

# Minimal design, maximum light

The slender, unassuming design of Signe gradient lamps hides a secret: its brilliant blend of colorful light.

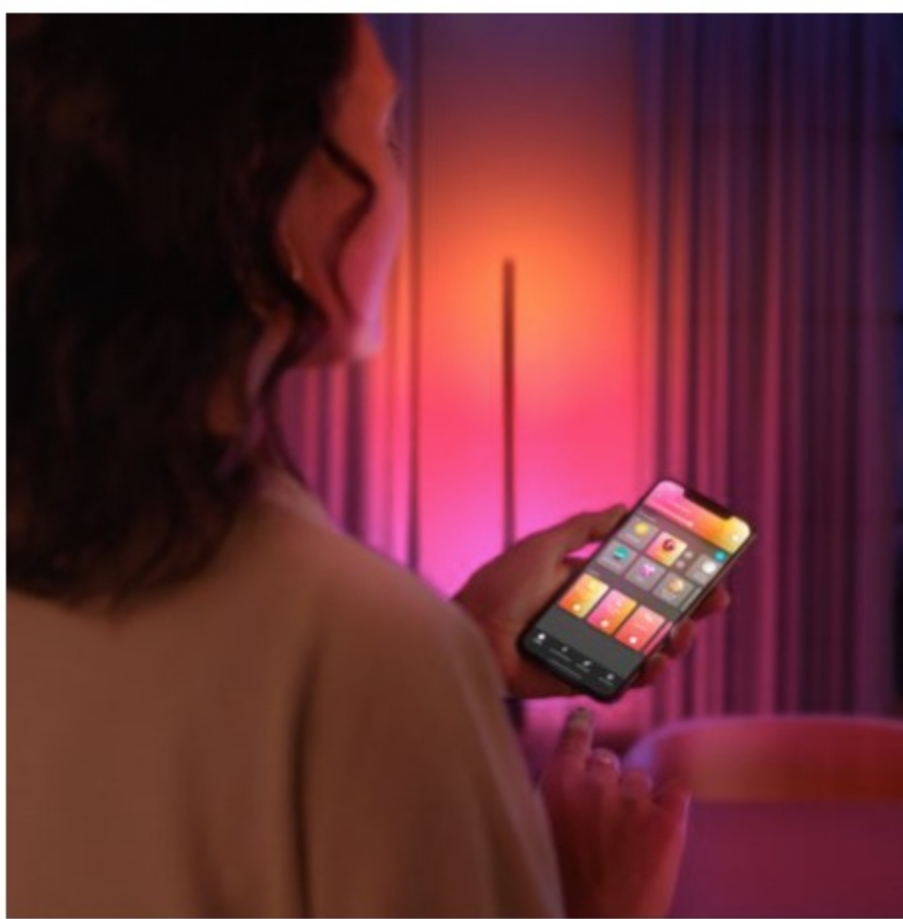

## Color every moment

### Create an inviting environment

Having a few friends over? Or the whole family? With the colorful backdrop of Signe gradient lamps, even a small gathering can be an event.

Relax in style

Design your home with light

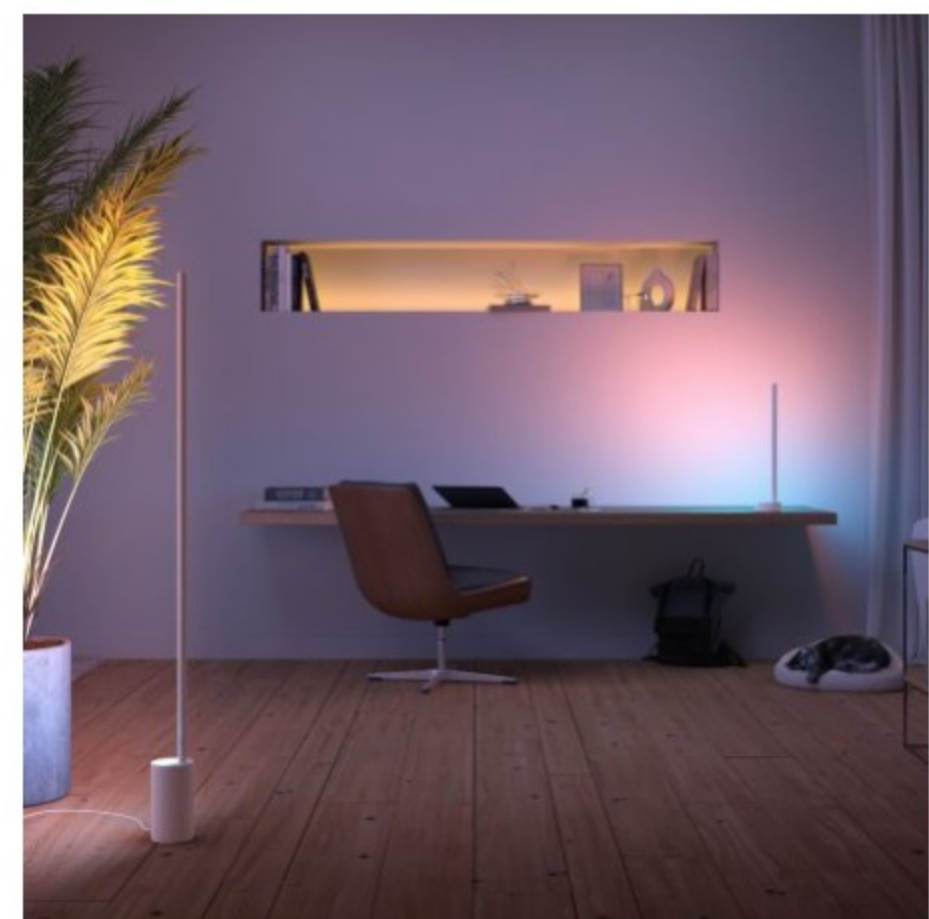

### Customize with the Hue app

Control your Signe gradient lamps with your smartphone or tablet using one of the Hue apps.

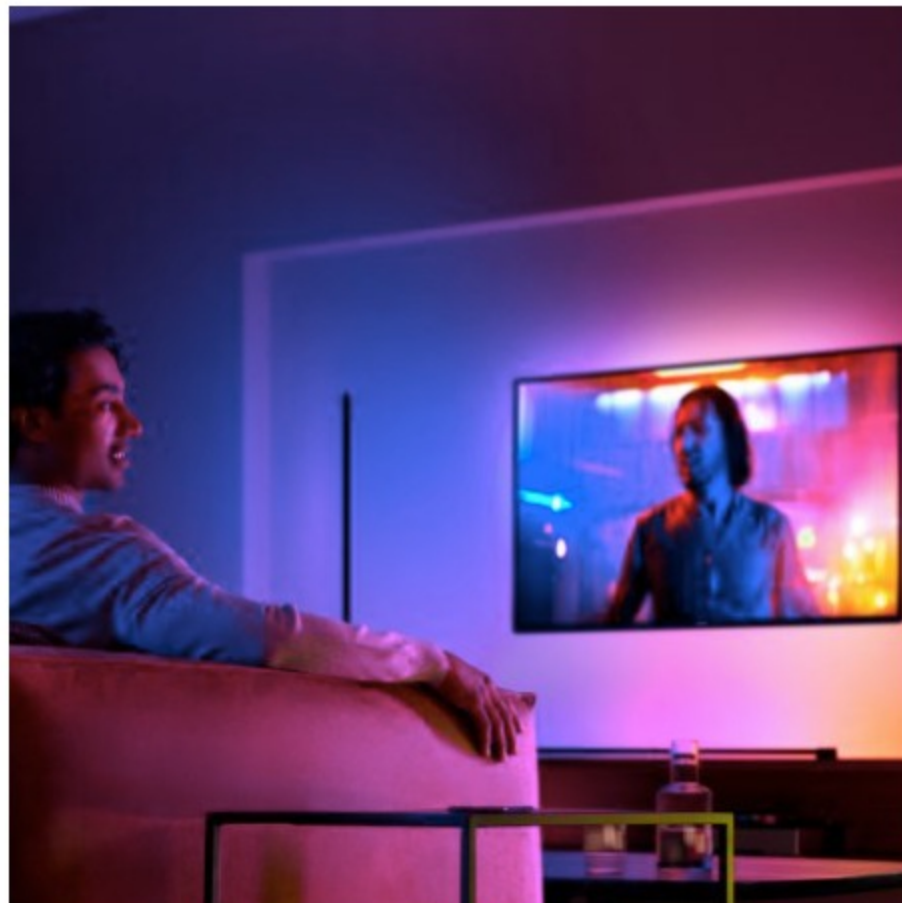

## Control your way

Use a Hue app, your voice, or smart accessories to control your Signe gradient lamps.

### Add accessories

Create the ultimate convenience by adding easy-to-use accessories such as a Hue dimmer switch or motion sensors to your setup.

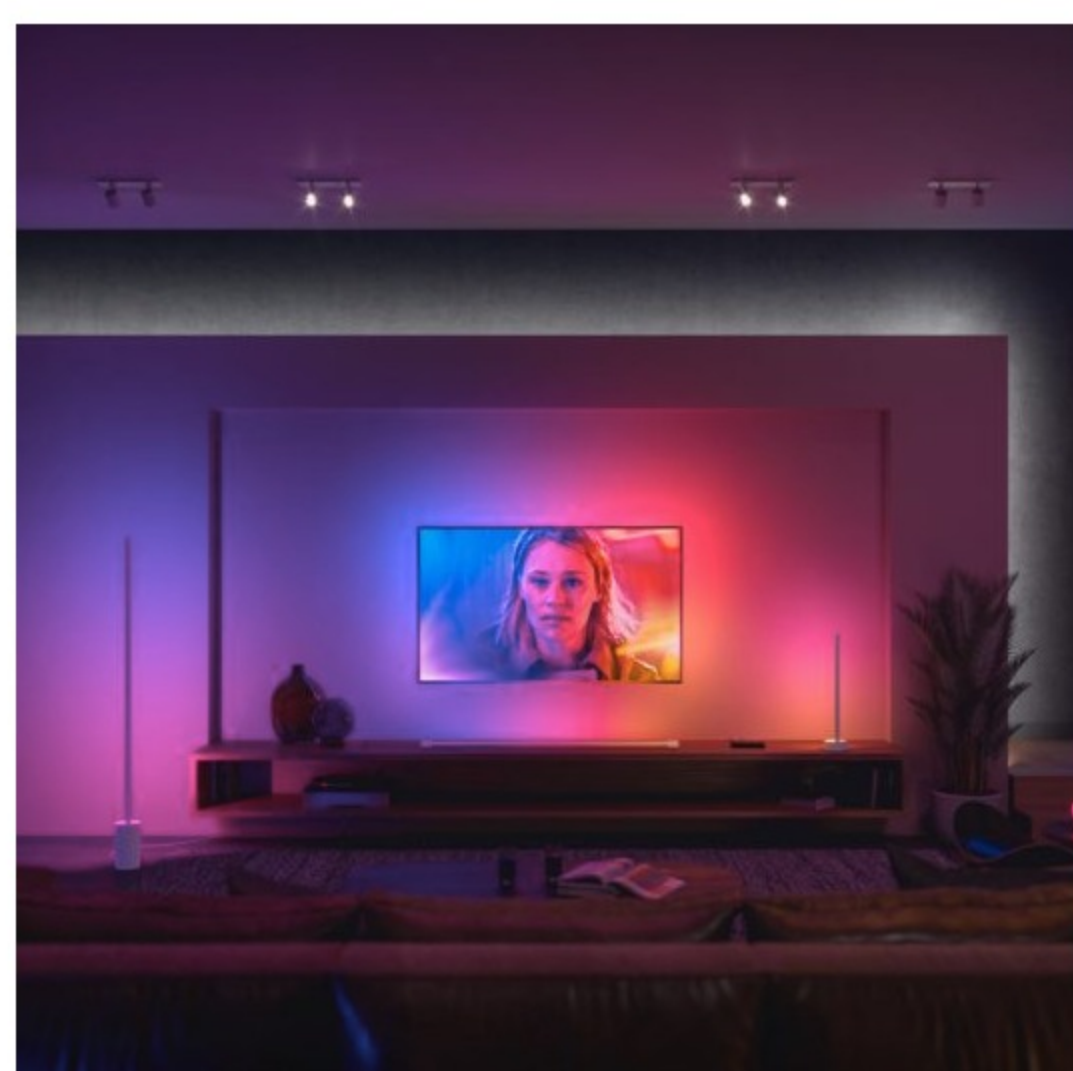

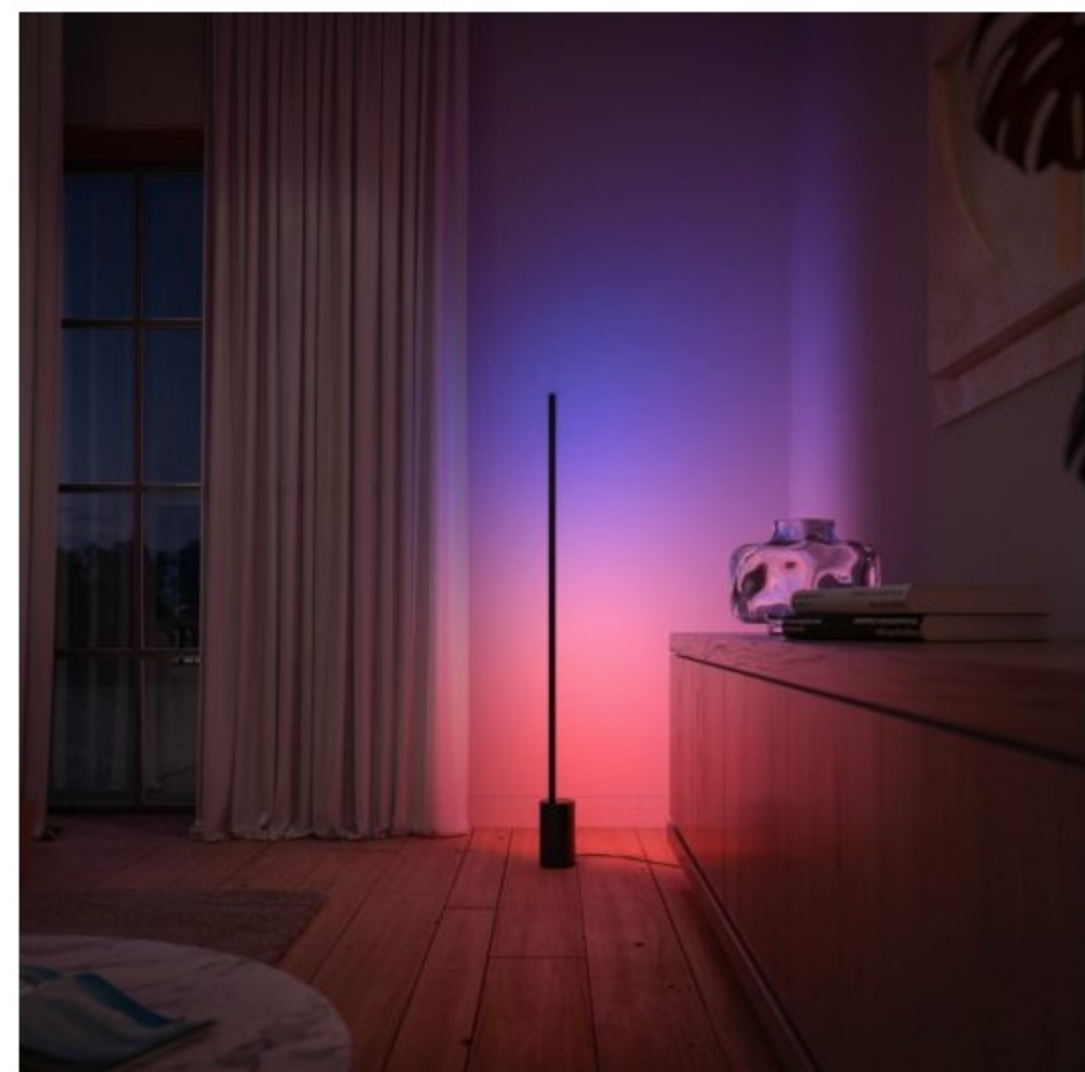

### Go hands-free with voice

Use simple voice commands to control Signe gradient lamps with Amazon Alexa, Apple HomeKit, or Google Assistant.

## Seamlessly blend colors

Signe gradient lamps use gradient technology — which blends multiple colors of light in a single fixture — for a truly unique look.

## Dynamic light effects

Make special moments even more memorable with living light. Let the colors of the light slowly change, creating a dynamic effect.
