

Award-Winning, Unmatched Performance

Tri-band mesh technology creates the ultimate WiFi experience. It uses a third dedicated WiFi connection between your router and satellites to deliver maximum speeds throughout every square inch of your home, even hard-to-reach places. Stay constantly connected on all your devices, even as you move through the house.

Introducing Orbi WiFi 6 from NETGEAR

0:00 / 1:05

Keep Your Family WiFi Happy

Ensure that all your devices are connected to the best WiFi, from the front door to the backyard. No more dead zones or buffering, just powerful WiFi for everyone.

NETGEAR Armor

NETGEAR Armor cybersecurity keeps your network and private data safe from online threats, at home and on the go. One subscription protects an unlimited number of connected devices, from phones and laptops to thermostats and security cameras.

Easy Setup and Use with the Orbi App

With the Orbi app, setup takes just minutes, so you can start enjoying better WiFi sooner. You can also see your connected devices, run an internet speed test, manage your NETGEAR service subscriptions, and more from the palm of your hand.
