

NIGHTHAWK

WIFI 6E PERFORMANCE UNLEASHED

RAXE300 with 7.8Gbps Speed

BREAKTHROUGH PERFORMANCE AND COVERAGE

Faster Speed
Up to 7.8Gbps* delivers seamless WiFi to all devices no matter how demanding

Next-Gen WiFi 6E Technology
Adds a 6GHz band for today's new WiFi 6E devices

Stronger WiFi Signals
Pre-optimized antennas deliver more reliable connections and coverage up to 2,500 sq.ft.

FASTER GAMING, FASTER STREAMING

8 simultaneous WiFi streams ensure everyone in your house enjoys no-lag AR/VR gaming, uninterrupted 8K streaming, and smooth video calls all at the same time

WIFI 6E, THE FASTEST WIFI EVER

A new 6GHz band provides the fastest speed and the greatest capacity for new WiFi 6E devices, and reduces data loads on the other two bands so WiFi speed increases for all devices

WiFi 6E

OUR WIFI SIGNALS JUST GOT BOOSTED

RAXE300 includes proprietary WiFi optimization and six optimally positioned antennas to deliver more capacity, stronger and more reliable connections, and less interference to your devices

MULTI-GIG WIRED CONNECTIONS

Use the 2.5G Ethernet port or 2Gbps link aggregation to send Gigabit+ speeds to your most demanding devices, and plug even more wired devices into the four additional Gigabit Ethernet ports

Link two Gigabit LAN ports together for up to 2Gbps aggregate speed

2.5Gbps Multi-Gig LAN or Internet port
