

S.T.R.I.K.E. 13

Engineered to Win

96-KEY COMPACT DESIGN

S.T.R.I.K.E.13 features a 96-key compact design, displaying clean aesthetics, ideal for any gaming environment. Thanks to its minimalist design, the S.T.R.I.K.E.13 offers outstanding portability, ideal for traveling to tournaments. S.T.R.I.K.E.13 delivers full performance without sacrificing functionality, with a full complement of function and direction keys present.

CHERRY MX RED SWITCHES

The S.T.R.I.K.E.13 is equipped with legendary Cherry MX RED switches. The switch provides silent keystrokes and extreme durability, tested to 50 million keypresses. The 2mm actuation distance provides professional, instant response for the highest levels of play. The S.T.R.I.K.E.13 guarantees years of intense use and the accuracy needed to dominate the most intensive of battles.

100% ANTI-GHOSTING WITH 96-KEY ROLLOVER

S.T.R.I.K.E.13 offers full key anti-ghosting functionality with 96 key rollover, meaning that no matter how fast your fingers are, every keypress and complex command registers correctly in game.

PER-KEY RGB BACKLIGHTING

The S.T.R.I.K.E.13 combines the most advanced programmable LED lighting with user-friendly software. Customize your favorite color on every individual key to set a personal lighting effect suitable for your gaming environment.
