

Odyssey Ark

55 Inch Large screen

Multi View

Gaming Hub

HDR 10+ Gaming

Overwhelm your senses

The massive 55" screen delivers a display that overwhelms your senses, creating an adrenaline-fueled experience superior to anything seen before. The 1000R curvature mirrors the shape of the human eye to fully immerse you in every game. There's no better monitor to upgrade your gaming setup than Odyssey Ark.

* Optimal viewing distance is at over 2.6 ft.

165Hz & 1ms

Neural Quantum Processor

Ark Dial

AMD FreeSync Premium Pro

Incredible 4K gaming refresh rates

Conquer every enemy, even at extreme speeds. Ark's 165Hz refresh rate virtually eliminates lag for exhilarating gameplay with ultra-smooth action. Identify enemies with elite precision with the help of a 1ms response time which ensures precise mouse movements and blur-free frames, with minimized ghosting.

Cockpit Mode

Flex Move Screen

Quantum Matrix Technology

Matte display

Game Bar

Swing into groundbreaking views

Take control of your personal gaming cockpit. Rotate the screen to Cockpit Mode with HAS, tilt and pivot functionality for an optimal screen environment. This customizable positioning creates a new sense of world-blending immersion, further enhanced by ambient Eclipse Lighting.

* To display in 9:16, vertical selection is required during initial setup.
** Screen should be manually rotated for cockpit mode.

Engulf yourself in sound

Lose yourself in a world that sounds as good as it looks. Four corner speakers and two central woofers produce a 60W 2.2.2 channel with the lowest 45Hz notes of any gaming screen or sound bar. AI Sound Booster and Dolby Atmos take it to the next level, surrounding you in a three-dimensional soundscape that teleports you inside the gaming world.

* Frequency response is measured based on internal testing conditions.
