

## Open-Ear Comfort

OpenComm features a lightweight, open-ear design powered by bone conduction tech for all-day comfort. Unlike traditional headsets, our wireless headset allows for communication and awareness in the workplace.

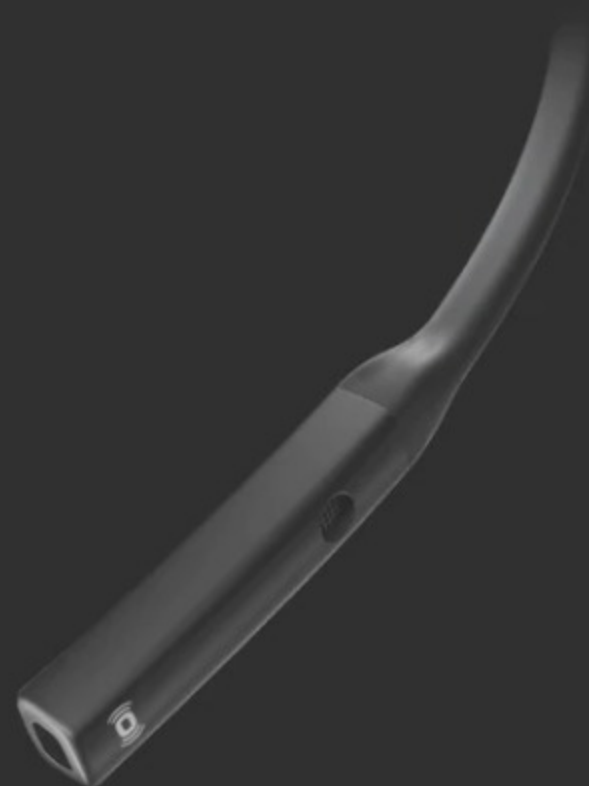

## Awareness & Connection

Engineered with patented bone conduction technology to maximize hands-free communication, OpenComm allows you to stay connected with unmatched awareness and outstanding call quality.

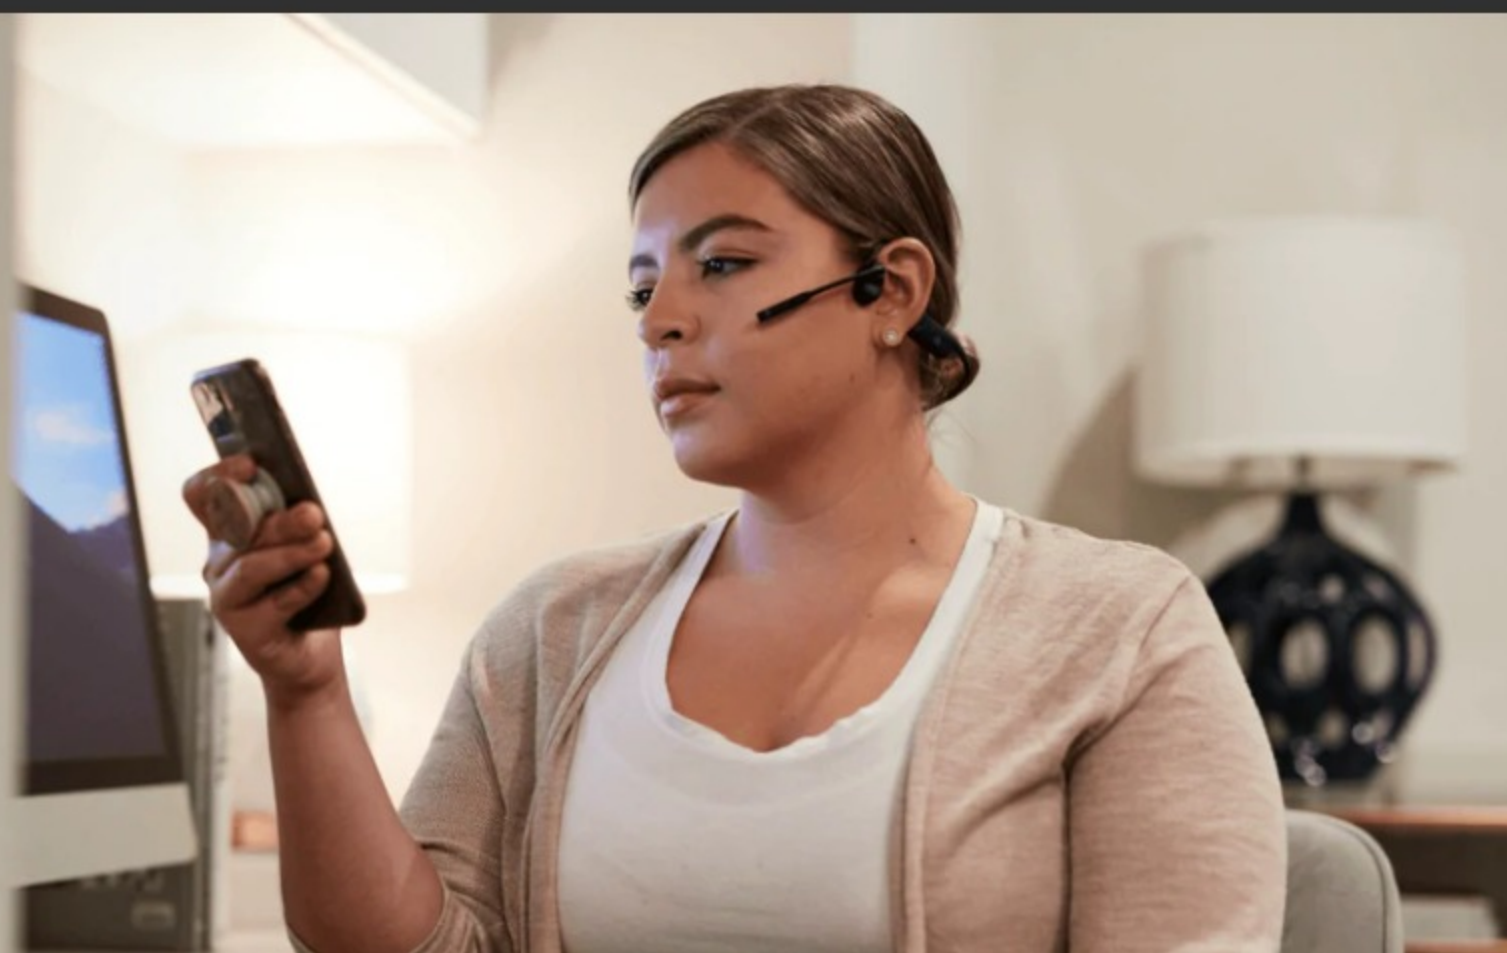

## Noise-Canceling Boom Microphone

The adjustable DSP noise-canceling boom mic eliminates background noise for clear communication in loud environments when positioned near the mouth, making it the best headset for work, virtual meetings, etc.

## 16 Hours Of Talk Time

OpenComm features up to 16 hours of talk time or 8 hours of listen time on a single charge for all-day communication. OpenComm also features Quick Charge; charge for 5 minutes for up to 2 hours of talk time.

## Easy Controls

Our multifunction button is designed to play, pause, activate voice assistant, answer calls, etc. with just a couple taps. OpenComm is also engineered for NFC (Near Field Communication) and multipoint pairing; enjoy seamless Bluetooth pairing with an NFC compatible device, or connect two devices at the same time.
