

## ROG Gladius III

Classic asymmetrical gaming mouse with specially tuned 26,000 dpi with 1% deviation, instant button actuation, exclusive Push-Fit Switch Socket II, laser-engraved ROG aesthetic, ROG Omni Mouse Feet, ROG Paracord and Aura Sync RGB lighting

- 19,000 dpi with class-leading 1% deviation (specially tuned to 26,000 dpi), 400 ips optical sensor, and 1000 Hz polling rate
- Unique pivoted button design and tuned software for instant button actuation without unwanted clicks
- Exclusive Push-Fit Switch Socket II design enables hot swap compatibility with mechanical switches and Omron Optical Micro Switches to vary click force and extend lifespan of the mouse
- ROG Micro Switches offer consistent click force and a 70-million-click lifespan
- Laser-engraved ROG markings on the side of the mouse features RGB illumination
- ROG Paracord cable and 100% PTFE rounded-edge mouse feet ensure a swift and smooth glide
- Five onboard memory profiles make it easy to save customized settings
- DPI On-The-Scroll enables effortless on-the-fly adjustments

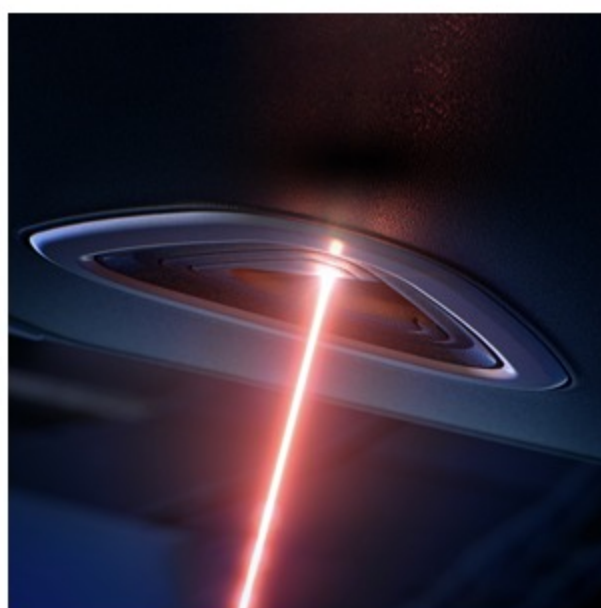

Republic of Gamers (ROG), part of the ASUS family, is dedicated to creating innovative hardcore gaming hardware for gamers. ROG is committed to providing the absolute best performance and quality from its complete line of products. ROG is for those keen on the finest gaming hardware and software, it enables the ultimate computing experience for gamers and enthusiasts worldwide. All the while incorporating a stylish gamer-focused design merging the excitement of gaming with a unique premium style

### CLASSIC ASYMMETRICAL DESIGN

The classic asymmetrical design of Gladius III is well-suited to a variety of right-handed grip styles, providing comfort that lasts. It's also 30% lighter than its predecessor, allowing for faster and smoother control.

### ULTIMATE PERFORMANCE

#### ULTIMATE PERFORMANCE

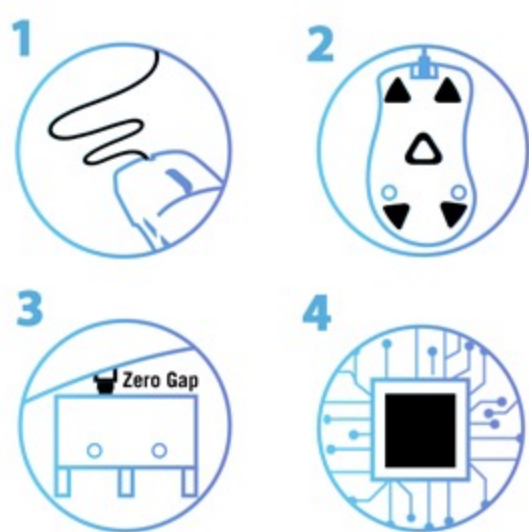

A high-end optical sensor delivers the accuracy and precision you need. Offering a range of 100 – 26,000 dpi (with class-leading 1% deviation), Gladius III tracks flawlessly at up to 400 inches per second at 50 g acceleration. A 1000 Hz polling rate in both 2.4 GHz and wired modes offers lag-free response for instantaneous control.

\* ROG Gladius III features 19,000 dpi optical sensor that is specially tuned to 26,000 dpi.

### ROG MICRO SWITCH

The new ROG Micro Switches feature a 70-million-click lifespan and a gold-plated electro-junction to improve durability. Strict ROG manufacturing standards ensure that each individual switch is inspected and sorted, pairing left and right switches to keep force deviation within +/- 5 gram-force for a consistent click feel.

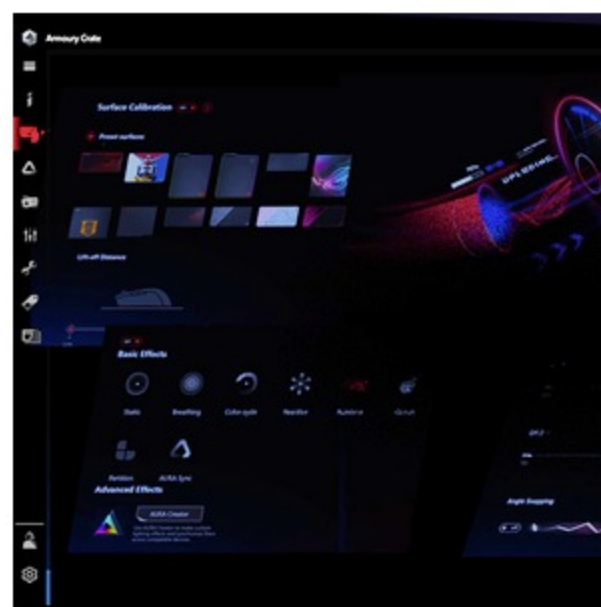

1. **ROG PARACORD** The integrated 100% Teflon (PTFE) mouse feet are rounded to ensure an effortless glide across any surface. 2. **OMNI MOUSE FEET** The integrated 100% Teflon (PTFE) mouse feet are rounded to ensure an effortless glide across any surface. 3. **PIVOTED BUTTON MECHANISM** This unique mechanism minimizes the distance between buttons and switches for near-instantaneous click response.

4. **PROFILE MEMORY** You can also save up to five custom profiles utilizing the onboard memory, all accessible by pressing the Profile button.

### AURA LIGHTING

The ROG logo, scroll wheel, and ROG markings along the side of ROG Gladius III feature integrated ROG Aura RGB lighting. The laser-engraved side panel also features special flicker effects that can be customized with the color of your choice.

### ARMOURY CRATE

Armoury Crate lets you easily tune ROG Gladius III to suit your gameplay. Adjust performance and surface calibration settings, program and map buttons, customize lighting effects, and more.
