ASUS ZenWiFi AX XT8 White

AX6600 Whole-Home Tri-band Mesh WiFi 6 System – Coverage up to 4,400 Sq. ft. or 6+ rooms, 6.6Gbps WiFi, 3 SSIDs, life-time free network security and parental controls, 2.5G port

- Banish WiFi Dead Zone—Tri-band mesh WiFi system with unique antenna placement delivers strong WiFi to every corner of your home, providing total wireless speed of 6600Mbps.
- Next-Gen Wi-Fi 6 Technology— With OFDMA and MU-MIMO, ZenWiFi AX enables more efficient, stable, and faster transmission even when multiple devices are transmitting data at the same time.
- Hassle Free Control – 3 steps setup and easy management with ASUS Router App.
- Always Up-to-date Protection— The lifetime free network security powered by Trend Micro makes sure your privacy on connected devices is protected.
- AiMesh Supported— Mix and match ZenWiFi with AiMesh-compatible routers to form powerful and flexible whole-home WiFi system.

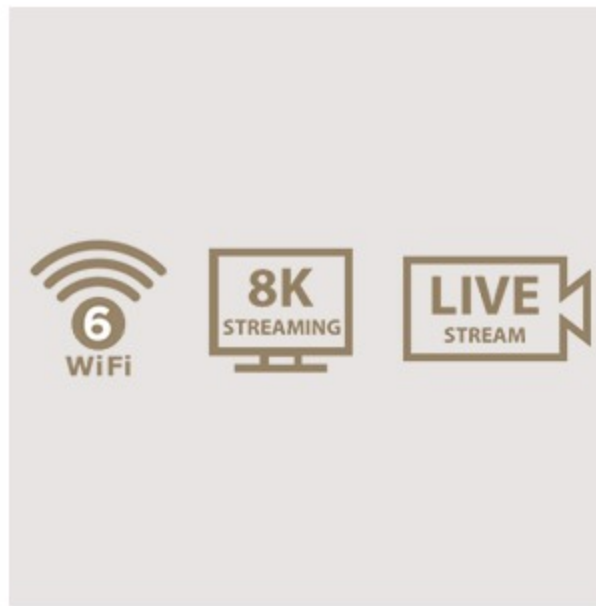

ASUS AiMesh is the ultimate home WiFi solution that lets you enjoy a stable, seamless and secure wireless connection anywhere in your home. With powerful features, exceptional ease of use and no trade-offs between WiFi range and maximum speed. AiMesh is an innovative feature that connects multiple compatible ASUS routers to create a whole-home WiFi network. It's a flexible and scalable solution that enables you to mix diff. ASUS router, so when you upgrade there's no need to replace your router.

Upgrade to Whole-home Coverage!

The ZenWiFi AX Single Pack includes one ASUS AX6600 WiFi 6 router, providing up to an extra 2750 sq. ft. of coverage to your existing network - featuring unique technologies that give you superfast, reliable, and secure WiFi connections — inside or outside your home!

WiFi 6

ZenWiFi AX puts your WiFi into top gear! With a total bandwidth of up to 6600 Mbps, it's up to 2.2X faster* than tri-band AC3000 (WiFi 5) routers**.

* The 160MHz bandwidth may be unavailable in the 5GHz band in some regions/countries due to regulatory restrictions. * Compatible WiFi 6 device required. ** The data compares speed of 4x4 11ax on 5GHz 160MHz bandwidth with 1024QAM modulation to speed of 4x4 11ac on 5GHz 80MHz with 256QAM modulation.

Works with any WiFi device

WiFi 6 is fully compatible with all generations of WiFi, so you can connect any device to ZenWiFi AX, no matter if it uses 8-1ef02.11ac, 802.11n, or other previous WiFi standards.

- A: WiFi 6
- B: 802.11ac
- C: 802.11n
