#### FEEL THE BEAT

With 7.2mm dynamic drivers and Knowles balanced armatures, the hyper-modern Sirius Pro TWS earbuds bring you a powerful music experience that delivers on all levels - low, high, and everything in between.

#### CUT OUT THE NOISE

Switching to calls, the environmental noise cancellation cuts out unwanted background noise and strengthens the sound of human voices giving you sharp, clear calls every time.

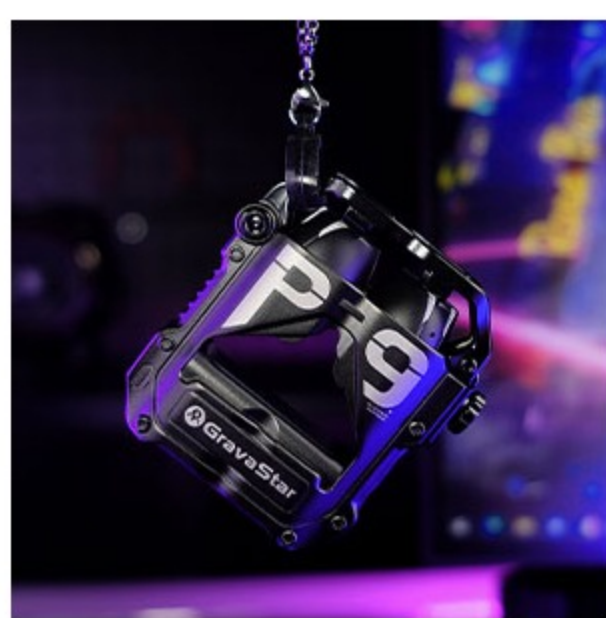

#### READY FOR THE FUTURE

With cutting-edge, mecha futuristic design, the case is made from zinc alloy which is scratch-resistant and ultra durable. With 6 RGB lights and a bottle opener built right into the case the case features a rugged extra-terrestrial design.

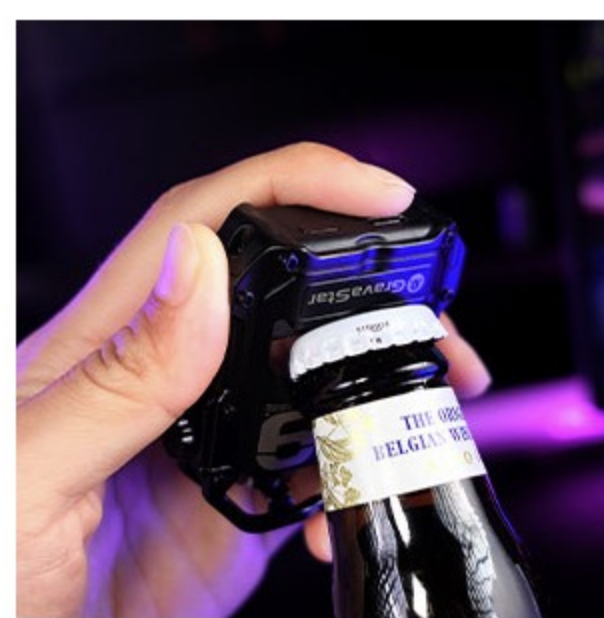

#### BUILT-IN POWER-UPS

Built for durability, the Sirius Pro earbuds come with enough power to fuel a rocket. The battery gives you 4 hours of continuous playtime and has 3 extra charges in the case so you never run out when you are on the go.

#### IMMERSE YOURSELF IN THE SOUND

Soft silicone tips in three different sizes shape effortlessly to your ear and block out unwanted noise. Each earbud weighs only 6 grams making them so light you forget they are even there.

#### IPX 5 FOR SWEAT & WEATHER RESISTANT

Sirius Pro Earbuds are built for life on the go. IPX5 rating for durability, no matter sweat on the run or adventure outdoor, you can enjoy the music in all circumstances.

**4H** on a single charge  
**16H** with charging case

**LONG TIME USING**

Built for long time using, the Sirius Pros have enough rocket fuel to power your audio for 16 hours. That is 4 hours of continuous playtime in the buds, and 3 extra charges in the case. So go a level further, play another symphony. You have got time to kill.

**SOLID BUILT WITH SCI-FI DESIGN**

The charging case is made from a zinc alloy material that makes it resistant to scratches and durable enough to take anywhere. Featuring a mechanical button and laser engraved touch panel that gives it a weathered deep space feel.

**6 RGB LIGHTS**

Each cyberpunk inspired charging case is equipped with six RGB LED lights so you can personalize your case to match your style.

**ENC - CALLING CLEAR AND LOUD**

Environmental Noise Cancellation cuts out unwanted background noise while strengthening sounds from human voices. So you get crystal clear calls every time.
