

## Open-Ear Listening

Our open-ear design powered by bone conduction technology ensures bud-free and comfortable listening all day, in or out of the water.

## Bone Conduction Technology

Equipped with the patented PremiumPitch™2.0 bone conduction technology, OpenSwim (Formerly Xtrainerz) achieves 50% less sound leakage, and provides extraordinary underwater sound quality.

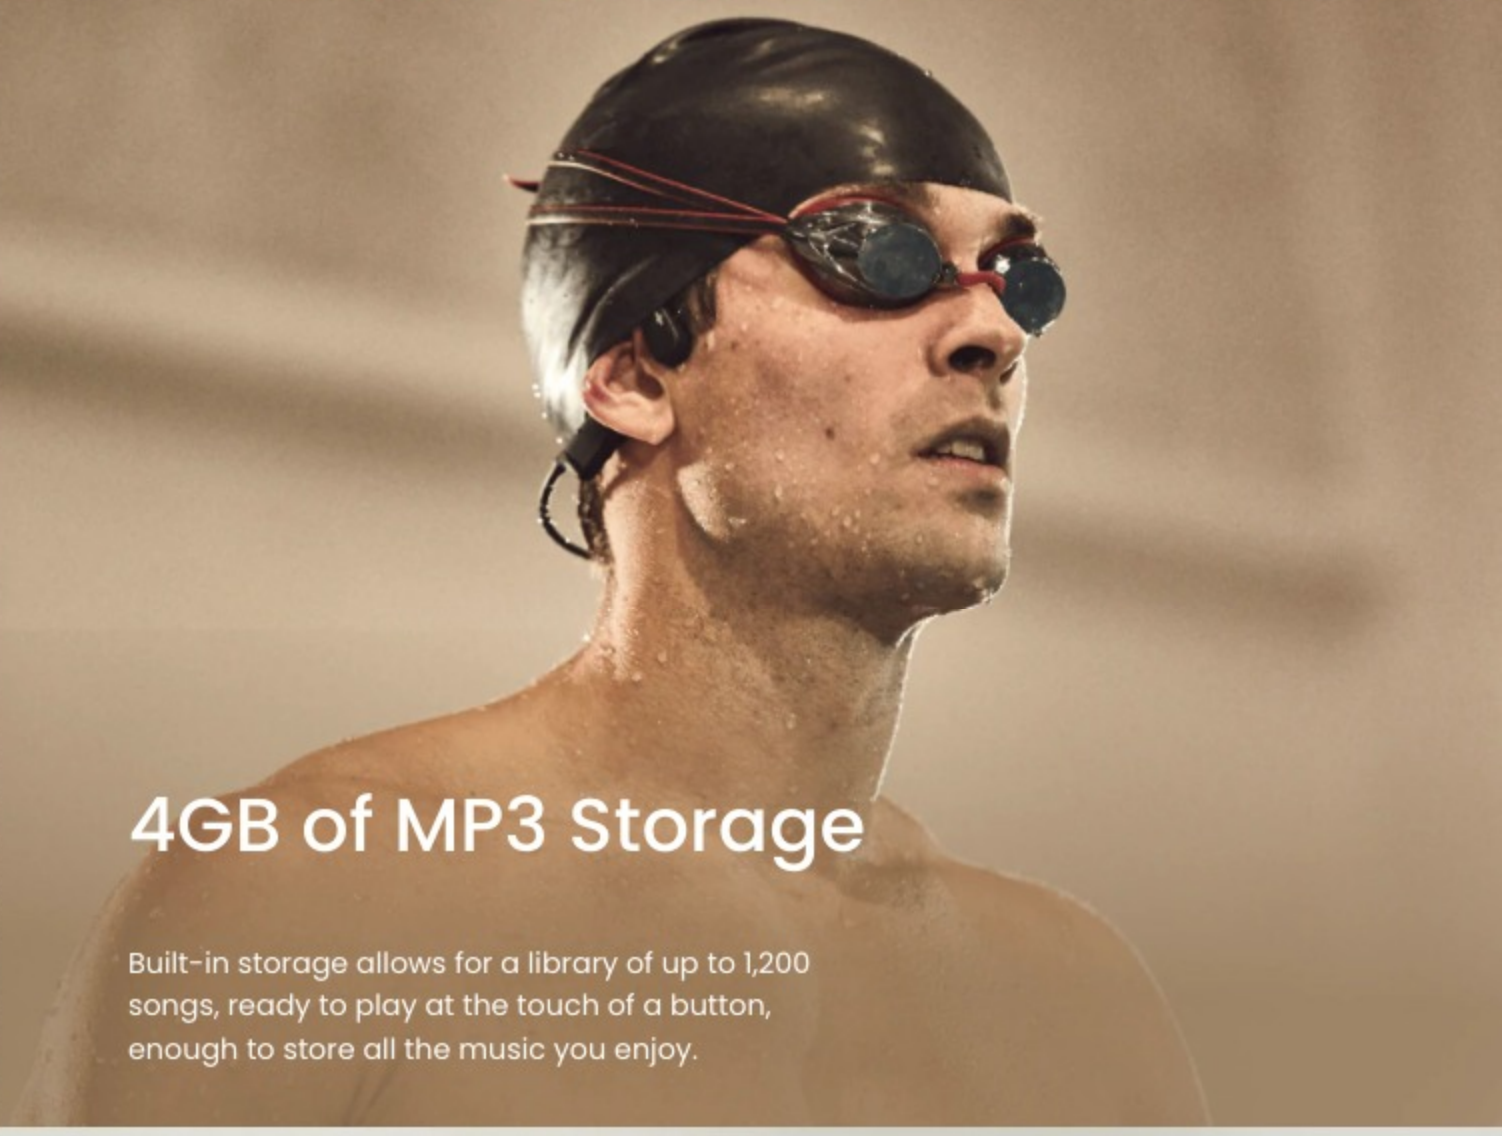

## IP68 Waterproof

An IP68 waterproof design withstands total submersion in up to 2 metres of water. It's fully waterproof and submersible so you can swim, run, cycle, or train harder than ever before.

## 8-Hour Battery Life

Designed to go the distance. Powerful battery enables a premium audio experience for up to 8 hours.

## 4GB of MP3 Storage

Built-in storage allows for a library of up to 1,200 songs, ready to play at the touch of a button, enough to store all the music you enjoy.

## Versatile And Secure Fit

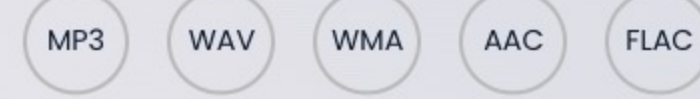

Compatible with swim caps, goggles and earplugs. OpenFit™ titanium design equipped with wraparound flexibility for reliable stability in any situation.

## Built-In MP3 Headphones

\*NOT BLUETOOTH COMPATIBLE

It supports MP3, WAV, WMA, AAC, and FLAC for device-free listening.

## Music Shines Underwater

Experience underwater music like never before
