

EGO ARCADE STICK

One Stick, Multiple Formats

The EGO Arcade Fightstick offers full compatibility across various platforms, including the PS4, Xbox One, Nintendo Switch, and Windows, allowing users to switch between formats easily. It comes with a wide base, strong metal frame, and non-slip foam, so it stays where you want it. This is perfect for tournaments and those looking for an arcade feel and is comfortable enough for sustained competitive play, whether on a desk or in your lap.

Born to Fight

Program the L3/R3 buttons for custom command flexibility, change configurations with a format switch button, disable pause with a key lock switch and quickly access the home and share view buttons. Add rapid-fire to an action button at the press of a button to register 10 rapid-fire reactions and reduce fatigue.

Premium Components

Sanwa Denshi components give this fight stick tournament-ready timing and dependable performance, with 8 customizable action buttons in a Vewlix layout that gives you that authentic arcade feel.

MULTI-BUTTON FUNCTIONALITY

Program the L3/R3 buttons for custom command flexibility, change configurations with a format switch button, disable pause with a key lock switch and quickly access the home and share view buttons.

TURBO FUNCTION

Add rapid-fire to an action button at the press to register 10 rapid-fire reactions and reduce fatigue.

ADDITIONAL BUTTONS

Two additional buttons are accessible for gamers to program as they wish. Execute a choice command or use it as a hotkey; more choice means more ways to win.

PC AND CONSOLE COMPATIBILITY

Quickly and easily switch among Windows Direct and X-inputs, PS4, Xbox One, and Nintendo Switch.
