

WIRELESS POWER AT YOUR FINGERTIPS

ROG Balteus Qi is a gaming mouse pad that brings the convenience of Qi wireless charging to the desktop. Its large, portrait-oriented surface offers ample room for playing in comfort while powering up compatible devices, and its micro-textured finish is optimized for ultrafast tracking. Featuring 15 individually customizable Aura Sync RGB lighting zones, get ready to play your way, your style.

Qi Wireless Charging

Put your Qi-compatible device on the charging zone, sit back, and enjoy the convenience of wireless charging right on the desktop. A built-in LED status indicator pulsates when the juice is flowing to let you know that your device is charging.

Note: The Qi charging cable must be connected to enable the wireless-charging function.

Note: Metal objects or items containing metal, such as coins, cases or credit cards, should not be placed on the charging zone.

15-Zone Aura Sync Lighting

With 15 individually customizable RGB lighting zones, ROG Balteus Qi is ready to illuminate your desktop with dynamic colors and synchronize with existing Aura Sync gear for exciting lighting possibilities. There's even an on-pad button to adjust effects or brightness on the fly, so you can plug in and game in style.

Gaming-Optimized Portrait Surface

ROG Balteus Qi has a large 320 x 370mm portrait surface, so there's plenty of room for comfortable mouse maneuvering – even when charging a compatible device. The pad's performance hard surface is micro-textured for ultrafast tracking and optimized to deliver deadly accuracy, regardless of the sensor or settings. Connectivity is intuitively placed at the top-left to keep the cables out of the way.

USB Passthrough

With a built-in USB 2.0 passthrough port, ROG Balteus Qi lets you conveniently connect your gaming mouse or other devices.

Stylish Nonslip Rubber Base

A nonslip rubber base, emblazoned with the ROG cybertext design, keeps ROG Balteus Qi firmly anchored during heated gaming sessions.
