

Household harmony with Alexa

Reimagine how your family stays organized and entertained with a personalized smart display that helps keep everyone on track and in sync. You can mount it on a wall or display it with a compatible stand (sold separately) in portrait or landscape orientation.

See what matters most

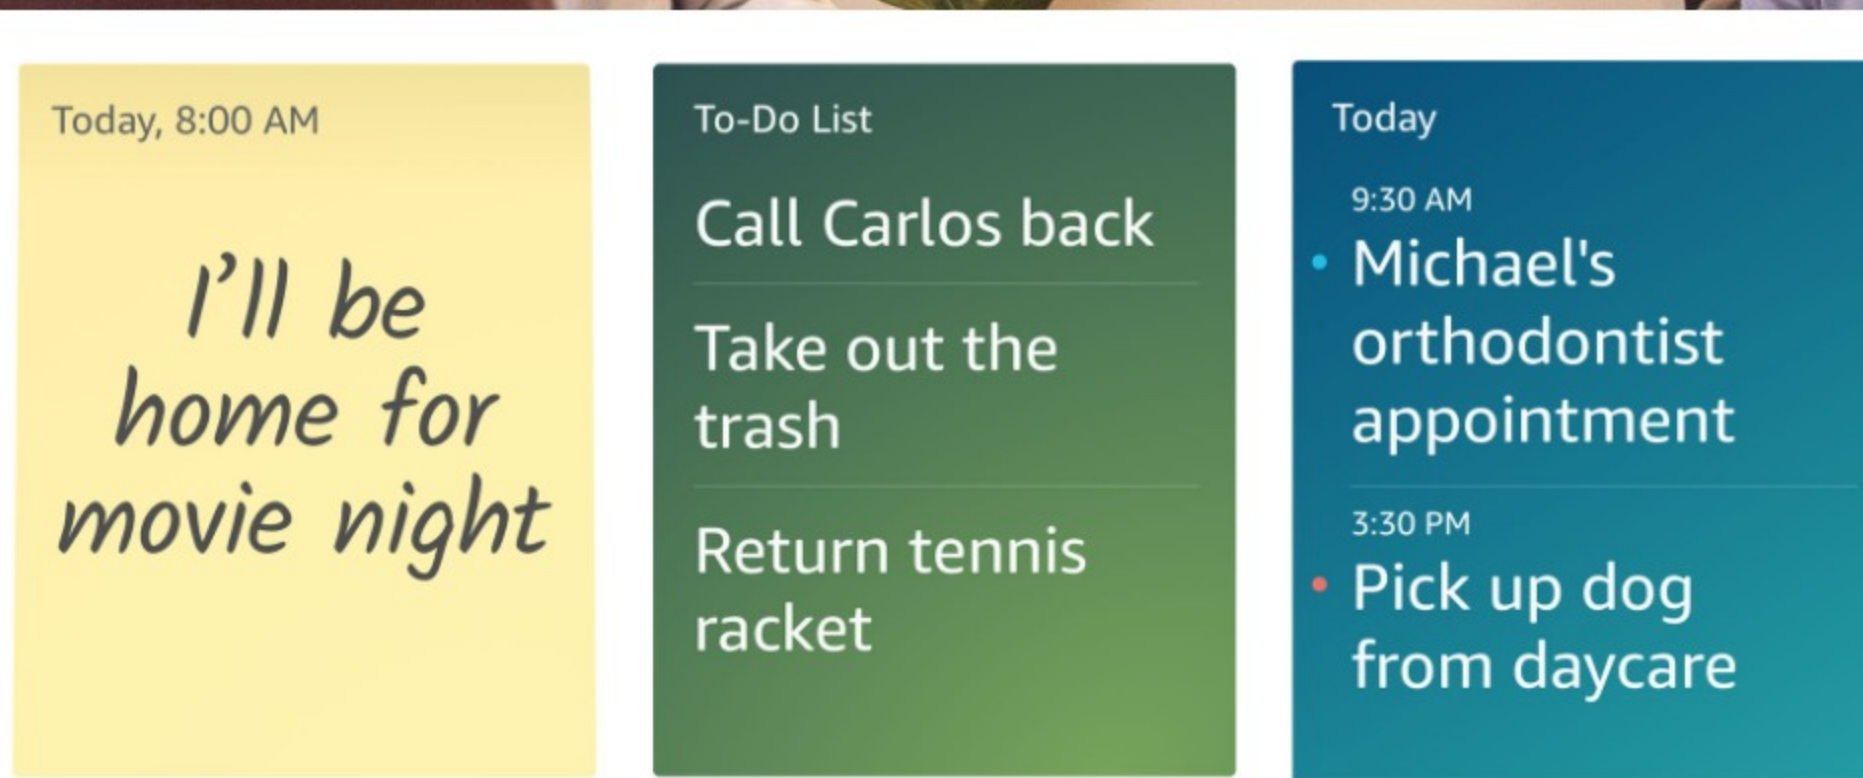

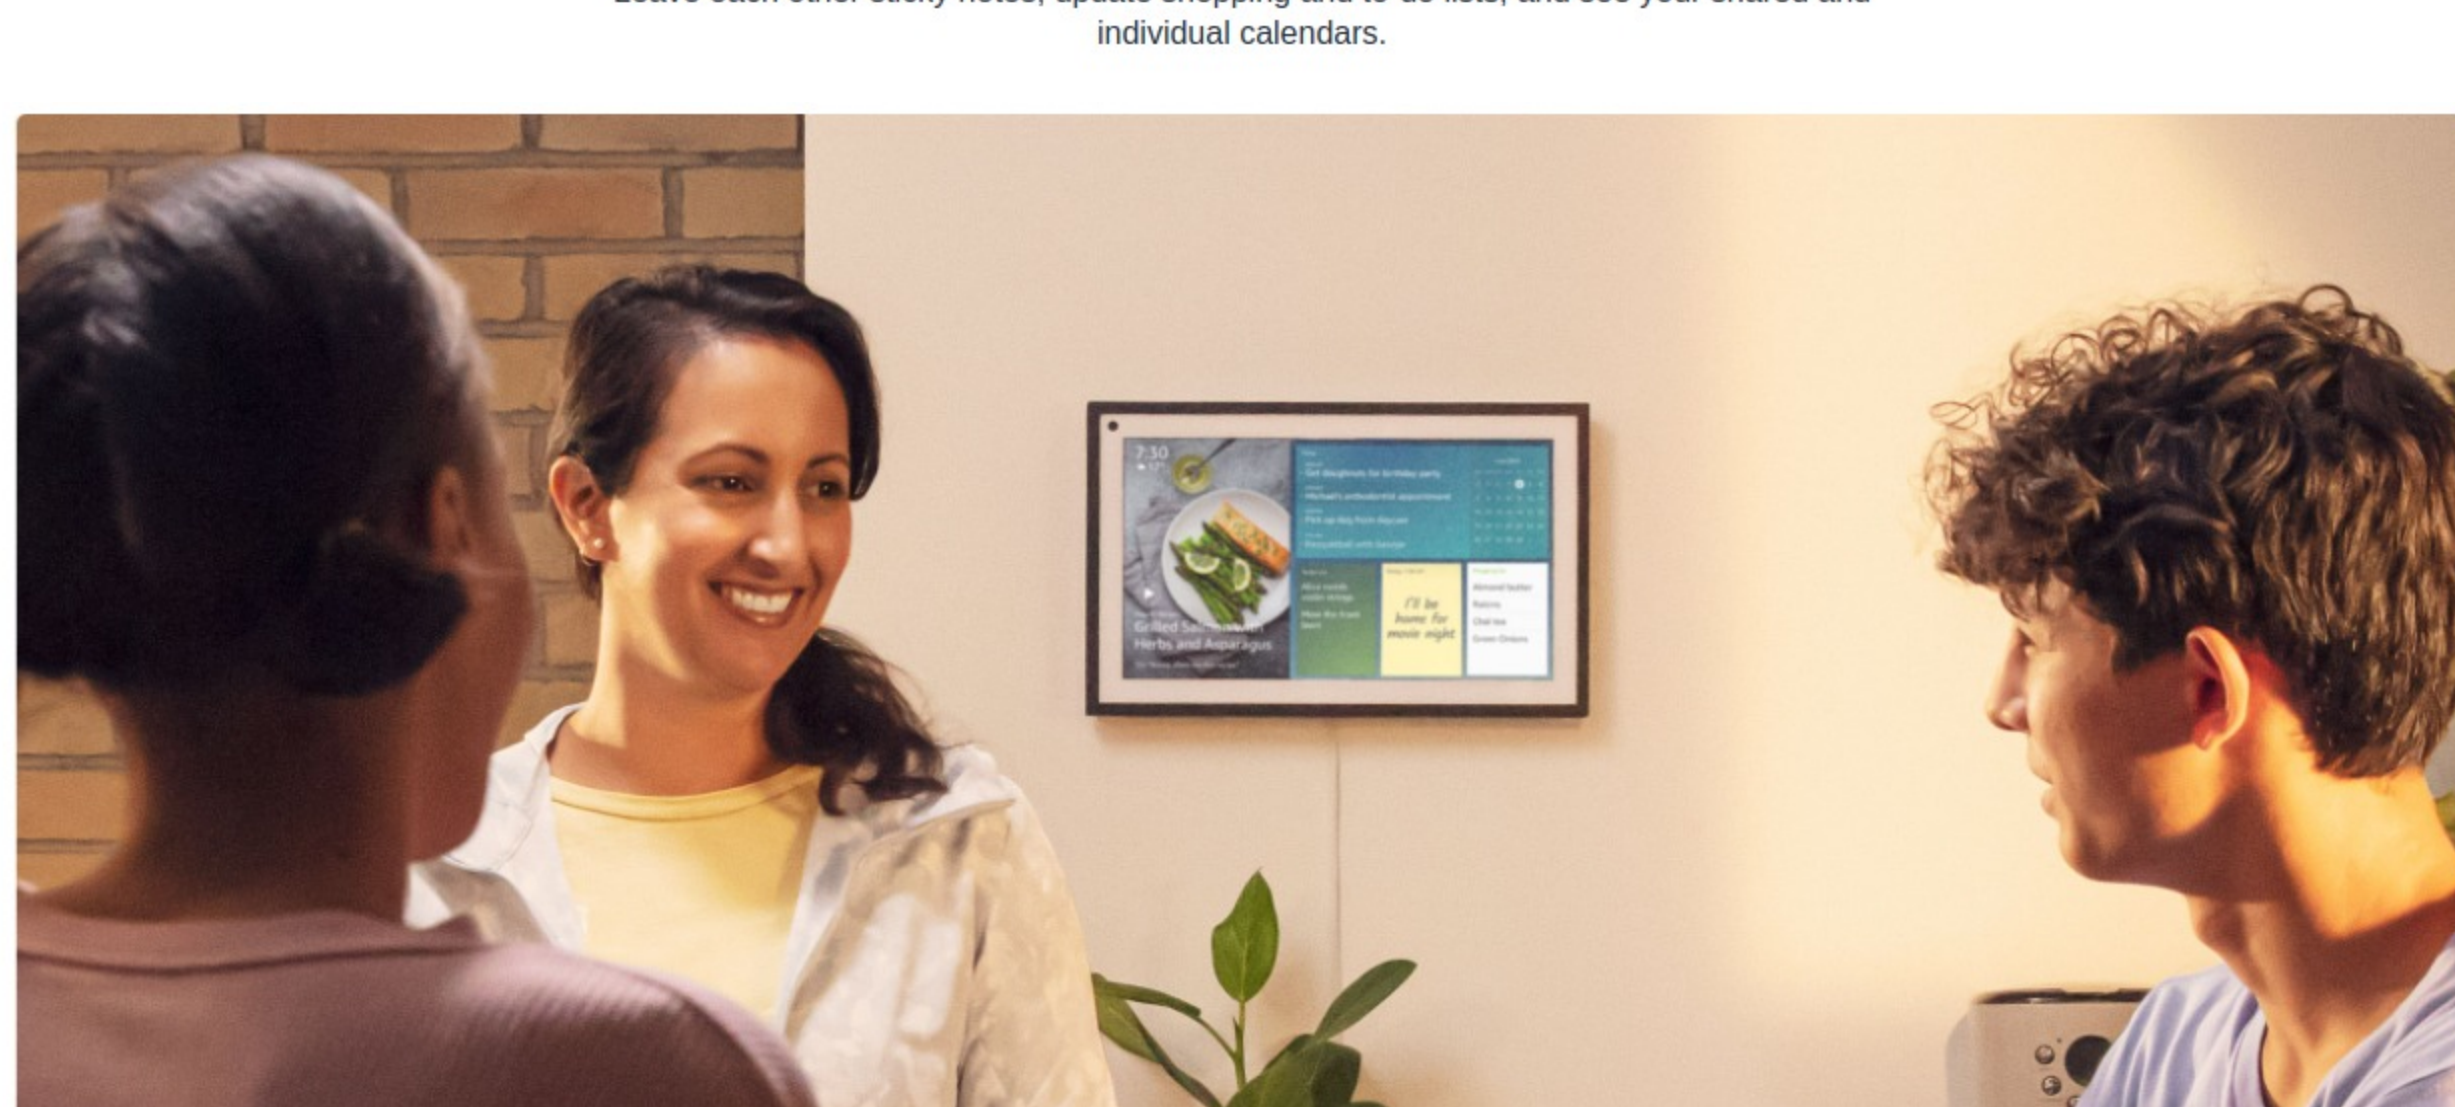

Choose the widgets you see on the home screen, so you can glance at the information that's most important to you and your family. You can also ask,

"Alexa, what widgets can I add?"

Family coordination at a glance

Leave each other sticky notes, update shopping and to-do lists, and see your shared and individual calendars.

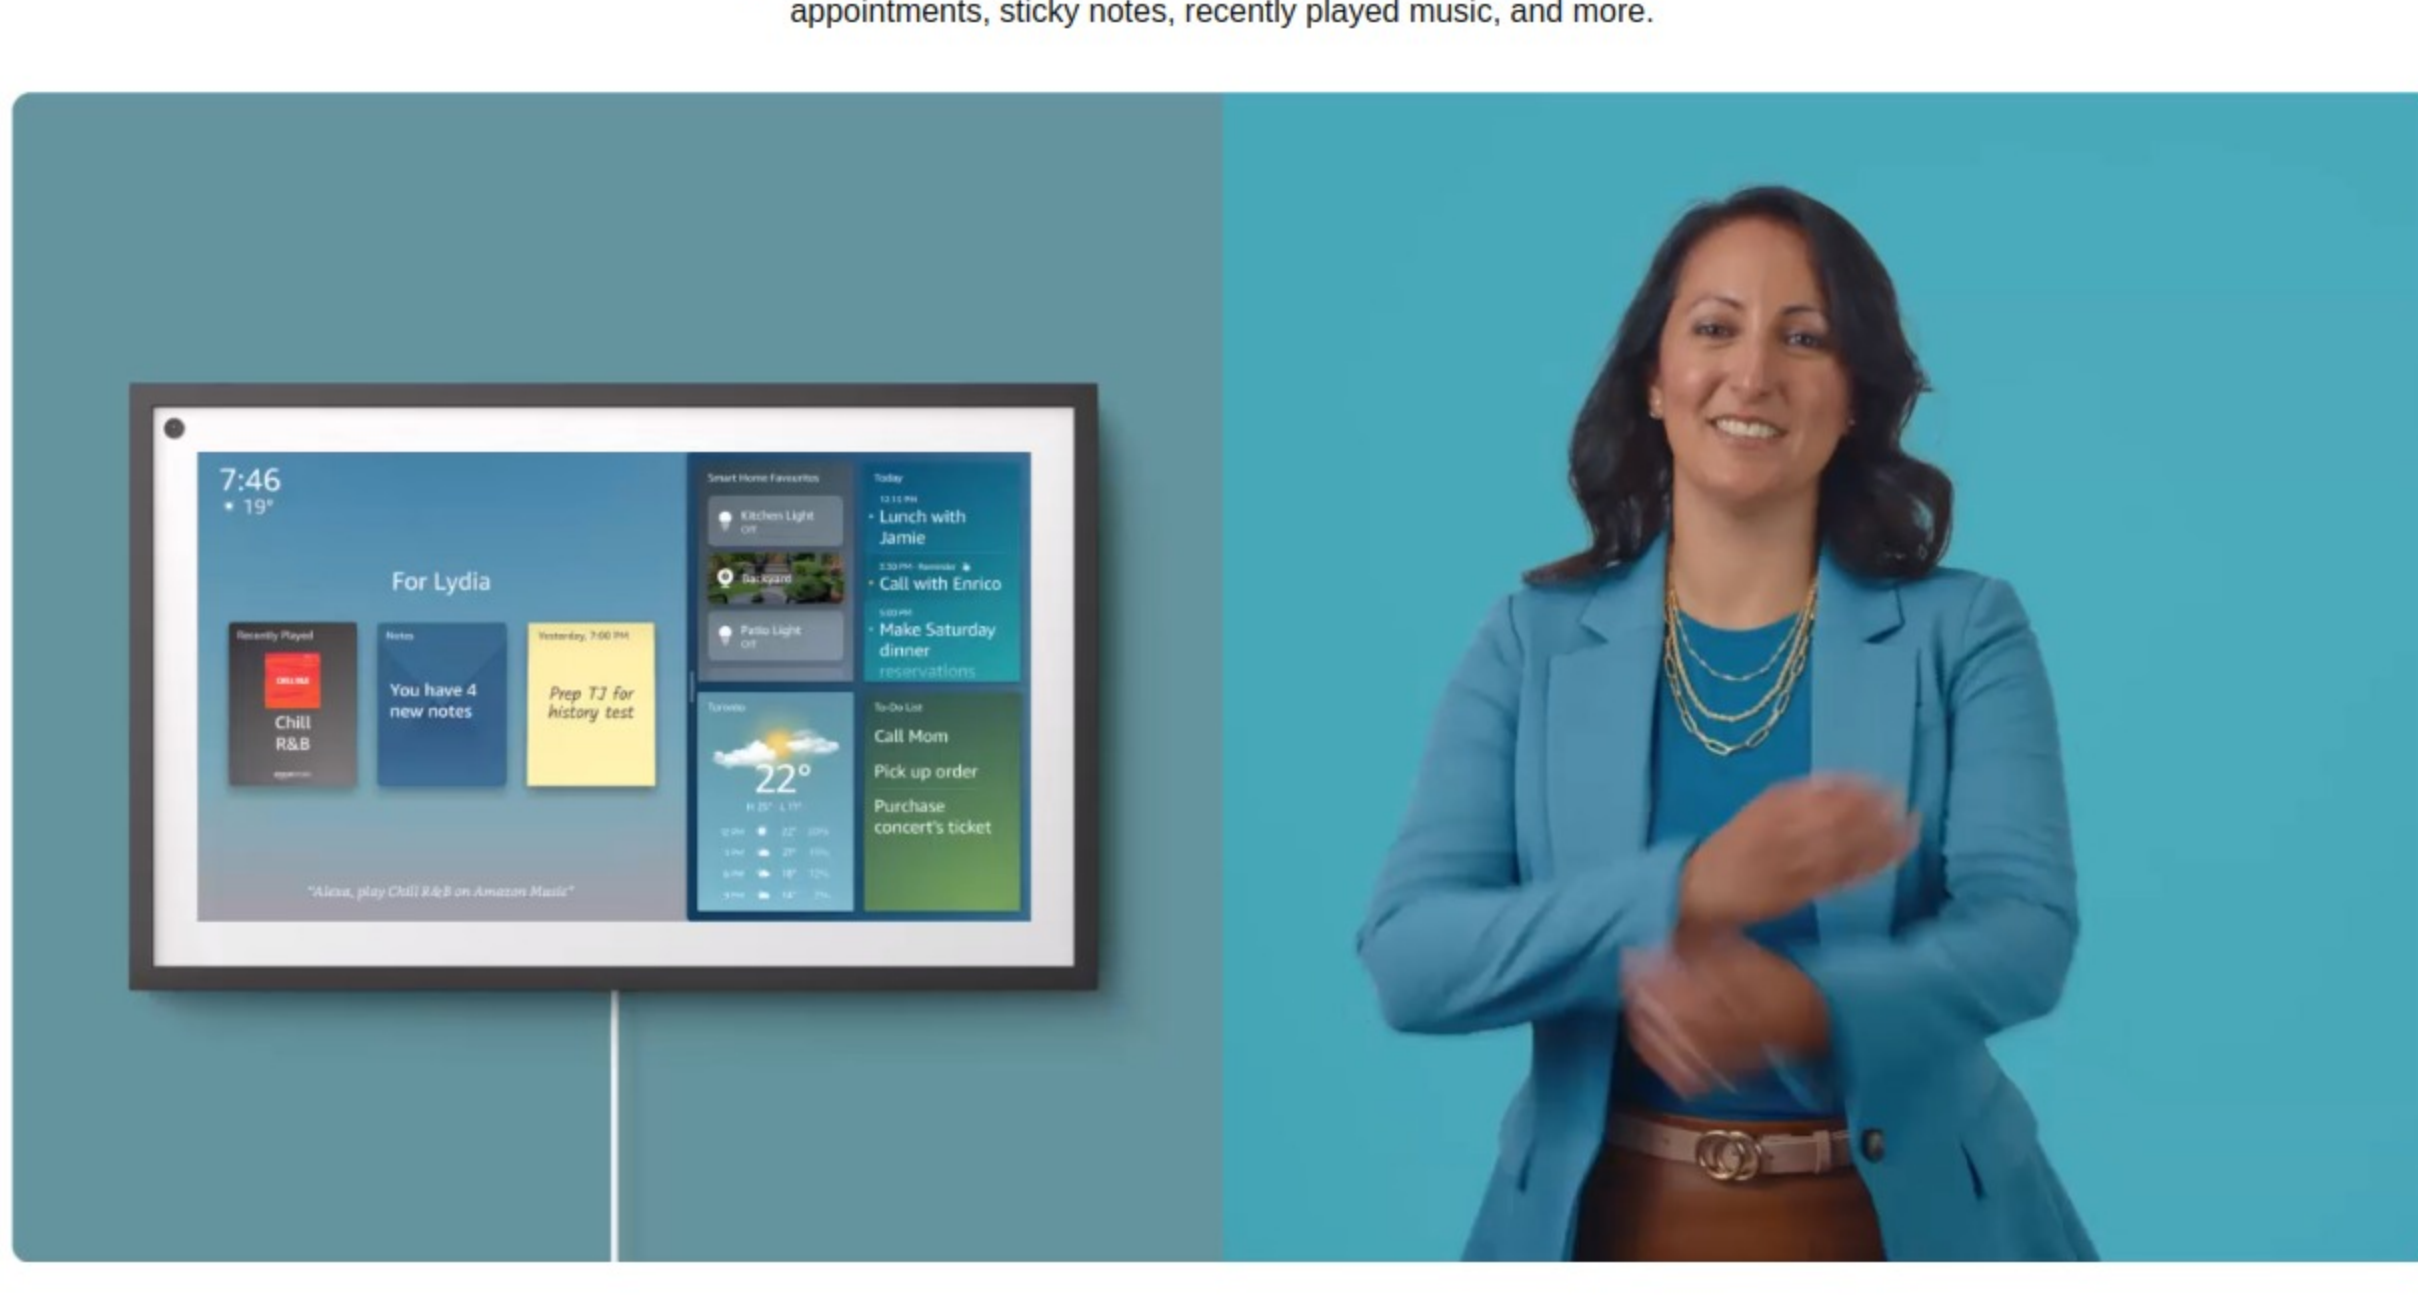

"Alexa, add a sticky note that says 'I'll be home for movie night.'"

"Alexa, add 'call Carlos back' to my to-do list."

"Alexa, what's on the calendar today?"

Get a personalized view

Family members can create profiles and use visual ID and voice ID so Alexa can recognize who's who and show the right information to the right person—like appointments, sticky notes, recently played music, and more.

No clue what to eat? No problem.

Discover fresh ideas for meals tailored to you, or simply ask, "Alexa, what should I eat?" See more recipe ideas on the screen from SideChef, and follow step-by-step instructions on how to cook them.

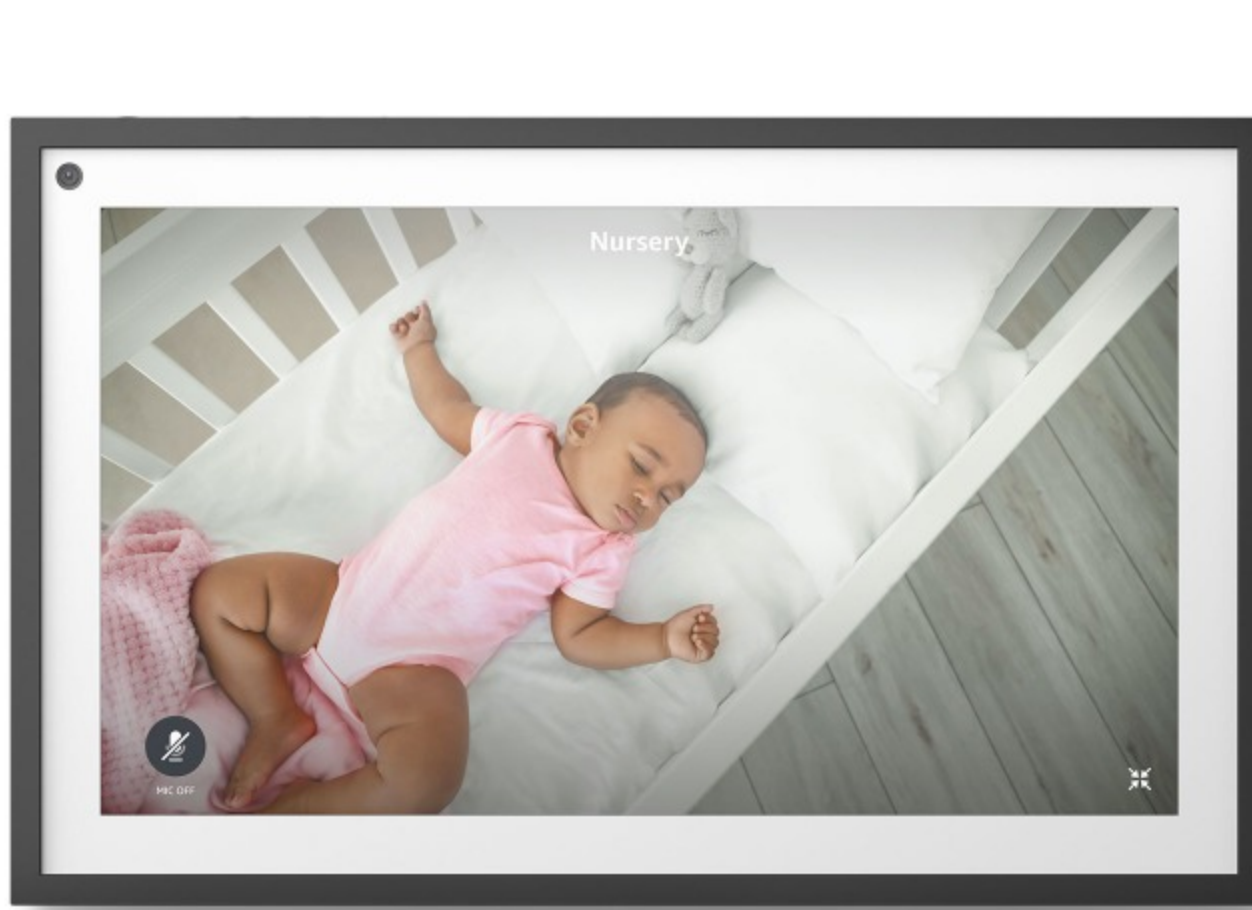

Stand sold separately

Keep your smart home centered

Save your favorite compatible smart home devices to the home screen for easy access, and control them all on one central dashboard. Add a picture-in-picture live camera feed to your screen, so you can do things like check the nursery cam while watching a show.

"Alexa, show me the nursery camera."

Stream your favourites on a 1080p screen

Catch up on the news, watch shows and movies, cook along with demo videos, and more. Enjoy Amazon Music with lyrics you can see on the screen, plus podcasts, radio stations, and audio books. For a multi-room music experience, you can connect to other compatible Echo devices.

Turn the 15.6" display into a work of art

With the Photo Frame feature, Echo Show 15 becomes a beautiful way to showcase your memories and personal style. You can transform the display into a full-screen, dynamic digital frame that highlights your albums from Amazon Photos, or available collections of artwork and stock imagery.

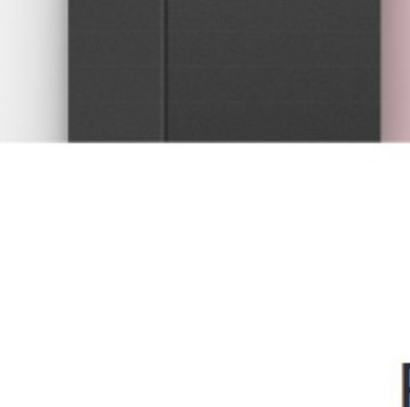

Stand sold separately

Designed to protect your privacy

Alexa and Echo Show devices are built with multiple layers of privacy protection. From the mic/camera off button and built-in camera shutter to the ability to delete your voice recordings, you have transparency and control over your Alexa experience. Learn more about Alexa privacy.

Easy steps for wall mounting

Learn more about mounting your device.

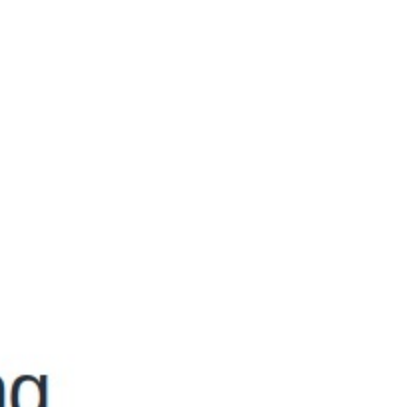

Decide where to place your device

Echo Show 15 can be mounted on a wall or displayed on a stand (sold separately).

Mount it

Screws are included along with a template to help you know how much space you need. An electric drill and other tools may be necessary.

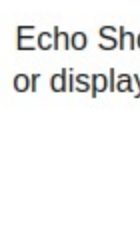

Switch from portrait to landscape

To change the orientation after installation, just unhook it from the wall and reattach it the other way.

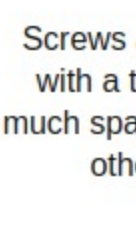

Every day is an earth day

You don't have to be an environmental scientist to make sustainable choices. We've considered sustainability in the design of this device. Here's how:

Device Materials

35% post-consumer recycled plastics in device.
99% recycled aluminum in device.
50% post-consumer recycled plastic in power adapter.
Cable not included.

Device Packaging

97% of this device's packaging is made of wood fiber-based materials from responsibly managed forests or recycled sources.

Low Power Mode

To reduce its energy consumption, this device will enter Low Power Mode when it is idle. Learn more here.
