

Upgraded security  
with improved  
video previews  
that works on  
any home.

## With Pre-Roll

- Two-way talk and Quick Replies that help you answer the door when you are busy
- Quick-release rechargeable battery pack for easy recharging

HD Video with  
Night Vision

Motion Alerts with Color  
Pre-Roll Video Previews

Customizable  
privacy settings

Works  
with Alexa

## A few seconds, all the difference

Start recording before you even receive a motion alert with color Pre-Roll – the first feature of its kind for battery-powered doorbells. With up to 4 extra seconds of video, you'll know what happened before your package was delivered, or other motion was detected. You'll never miss a detail - day or night.

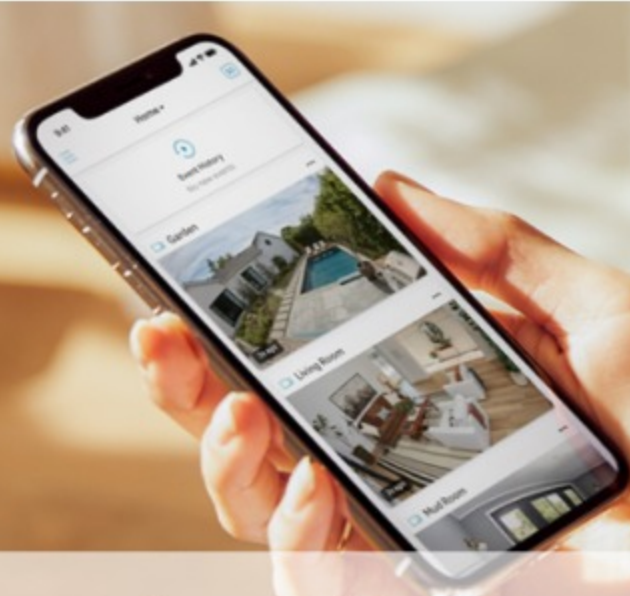

*"Please leave the package  
outside. If you'd like to  
leave a message, you can  
do it now."*

## More ways to answer

Answering the door is easier than ever with Quick Replies. Choose from preset responses, or save time and ask visitors to leave a message with just a few taps. It's like an answering machine for your front door.

## Complete Control from the Ring App

Receive real-time notifications on your phone and tablet, get real-time video and audio with the Live View button, control and customize important security settings, get exclusive features, and save and share videos, photos with an optional Ring Protect Plan. Control everything with one simple app.
