

Designed to impress

The Lenovo IdeaCentre AIO 3 Gen 6 (24" AMD) is a stylish, high-performance home PC. Powered by an AMD Ryzen processor with integrated AMD Radeon graphics, it get things done, fast. It's also great for family viewing with a stunning 23.8" FHD display and dynamic Harman Kardon-certified speakers. Plus, it has enough storage for all your photos, songs, and movies.

Built for entertainment

The stylish IdeaCentre AIO 3 delivers clear and rich audio through its Harman Kardon-certified speakers, perfectly complementing the stunning 23.8" FHD display. Plus, view more of the screen with the IdeaCentre AIO 3's three-sided narrow bezel display for vibrant colors that surface on screen with crystal-clear quality from almost any angle.

Smart, adaptive design

We've designed the slim and compact IdeaCentre AIO 3 in a way that adapts to how we use our PCs today. That's why the stand comes with a dock to place your mobile phone to enable easier multi-screen engagement or to simply keep your phone in sight so that you won't miss any incoming notifications or calls.

Instant privacy, instant log-in

A thoughtful design to meet your taste for a clean frame and your need for practicality. The hidden camera on the top of the IdeaCentre AIO 3 enhances authenticity during your video chatting or conferencing. The webcam enables facial recognition that allows you to log in instantly. Push it down when you need an extra layer of security.
