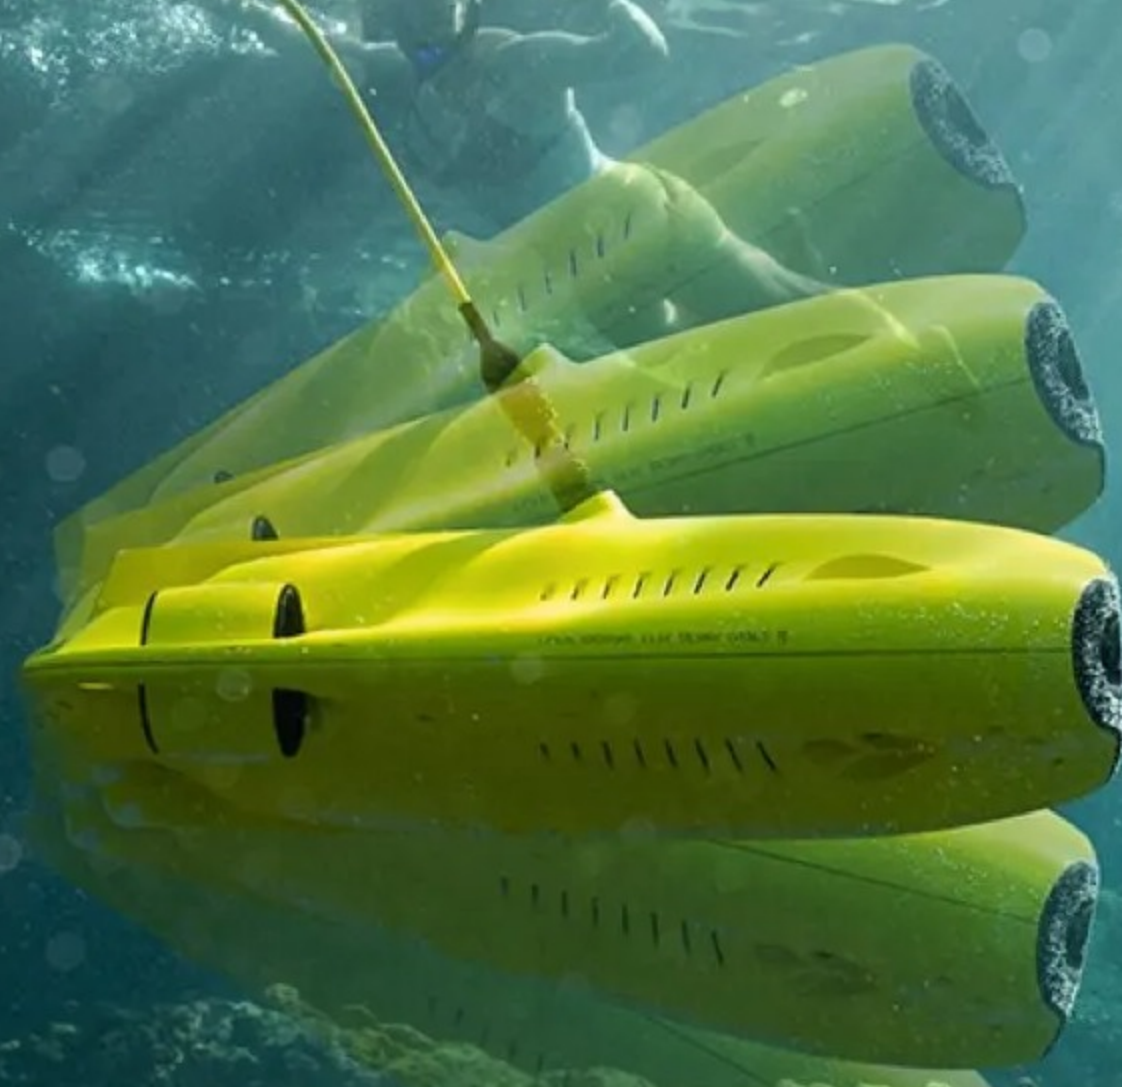

Intelligent Propulsion and Precision Hovering

Dive down, rise-up, hover, tilt, and turn with precision. Three vertical propellers combined with intelligent control algorithms ensure the stability of the drone in all directions while two thrusters propel GLADIUS MINI at speeds up to 4Knots (2m/s).

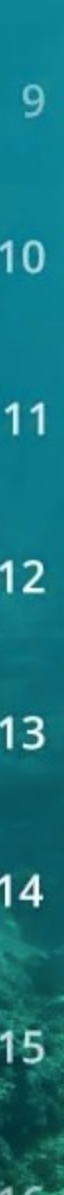

Adjustable Tilt-Lock Means Perfect Camera Angles

With game-control maneuverability and  $\pm 45^\circ$  adjustable Tilt-Lock mode, GLADIUS MINI moves fluidly in all directions for epic access to underwater scenes at speeds up to 4 knots!

ONE TOUCH DEPTH-LOCK MODE

Intelligent Control algorithms and one-touch Depth-Lock Mode help you navigate freely and hover at depth to find and capture exactly what you want.

Witness the INTENSITY of nature

Ultra HD 4K video footage brings the vivid underwater world to life.

TRUE COLOR

The image restoration algorithm in MINI APP fixes color distortion and makes the picture clearer, brighter and cleaner.
