

Super Immersive, Super Fast

C32G2

AMD FreeSync Premium

Where size meets performance

Boasting a speedy 165Hz refresh rate that pairs with a 1ms response time makes the C32G2 a monitor built for gaming. Not only will this monitor support high level gaming, it will also give you an immersive experience with its 32-inch curved screen. This is ideal for those who love to game and want the best out of their monitor.

What's in the Box:

32" Monitor, Power Cord, DP Cable, HDMI cable, and QSG.

Features:

- Curved 32" with 1920x1080 Full HD Resolution
- VA panel for wide-viewing angles and world class colors
- Rapid 1ms Response Time (MPRT) and 165Hz Refresh Rate
- VGA, Display Port 1.2 and 2 x HDMI 2.0 connections
- No stuttering or tearing with FreeSync Premium Technology
- Sleek, frameless design with height, swivel, tilt adjustability
- FlickerFree and AOC LowBlue Mode Technology
- Produces rich colors with color gamut area coverage of 123.3% sRGB and 91% of Adobe RGB

Fast refresh rate

Equip yourself with twice the frame rate of other monitors and say goodbye to image stuttering and blurry motion. With a 165Hz refresh rate every frame is rendered sharply and in smooth succession, so you can line up your shots accurately and appreciate high speed races in all their glory.

VA panel for optimal viewing

VA displays use an advanced technology which gives you an extra wide 178-degree viewing angle, making it possible to view the display from almost any angle. VA panel on the C32G2 gives you vibrant images with true-to-life colors, displaying over 123.3% of sRGB gamut profile. AOC C32G2 is ready for more than just gaming duty.

Quick response time

A pixel response time of 1ms means speed without the smear for an enhanced experience. Fast-moving action and dramatic transitions will be rendered smoothly without the effects of ghosting.

Height adjustable stand

Having the ability to adjust the height of your monitor is a necessity for gamers. This monitor also allows you to pivot, swivel, tilt, and is Vesa mountable. These controls will let you play games at a comfortable level designed just for you.

Smooth gameplay

The AMD FreeSync Premium Technology ensures that the GPU's and monitor's refresh rates are synchronized, which provides a fluid, tear free gaming experience at highest performance. The AMD FreeSync Premium features a refresh rate of minimum 120Hz, decreasing blur and sharpening the picture for a more life-like experience. The LFC feature eliminates the risk of stutter in case the frame rate drops below the refresh rate.

Ultra-immersive

A 1500R super curved panel wraps around your field of vision, putting you at the center of the action. This curved design will enhance the way you play games and help further immerse yourself into the action.
