

ROG Strix Scope TKL Electro Punk wired mechanical RGB gaming keyboard for FPS games, with Cherry MX switches, aluminum frame, and Aura Sync lighting

- Created for FPS Gamers: the tenkeyless form factor provides more room to move the mouse, while the enlarged L-Ctrl key minimizes inadvertent pressing of other keys
- Portability: The compact keyboard fits easily into backpacks while the detachable cable prevents scuff marks or scratches
- Quick-Toggle Switch: Instantly shift between function and media key inputs
- Stealth key: Tap to hide all apps and mute audio for instant privacy; tap again to play on
- Cherry MX switches: German-made, micro-switched actuators for precision input with tactile feedback
- Durable construction: Aluminum top-plate with striking slash aesthetic combines resilience and style

ROG STRIX SCOPE TKL ELECTRO PUNK

ROG Strix Scope TKL Electro Punk is a compact, tenkeyless mechanical keyboard with Xccurate Design – an extra-wide Ctrl key that’s easier to feel and find in the FPS frenzy. With a choice of Cherry MX switches for optimal feel and reliability, an all-aluminum top plate for strength and style, and more customizable Aura RGB lighting than we’ve ever engineered into a ROG keyboard, it empowers you to play like a pro and rise above the battlefield crowd.

Note: Keyboard layout may differ slightly depending on the region or language.

TKL Form Factor for FPS

ROG Strix Scope TKL Electro Punk is a high-performance mechanical gaming keyboard with a small footprint, freeing up space on your worktop for broader mouse movements – perfect for the lower sensitivity settings that slow the reticle for leveled-up aiming accuracy. The keyboard is topped with an aluminum faceplate for everyday resilience, and finished with a striking slash aesthetic for a little touch of style.

Instant Privacy

A quick tap of ROG Strix Scope TKL Electro Punk’s Stealth key instantly hides all apps and mutes all audio, assuring privacy the moment you need it. Decorated with an iconic cloaked-figure motif, a second push of Stealth puts everything back to just the way it was.

AURA SYNC

ROG Strix Scope TKL Electro Punk is loaded with vibrant RGB illumination for you to command. There’s an individual RGB LED under every key, RGB lock indicators and an RGB ROG logo. It even projects an arresting RGB underglow from below, extending the lighting beyond the keyboard. Powered by Aura Sync, the entire color spectrum and a range of dynamic lighting effects are at your command to create a complete system that’s uniquely yours. Strix Scope TKL Electro Punks lighting is also easily synced with the extensive Aura ecosystem, so it’s easy to build a gaming environment that really shines.

- Products certified by the Federal Communications Commission and Industry Canada will be distributed in the United States and Canada. Please visit the ASUS USA and ASUS Canada websites for information about locally available products.
- All specifications are subject to change without notice. Please check with your supplier for exact offers. Products may not be available in all markets.
- Specifications and features vary by model, and all images are illustrative. Please refer to specification pages for full details.
- PCB color and bundled software versions are subject to change without notice.
- Brand and product names mentioned are trademarks of their respective companies.
- Unless otherwise stated, all performance claims are based on theoretical performance. Actual figures may vary in real-world situations.
- The actual transfer speed of USB 3.0, 3.1, 3.2, and/or Type-C will vary depending on many factors including the processing speed of the host device, file attributes and other factors related to system configuration and your operating environment.

About ASUS

ASUS aspires to deliver the incredible in everything it does.
