

C.A.T. 7

PC Functionality in a Controller

Enjoy PC gaming in the palm of your hand with The Authentic C.A.T. 7 Wired Game Controller. This plug-and-play controller, packed with 25 buttons for a wide range of functionality, two customizable configuration buttons, a backlit switch, and an OLED display to take gaming to the next level.

Extra Multifunctional Buttons

The C.A.T. 7 controller features 6 additional buttons - 2 programmable bumpers and 4 programmable paddles, allowing advanced in-game actions to be controlled with ease.

Detachable Micro-USB Cable

It supports a detachable Micro-USB cable that can be wired using the included USB-A to micro USB cable to reduce fatigue on the cable
